## No.19 Concede the Truth or Fall

**“As history has also shown, especially in the twentieth century, one of the first things an ideologue will do after achieving absolute power is kill.”**

**Thomas Sowell, The Quest for Cosmic Justice**

What does an affluent black in the northeast have in common with black welfare recipient in Mississippi and a black state employee in California besides being black? The answer is there is a 95% chance they vote straight ticket for Democrats and as such are singularly responsible for the growing authoritarian fascist government nearing absolute power...not to mention abortion rights up to the moment of birth in some states i.e. blacks are the facilitators of the false religion of intellectual arrogance Marxianity.

That truth puts blacks on the wrong side of the end of history as it is understood. Worse yet, as a subculture the allegiance is an affront to a God unwilling to negotiate the right and wrong of dependence, abortion on demand, the alphabet of sexual preference, sexual transition and crime. All are evil and will be coming to an end in 2026 and there is nothing the ‘Go down Moses’ pastors or anybody else can say or do to change the truth.

The black subculture is putting a Constitution bearing the personal imprimatur of God at risk and by extension Israel and the Holy Nation. The God of Sinai, Yeshua and 1776 will soon begin to intervene with messages written in the ink of natural phenomenon to validate, supplement and provide context to the message written across the tablet of time that is the Convergence Matrix.

With singularity just a few years hence there is very little time to concede the truth. I am tasked with destroying or subduing the false religion Marxianity which requires a deaf ear to those who take offense to the truth in that lives and souls are far more important than the hurt sensibilities of the ‘woke’ or the anger of blacks unwilling to concede the truth. The “woke” have reason enough to worry about preparations for 2026 without interfering with blacks who have the weight of the world on their shoulders.

Blacks are ill prepared for a God given commission and destiny; a great African nation for blacks exclusively.

Marcus Garvey exhibited a degree of prescience which speaks truth to the evil that is Marxianity; he recognized the importance of cultures, peoples and a nation of their own.

*“We are men; we have souls, we have passions, we have feelings, we have hopes, we have desires, like any other race in the world. The cry is raised all over the world today of Canada for the Canadians, of America for the Americans, of England for the English, of France for the French, of Germany for the Germans – do you think it is unreasonable that we, the Blacks of the world, should raise the cry of Africa for the Africans?”*

The words include an unintended warning of what can be expected in 2026 to offset the Marxian multiculturalism strategy designed to weaken the United States, the Anglosphere and western civilization; multiculturalism as a premise destroying the object threatening cultures a thousand years in the making with civil war in the United States and France a real possibility.

Simple common sense would have the migrants returning to their place of origin so as to allow cultures to stabilize and regenerate...thus creating a world of true cultural diversity with the greater cultures tasked with elevating the lesser in time.

*Concede the truth or fall*; the issue is not now and never has been one of race but rather greater and lesser peoples and cultures and nowhere is that truth more apparent than Africa. Contrary to popular belief the colonization of Africa did not begin in earnest until 1880 for a simple reason; a number of European trading centers were located on the coasts of Africa but the high mortality rate associated with interior diseases such as malaria resulted in prohibitive cost benefit calculations until advancing technologies and the need for resources to fuel them changed the equation.

As late as 1870 only 10% of the coastal African continent was controlled by European powers but with steam shipping, railroads and medicines such as quinine the interior cost benefit equation changed; between 1880 and 1914 colonization by France, Britain, Spain, Italy, Germany, Belgium and Portugal would result in 90% control.

In the 35 years between 1880 and 1915 European control of Africa grew to 90% and within another 35 years "liberation" movements started the process of creating countries across the map of Africa and yet the societies are still largely tribal; the cities shadows of their western counterparts and the standard of living the lowest in the world. Zimbabwe is a basket case and South Africa not far behind, but because they and so many other African countries are Marxian to point out the truth is "racist".

In truth, the 100 years of colonialism was the best thing to happen to black Africa; South Africa began building railroads in the mid-19<sup>th</sup> century and its 19,004 miles of railway represent 80% of Africa's rail infrastructure. In 1989 the luxurious Rovos Rail was commissioned...a last contribution before Mandela and the ANC took over.

*Concede the truth or fall*; blacks have virtually no presence in American agriculture and a less than 5% presence in construction which hard working Hispanics rightfully dominate in the absence of equally deluded and pampered young white Americans. Agriculture and construction represent the essential predicate of nation building but to the average urban black "sending us back to the fields" is no longer an option and the physical effort, knowledge and discipline of construction is ill suited to an urban black mindset of income by other means intentionally nurtured by Marxian elites.

*"No race can prosper till it learns that there is as much dignity in tilling a field as in writing a poem. It is at the bottom of life we must begin, and not at the top."*

Booker T. Washington

The fact that blacks have been lured away from the two most important predicates for nation building speaks volumes as to Marxian intent from the higher vantage; evil incarnate seeks to insure blacks are unprepared for a chosen purpose...the creation of a great African nation for Africans. That Marxians know the idea of Africa for Africans is growing and threatens the black Democrat voting block can be found in the "Justice for Black Farmers Act" to ostensibly "...reform the U.S. Department of Agriculture, provide debt relief and create a land grant program to encourage a new generation of Black farmers."

The Act is Pigford on steroids that handed out \$50,000 checks to virtually any black "farmer" claiming to have been discriminated against including half the people in a Cleveland apartment complex. It is now as it was then; a form of reparations proposing to distribute 32,000,000 acres, 160 acres each, to black "farmers" at no charge through a system of land grants to be determined by an Equity Commission tasked with studying the never to be resolved legacy of never proven discrimination at the USDA and Department of Agriculture.

The act would create 200,000 farms that when combined with existing black farms would roughly equal the number of black farms in 1900 before the great migration northward; reparations that would then require homes, barns and farm implements all of which would be rationalized as a logical extension of the aforementioned never to be resolved legacy of never proven discrimination at the USDA and Department of Agriculture.

It's no coincidence 32 million acres, 50,000sq mi, is equal to the cultivated farmland soon to be expropriated without compensation from white farmers in South Africa by the Marxist government founded by Mandela; violating the 50/50 terms of the 1994 agreement with the African National Congress. It would be quite easy and logical to merge the "Justice for Black Farmers Act" with the African Exodus legislation to compensate the white South African farmers while at the same time creating 200,000 160 acre farms. You will know them by their works...Marxians would not allow that to happen. Blacks as Democratic-Republicans can make it happen.

*Concede the truth or fall;* the black subculture points to slavery as the ultimate evil and yet 155 years after the fact the young have rejected education as a 'white thing' when in truth the first lesson every black child should be taught about the 'peculiar institution' of slavery goes to primary weapons of control used by slave owners; slaves were dependent upon the master for subsistence and were denied educations. By that measure alone one can know the nature of the chains forged and donned voluntarily bonding blacks to a false religion for which history is a weapon.

*"When you look at the past without G+d's eyes, you subject yourself to deception. The past no longer exists and G+d doesn't linger there. However, Satan will show you whatever you want to see and believe, so you will be trapped in an emotion that cannot communicate truth, beyond what you want to remember."*

Shannon L. Alder

Read the June 11, 2020 article *'The True Plight of Black Americans'* by the late Walter Williams and concede the truth; blacks must break the chains and education must become a black thing very quickly. The first lesson young blacks should be taught when entering school is that there was a time people were enslaved across the Middle East, Africa, South America...and to a far lesser extent North America where the black population would grow at the same rate as whites while those taken elsewhere were lost to history; the black subculture will either recognize the blessing or lose the blessing and fall with the false religion Marxianity.

*Concede the truth or fall*; intelligence, education, morals and character must be woven together with the knowledge of God to create a well-balanced and independent individual...and IQ measurements are nothing less than a valuable tool not an indictment. There was a time when the US military was not as politically correct as it is now and because lives were on the line vigorous testing meant to determine the minimal IQ necessary for training purposes was in place. IQ has been deemed racist which begs the question; would American blacks with average IQ's of 85 be considered supremacists when compared to sub-Saharan blacks with an average IQ of 70 or simply a greater people and culture blessed by the American experience?

*"I have supposed the black man in his present state might not be [equal to the white man]; but it would be hazardous to affirm that equally cultivated for a few generations, he would not become so."*

Thomas Jefferson to Chastellux, 1785

It is not unreasonable to believe the average today would be even higher thus much better prepared for the African Exodus had Marxians not destroyed the black family. The subject of IQ has been declared taboo and inherently racist and as such a valuable measure that took thousands of years to develop has been lost; a measure that, like the Lydia Lion, is capable of quantifying the ability to transfer value from one generation to the next. Embracing education as a cultural imperative would effectively offset the lost opportunity that came with embracing Marxianity.

*Concede the truth or fall*; when pandering politicians enacted the 'Second Chance' and 'First Step' acts the myth of "institutional racism" was validated as was the specious disparate impact doctrine i.e. there are more blacks in prison ergo the criminal justice system is racist. Every black in prison knows full well for every conviction there were many more crimes never prosecuted and when 5% of the population, black males between the age of 15 and 45, commit 55% of crimes resulting in conviction, including 53% of homicides and 60% of armed robberies, the total number of crimes committed by blacks is actually far higher; black males between the ages 15-45 are convicted of armed robbery more than 60 times the rate of white males. Rather than an oppressive and racist system and/or overbearing police actions the statistics actually evidence restraint proven harmful to every black community.

*"The black homicide rate is seven times that of whites, and the George Zimmermans of the world are not the reason. Some 90 percent of black murder victims are killed by other blacks. Why should we care more about black criminals than their black victims?"*

Jason L. Riley, Please Stop Helping Us: How Liberals Make It Harder for Blacks to Succeed

*Concede the truth or fall*; because black males commit the majority of crimes they come into contact with the police more often than any other identifiable group; contact that has a higher chance of turning violent when blacks are taught from a young age the police are the enforcers of an oppressive, unequal and unjust system; contact where routine incivility and a confrontational attitude is encouraged; contact that occurs in dangerous and openly hostile communities; contact wherein the situation is exacerbated by lying as a virtual art form; contact with a disproportionate number of blacks with warrants, on probation or on parole willing to kill; contact that always has the job killing threat of "racist" hanging over the officer like the sword of Damocles; contact between police officers that want to go home to their families; contact that hereafter will become even more dangerous given the reasons listed and the confrontation at hand.

Read *The Facts on Race, Crime, and Policing in America* by Larry Latzer and *Blue Truth Matters* by Heather Mac Donald for the American Mind and concede the truth or fall with Marxianity.

*Concede the truth or fall*; to assert the United States is a systemically racist country and the police are little more than enforcers of systemic racism to the point of genocide is a false and dangerous narrative. The "system" is so thoroughly controlled by Marxians it has been weaponized which in and of itself belies the idea of systemic racism. *The Myth of Systemic Police Racism* by Heather Mac Donald and *The 'Institutional Racism' Canard* by Andrew McCarthy may well prove to be the singular life preservers a subculture that senses an unexpected and potentially deadly change is on the horizon far different from that being touted by Marxian politicians; a reckoning is on the horizon and it is black, not white, privilege literally under the gun.

*"Black privilege is the socially accepted right to be a racist because of an oppression never experienced but constantly perceived."* Fred Stevens

*Concede the truth or fall*; no other country has done more to address the issue of race including wasting \$20T since 1965 on a myriad of programs beginning with the utter failure that was the "War on Poverty" with no appreciable improvement simply because there were no demands for personal responsibility and measurable improvement; the Planned Chaos of Marxianity simply sucked the financial, moral and spiritual lifeblood from American society and in return burdened the nation with an entirely dysfunctional subculture the false religion is now using as a springboard for the "War of Maneuver"; causa sui endeavors to many Americans define as "fair" bought into being by Marxians fully realizing the misguided programs would result in a black Frankenstein entirely dependent upon its master.

Collectively they are poster children for the black privilege introduced by Obama and demanded by Marxians; if they were white there would have been no mention in the 'collective media' propaganda and narrative. Tragically 8 year-old black girl Secoriea Turner was shot and killed by one of four black thugs who had set up a makeshift roadblock outside the burned out Wendy's restaurant in the wake of the Rayshard Brooks shooting. Incongruously the City of Atlanta Police Department is being sued for failure to gain control of the situation and keep the peace thus are responsible for her death.

As it concerns George Floyd the high priests of Marxianity responsible for insuring an inordinate number of programs and commercials featuring blacks, especially black women, are very aware of the power of imagery and like predators in the tall grass they recognized the knee of a white police officer on the neck of a black man was a perfect metaphor for the Marxian agenda; the knee of the white man on the neck of the black man holding him down. The result has been the internationalization of the "anti-racism" movement and the mainstream adoption of Critical Race Theory...but what the black subculture fails to realize is they are being used to advance an ideology antithetical to the dream of Martin Luther King Jr.; a neo-Marxist ideology that even now is labeling Israel an apartheid entity to be destroyed.

*Concede the truth in that only the brutal truth will save the last chosen people;* two recent obsequious commemorative gestures marked the point of no return for both neo-Marxist Democrats and small 'r' republicans...the 1921 Tulsa Riot and the Juneteenth national holiday as a secular weapon as captured in an article titled *Juneteenth and Secular Holidays as Tool of the Regime* by Tho Bishop for the Mises Institute

For Marxians, commemorating the 1921 Tulsa Riot is pure agenda as exemplified by the later renaming of the incident as the "Tulsa Race Massacre" by a commission 95 years after the fact which, true to form, recommended reparations. The "history" of the riot is more rumor and speculation than fact but what is known goes to how the riot started; 19-year-old black Dick Rowland was arrested for allegedly assaulting 17 year old white elevator operator Sarah Page who screamed for some reason. *Rumors* began to circulate an armed white mob *rumored* to have been in the hundreds began to gather at the jail and it was *rumored* they were threatening to lynch Rowland.

What is fact not rumor is 75 armed black men came to the jail to protect Rowland and after being assured by the sheriff he had the situation under control persuaded them to leave. It is here the rumors meet fact; an elderly white man attempted to disarm black OB Mann and gunfire erupted...leaving ten white men and two blacks dead thus belying the rumor the white "mob" was armed...for if there were hundreds of armed Oklahomans it would have been a miracle if any of the 75 black men survived.

The rioting that took place afterwards was a crime and worth remembering by measure but the incident requires context sans the neo-Marxist double standard that ascribes every problem facing the black community as white supremacy rather than policies intentionally designed to create an entirely dysfunctional black subculture; policies resulting in black riots and looting being considered a virtual right and rite of passage since the 1960s.

There have been close to 2000 such incidents since 1960 resulting in many hundreds of deaths, tens of thousands of arsons and many billions in damage e.g. the 1992 Rodney King riots alone saw more people killed than Tulsa...and blacks targeting Koreans who sustained \$850M in damage spread over an area that exceeded that of Tulsa where an equivalent \$200M in damage occurred.

Marxian politicians, media and academy not only ignore the devastation to black communities but glorify and justify the chaos as uprisings in the quest for social justice; Planned Chaos knowing full well they are pushing Americans to the limit and eventually there will be a race war wherein blacks lives will be sacrificed on the altar of the false religion Marxianity.

It is in the context of a Marxian revolution the how and why of being used is best understood; the anti-racist movement is now international as exemplified by a Harvard panel featuring Black Lives Matter co-founder Patrisse Cullors entitled "Globalizing Ferguson: Racialized Policing and International Resistance" hosted by the Human Rights Program sponsored by Harvard Law School Dean of Students and the American Civil Liberties Union. Cullors described black and Palestinian solidarity as crucial to the movement; explicitly calling for the destruction of Israel.

*"Palestine is our generation's South Africa, and if we don't step up boldly and courageously to end the imperialist project that's called Israel, we're doomed."*

Blacks are nearing a cliff on the wrong side of the end of history with a growing alliance with Palestinians who, like blacks, have no interest in peace and assimilation. Just one article written by Rabbi, Professor of Bible at Bar-Ilan University, Joshua Berman has the potential to save millions of lives...but only if blacks and Palestinians can muster the humility to concede fallibility; titled *Blacks, Palestinians and the Disastrous Politics of Rage* the article is Torah manifest for peoples and cultures on the wrong side of the end of history as it is understood.

Since the 1960's blacks have subjected America to a reign of criminal terror now taking the form of random murders of whites. To create a second black national holiday, Juneteenth, is the equivalent of Israel creating a national holiday to honor Islamic terrorists...perhaps "Missing Father's Day" given the 75% single mother birth rate but not a second black holiday.

The point of no return was crossed with Juneteenth give the fact if character is the measure rather than a second national holiday, Martin Luther King Day should end...and his statue taken to Africa with the African Exodus. For those small 'r' republicans who voted for the holiday, every time there is a riot henceforth resignations will be in order and the honorable thing to do...acknowledging the futility of compromising with evil incarnate.

If Marxianity is not subdued or destroyed and violent Marxist revolution ensues blacks will learn very quickly that black lives really don't matter to the false religion. Should the issue move into the streets and threaten the Constitution, blacks will have lost their blessing and will learn the hard way the God of Sinai will not let an ideology displace His instruction without consequence nor will He let anything or anybody stand in the way of His plan.

Blacks within the subculture erroneously believe they can maintain a hold on the Marxian viper and survive, but worst yet the subculture has aligned against the God of Sinai in almost every conceivable way and as such have walked into a no-win situation with a single exit marked 'African Exodus'.

The mere fact blacks have enabled Marxianity in the long march to the verge of a classic fascist one party state threatening the Constitution is enough to incur the wrath of a Creator unwilling to negotiate...but the threat posed to the Holy Nation and Israel will insure destruction.

HaShem is fully engaged and when Hamas fires 4000 unguided missiles at Israeli population centers those who support the terrorism would be wise to rethink their positions. Muslim Rep. Ilhan Omar (D-MN) described the efforts by Israel to defend itself as acts of terrorism while Rep. Rashida Tlaib (D-MI) exposed the Marxian strategy rather explicitly saying "What they are doing to the Palestinian people is what they continue to do to our Black brothers and sisters here" i.e. intersectional conflation equating "white" Jews to "white" Americans and the effort to destroy the "apartheid" states of Israel and the United States an internationalist anti-racism imperative.

Marxianity knows full well it is intentionally creating racists whether black, brown, yellow, white or red; the antithesis of E Pluribus Unum pitting one tribe against the other while privileging the favored knowing the result will be a race war that will serve as the backbone of Marxian revolution. The equation has changed with the measure of all things, the clarity provided by the contract versus the regressive status society and the identification of Jefferson and Adams to provide guidance as to governance and warnings as exemplified by just two quotes:

*"The moment the idea is admitted into society, that property is not as sacred as the laws of God, and that there is not a force of law and public justice to protect it, anarchy and tyranny commence. If "Thou shalt not covet," and "Thou shalt not steal," were not commandments of Heaven, they must be made inviolable precepts in every society, before it can be civilized or made free."* John Adams

*"Society [has] a right to erase from the roll of its members anyone who rendered his own existence inconsistent with theirs; to withdraw from him the protection of their laws, and to remove him from among them by exile, or even by death if necessary."* Thomas Jefferson to L. H. Girardin, 1815

Of all the peoples and cultures in the world it is Americans who have a deeply embedded, visceral, understanding of what freedom entails despite over 50 years of Marxian indoctrination and it is only a matter of time before the backlash begins. Marxianity may appear close to total victory but rather than submit E Pluribus Unum Americans would be wise to think of Henry V and remember God is just; the greater the odds the greater the glory...and while Marxians speciously claim the moral high ground, E Pluribus Unum can know with certitude the Convergence Matrix is a call to take up the sword of Yeshua.

Marxianity made a concerted and successful effort to cast George Floyd as a martyr, including three highly televised funerals, so as to solidify the 'knee on the neck of the black race' metaphor when in truth his death was a case of 'you can't handle the truth'; a better metaphor is a dysfunctional, criminal and self-destructive black subculture being restrained by E Pluribus Unum until lifesaving help arrives...and yet the best efforts are labeled "systemic racism" subject to prosecutorial persecution rather than justice. "George Floyd was well on his way to dying from a self-administered drug overdose" per George Perry in his article 'Who killed George Floyd'.

The brutal truth required to save the last chosen people requires conceding the black subculture has been allowed to inflict a reign of terror since the 1960s and with each day blacks are allowed a cloak of invisibility they further distance themselves from a God a few years distant who sees right through them.

Henceforth, the black subculture, BLM, Antifa and the true believing Jacobins of the false religion Marxianity would be well advised to refrain from repeating lie of 'hands up, don't shoot' or adopting 'I can't breathe' as an "anti-racist" mantra. God has lifted the cloak of invisibility; warning that if every white American is forced to bear the mark of Cain "racist" and judged by the actions of a few then the response to "I can't breathe" must be **Channon Christian** child of God...who suffered hours of rape and torture, including pouring bleach down her throat in an attempt to destroy evidence, before being bound, wrapped in plastic then stuffed into a trash can and left to slowly suffocate.

If an entire nation can be labeled racist for slavery long past so too a self-identifying and distinct people and culture that nurtures real racist animals wholesale. The term animals should not be taken lightly but subjected to the oracle of reason; the false religions of human intellectual arrogance, whether National Socialism or its cousin Marxist socialism, intentionally nurtured the morally untethered animals needed to put children in gas chambers and send millions to die in gulags. It can happen here but won't...God is fully engaged.

### **Obama's Animal Farm**

*"I've hailed taxis in downtown Washington, D.C., at night, only to watch the driver pass me up and pick up a white passenger down the street. As often as not, the driver was black. Was the driver a racist? Or was he using my skin color as a proxy for an undesirable destination such as a high-crime neighborhood or as a proxy for the probability of being robbed? He was racially profiling me, but he was wrong in my case. It is never pleasant to be a victim of racial profiling, but whom should I blame: the taxi driver who's not God and is simply doing what he can to protect himself? Or should I blame black thugs who prey on taxi drivers, making them leery about picking up black customers at night?"*

Walter Williams

Animal mentalities among human beings are instinctive behaviors and when not confronted, or worse yet condoned, the inevitable result is that which was witnessed in the wake of George Floyd; a neo-Marxist rebellion that was preceded by a sequence of escalating events that began with a clear signal blacks would be not only held to a different standard, but defended as the Planned Chaos of Marxianity increased; a strategy that began in 1964 and institutionalized under Obama and his "wingman" Eric Holder with Critical Race Theory.

The deference goes to George Orwell's classic Animal Farm and the proclamation made by the ruling pigs; *"All animals are equal, but some animals are more equal than others"*. Critical Race Theory is a neo-Marxist descendant of the Frankfurt School and like the "sexual revolution" of Herbert Marcuse is designed to tear the fabric of Judeo-Christian western civilization; asserting its history, culture and capitalist economy are fundamentally, inherently, racist and irredeemable ergo it must be destroyed.

After discarding class distinctions in favor of the much more volatile and irreconcilable race distinctions after 1964, neo-Marxism began constructing a complex intersectional hierarchy of oppression that reached its zenith after George Floyd with white heterosexual males the ultimate oppressors and all others the oppressed.

Objective standards of racism and discrimination were replaced by rationalizations such as disparate impact; never intended to justly address actual racism but immensely useful in insuring equal outcomes, equity, to advance an agenda. The horrific visual of George Floyd dying is no different; providing Black Lives Matter and Marxianity a seemingly unassailable moral pulpit to pontificate and condemn all whites unless they take a knee and swear to place black lives on a pedestal above all others; swearing to never disagree with or oppose an expanding Marxian list of demands including reparations, radical climate change policies, eliminating fossil fuels and a social justice blank check to replace the Constitution.

The dark side of the deference is on display and growing more pervasive with each day and suggests some animals are more equal than others; black women in authority abuse power with impunity, black looters are not impeded or prosecuted, police officers are immediately arrested and over charged, black athletes that would be ignored if they were 5'10" have transformed sports into political platforms, commercials are being flooded with blacks far in excess of the 14% population, corporations kowtowing to openly neo-Marxist Black Lives Matter and the print and television media give free reign to black "journalists" extending a perverse assumption only blacks can address black issues given some inherent deeper understanding of life due to oppression...even as the Ivy League educated talking heads like Joy 'Julius Malema' Reid are chauffeured to and from work.

The take away from construct is that only blacks can judge blacks and every accusation of racism made by blacks no matter how specious requires immediate kneeling and rectification. The impact of critical race theory and induced white guilt is potentially existential and the fact Obama was not shy about extending deference was on full display from the beginning.

There was the dismissal of voter intimidation charges successfully pursued against Minister King Samir Shabazz of the New Black Panther Party; dismissed given the NBPP was not Bull Connors but with the dismissal a clear signal was sent by the Department of Justice...Civil Rights Laws do not apply equally. Over time Civil Rights legislation morphed into a control mechanism defining blacks as blameless victims of systemically racist institutions.

There was Trayvon Martin and a rush to judgment with virtually no regard for due process which would become standard operating procedure for Marxians under Obama; "If I had a son, he would look like Trayvon". Due process prevailed but regardless, the acquittal was deemed a travesty and the justice system flawed...by the same people who defended moving the trial of OJ Simpson from Santa Monica to Los Angeles to be heard before a majority black female jury without a single white male; one of whom gave OJ the black power salute with the acquittal.

There is Michael Brown and the Ferguson riots which had Eric Holder extending condolences to the Brown family including his stepfather caught on tape exhorting the mob to "Burn this motherfucker down" and "Burn this bitch down"; Holder brought the full weight of the DOJ down upon the Ferguson Police Department and yet after a full investigation exonerating Officer Darren Wilson...the City of Ferguson "secretly" paid \$1.5M to settle a wrongful death suit i.e. tribute was paid.

There is Baltimore and Freddie Gray who allegedly died from injuries sustained during his arrest resulting in riots during which Baltimore Mayor Stephanie Rawlings-Blake "Gave those who wished to destroy space to do that". Possibly taking an inferred cue from the previous incidents, Marilyn Mosby, the State's Attorney for Baltimore, filed charges against the six officers which Alan Dershowitz labeled an attempt to mollify the mob...all of which amounted to not one conviction and yet Mosby was never sanctioned.

Lastly, in the middle of a pandemic that had the academy and media labeling peaceful white protestors bearing arms 'white supremacists' and 'murderers' for not wearing masks and social distancing, labeled the protests and riots following the death of George Floyd "necessary"; the police were withdrawn to allow "protestors" space to destroy and loot with impunity while Marxian politicians and allies in the media and academia lauded the movement they created called the true believers into the street with promises of bail.

Evil begets evil which begets greater evil and Marxianity professing to be the champion of the oppressed knows full well Planned Chaos cannot allow for solution or resolution and as such the academy and media contextualized every black riot as being the result of pent up rage and frustration directed at a system rigged against them...yet nobody seriously has considered the incredible evil that is Dylann Roof saying he was trying to incite a race war to stop blacks from "taking over the world" i.e. the result of rage and frustration at what he perceived as a system that favored blacks rigged against him.

*"Anybody can become angry, that is easy; but to be angry with the right person, and to the right degree, and at the right time, and for the right purpose, and in the right way, that is not within everybody's power, that is not easy."*  
Aristotle, *Art of Rhetoric*

As much as it may offend the sensibilities, a simple scale created by the Obama/Holder DOJ must be noted and deeply considered; the families of the nine victims of the Charleston atrocity received \$27M from the DOJ Office for Victims of Crime while the survivors of the 58 victims and 600 physically injured in the largest mass murder in American history, the Las Vegas Route 91 Harvest Festival, received just \$16.7 million.

The disparity was not an issue for average Americans which speak volumes as to indoctrination and extremely dangerous double standards principle would not condone but an evil theology demands; deference and unquestioned acquiescence.

The ever evolving political nature of the events in the end requires going to the beginning to understand the inherent danger attendant to refusing to confront evil in the end; New Black Panther Party National Field Marshal, King Samir Shabazz, went on the radio to tell blacks that if they want to be free "...you're going to have to kill some of these babies, just born three seconds ago. You're going to have to go into the God damn nursery and just throw a damn bomb in the damn nursery and just kill everything white in sight...we gonna need preachers going into the cracker churches throwing hand grenades on early Sunday morning when the cracker got his hands up, 'please white Jesus!' Well we gonna throw a bomb in that God damn church, burn up the cracker, burn up the cracker Jesus, and burn up some cracker white supremacy."

Shabazz also described in detail going to the suburbs to "...drag some of these god damn rusty dusty ass crackers out of their homes, skin their asses alive, hang their asses up by some damn rope in some trees, drag them up and down the streets by God damn trucks, sick the pit bulls on them, pour acid on their asses, dump them in a God damn river, bring them back up, bust them in the head with a rock."

If one is willing to admit 'we're coming to the suburbs' is now a common refrain one is closer to the truth than they may realize; the words of Shabazz sound very much like Julius Malema and at his hands the atrocities described are a reality for whites in South Africa. Marxianity, on the heels of a pandemic loosed by Chinese Marxists, has unleashed the faithful and their Antifa brown shirts to mingle with blacks to create Planned Chaos; Marxians fully invested in the transformation of blacks from 'Go down Moses' Christians to animals capable of committing atrocities such as those inflicted on Channon Christian and her boyfriend Chris Newsom. Read the story and weep...then pray.

- What would possess 16-year-old Chancey Luna, 17-year-old Michael Jones and 15-year-old James Edwards to execute Australian baseball player Christopher Lane as he jogged in Duncan, Oklahoma?
- What would possess 25-year-old Darius Sessoms to execute five-year-old Cannon Hinnant as he rode his bike in front of his house...shielded by Aolani Takemi Marie Pettit, 21, who was arrested for felony accessory after the fact?
- What would possess 23-year-old Hshn Tysheem Walters to execute 21 year old college student Laura Ashley Anderson as she was moving into a house she had just bought after executing her father-in-law Charles Wall after Walters rear ended him as he was delivering a set of keys?
- What would possess 17-year old De'Marquise Elkins to shoot one-year-old Antonio Santiago in the face after shooting his mother twice when she did not comply with robbery demands...shielded by his mother Karimah Elkins who threw the murder weapon in a marsh?
- What would possess 18-year-old Darriynn Brown break down a back door in the middle of the night then kidnap and slash 4-year-old Cash Gernon to death?

The answer as to what possessed them and thousands more...pure evil left festering for 60 years.

Take the time to look at the pictures of the victims and those who took their lives.

In one of the most horrific murders in American history Eric Boyd, Lemaricus Davidson, Latalvis Cobbins, and George Thomas with the assistance of Vanessa Coleman carjacked, raped, tortured and murdered Channon Gail Christian, aged 21, and Hugh Christopher Newsom Jr., aged 23. As is the way of the authorities and media the possibility race was a factor was downplayed and dismissed if it was covered at all...as was the case of 25-year-old Darius Sessoms executing five-year-old Cannon Hinnant; shooting him in the head in front of his siblings. Take the time to read the truly horrific details and know that henceforth the case is by measure the counter balance to George Floyd and "I can't breath".

23-year-old Australian baseball player Christopher Lane and the murderers; 16-year-old Chancey Luna, 17-year-old Michael Jones and 15-year-old James Edwards...destined for endlessness.

What would possess 25-year-old Darius Sessoms to execute five-year-old Cannon Hinnant as he rode his bike in front of his house...shielded by Aolani Takemi Marie Pettit, 21, who was arrested for felony accessory after the fact? The same black privilege that assumes blacks are oppressed and at war with white oppressors and as such as Shabazz said "...you're going to have to kill some of these babies...You're going to have to go into the God damn nursery and just throw a damn bomb in the damn nursery and just kill everything white in sight". But off course...race had nothing to do with it.

What would possess 23-year-old Hsham Tysheem Walters to execute 21 year old college student Laura Ashley Anderson after executing her father-in-law Charles Nicholas? Black privilege which allows for violent responses to something as amorphous as perceived "disrespect". Caveat emptor of all things sold by Marxianity...respect is earned not demanded and there will be retribution on a biblical scale.

13-month old "white-hispanic" Antonio Santiago (left)  
shot and killed by 17 year old De'Marquise Elkins (right)

No tweets from Hollywood, no statement from Obama.  
**WHERE IS THE OUTRAGE?**

De'Marquise Elkins is a poster boy for Marxian Planned Chaos...which requires the cloak of invisibility the God of Sinai is tearing away before it is too late for the rest of the black subculture. As the images shows there was deafening silence from the media, Hollywood and Obama save for the support received by the neo-Marxist front to prevent and then challenge his conviction.

Only an animal would 4-year-old Cash Gernon from his crib as 18-year-old Darriynn Brown did and then butcher him leaving his body in the middle of the road. What is being witnessed is separation from a God that should be feared as never before. Unless blacks learn to fear God they will learn the hard way in that the choice is either Yeshua's Sword or being used as cannon fodder in a race war Marxians full intend to instigate in a War of Maneuver; violent revolution the black subculture will not survive.

The authorities and media bend over backward to assert what can only be described as executions as not race related but common sense says otherwise and yet Jen Roesch writing for SocialistWorker.Org asserted the prosecution of De'Marquise Elkins was the 'The Making of a Racist Travesty'. I would suggest accessory to the murder of Christopher Lane, James Edwards released after two years of a 16 year sentence, provides an answer when he tweeted just days before the murder "With my n\*\*\*\*s when it's time to start taken life's" from the Chief Keef rap song, "I Don't Like" and months before "90% of white ppl are nasty. #HATE THEM". But its not race related...not.

Obama's animals...and to pretend Rap and Hip Hop is harmless is to deny the truth and to deny the truth is to deny God. Race as a third rail in popular culture does nothing to advance the reckoning needed to save the last chosen people. Consider the distortion of just one movie; Ghost Rider includes a jail escape scene wherein evil was portrayed as cell full of rednecks that triggers the rider...then as the demon of justice exits he turns and points to a cherubic young black man and says "innocent". So long as blacks allow the pandering by regardless of the medium they will slide closer to destruction...by design.

Hopefully, the simple gesture of replying 'Channon Christian' in response to 'I can't breathe' will prompt many to seriously consider the race war Marxians convinced the world is the goal of white supremacists is in fact pure projection; neo-Marxists have been fomenting a race war since 1960 as part of a very sophisticated, well organized and strategic war on the Constitution.

The measure by which the black subculture will be judged has been chosen by they themselves and there is nothing thousands of shepherds who have been divested of their own truth might say that will shift the scale or alter the inevitable; the same evil possessing Marxianity has possessed the black subculture and only those who walk away and choose God will survive.

If one is tempted to assert this emissary has no foundation to address judgment I would simply reply one is engaging in a tenuous and dangerous copyright battle with the original Author of all things; a singular strike from the hammer that forged me has a direct bearing on the situation at hand and it speaks volumes as to the relationship between black men and women.

When just 5 or 6 years old living on Crocker Avenue in what was then Gardena, California, my parents hired a rotund black woman who very much reminds me to this day of a cheerful Aunt Jemima to clean and watch the kids while they worked. She preferred to be called 'Joe' which I assume in retrospect was short for Josephine and she liked her chewing tobacco; spitting into a coffee can without missing. One day there was a knock on the door and I stood beside her as she had a brief, terse, conversation with a black man before slamming the door in his face. Joe took me by the hand, walking toward the kitchen saying something I remember to this day even though it took me years to understand its profundity; "Douglas, don't you ever call a black man a nigger, but don't you ever mistake a nigger for a black man". A true story and in one instance I learned the difference between color and character long before Martin Luther King Jr. made character the measure and at the same time developed a fascination with the history of black Americans.

I spent my formative years on the edge of South Central Los Angeles until graduating from high school in 1970 and never once in all those years did I hear my parents utter one negative word as to blacks; living on the edge of two cultures from where I witnessed firsthand the effects of the civil rights movement, the sexual revolution and the explosion of black militancy; I witnessed the destruction of the black family and the rise of the dominate black matriarchy; I was within miles of Watts when it burned; I was there when blacks rioted on mess deck the USS Coral Sea...and I was there to talk about it with my friend Russell Morris, a veritable John Henry in the flesh, who learned very quickly I knew more about black history than the rioters.

As it concerns black men and women of all the Marxian constructs the most effective and destructive is an originalist Marxist imperative; replacement of the patriarchy with the matriarchy. It is a strategy designed to create a final generation of expendables who have yet to realize they have been castrated in anticipation of the slaughter; kept in check by a lust for "pussy" while the levers of power are pulled by "mean ass bitches" (to borrow RAP phrases).

### ***Mean Ass Bitches***

To better understand the unprecedented rise in the number of women of color in positions of authority in just the last ten years look to numbers; seemingly unrelated numbers that tell a chilling story from the higher vantage.

The final confrontation described in scripture is one of an America even divide between good and evil and in the end one will be taken and the other will remain. By 2026 the world population will have reach 8 billion people with 8 signifying the transition from creation to divine completion. Marxianity is obsessed with the idea of a sustainable world of 4 billion people and political control is now a function of wealth...with 1000 of the wealthiest individuals controlling more wealth than half of the world population combined.

These are the most powerful citizens of the world who meet every year in Davos at the World Economic Forum to discuss global issues; the most elite club in history made up of people who live in luxury and accustomed to giving orders and having them obeyed by the underlings who surround them. Petty tyrants keenly interested in power and the concomitant ability to engage in social engineering....which is exactly the focus of the "progressive" WEF.

Jeff Bezos and Carlos Slim, owners of the Washington Post and New York Times, are just the tip of the billionaire media iceberg buttressed by high tech censors also controlled by billionaires; a threat to the Republic the founders never imagined. One need only ask why Mexican Carlos Slim would want to buy the NYT to realize the nature of the threat; there are 36 Mexican individuals on the Forbes 2021 richest people rich list including 30 billionaires who avoid paying the costs of social welfare as long as the southern border to the United States is open. The same logic applies to every billionaire in the west; who pays?

Billionaires in the west differ from the hundreds in authoritarian China, Russia and Middle East; in authoritarian regimes billionaires are a protected class with muted voices while in the west billionaires are using their amplified voice in a quest for authoritarian Marxian democracy. Billions of dollars have created a perverse royalty with millionaires and the famous a new aristocracy...neither of which is interested in paying for social welfare they expect those in flyover country producing food and energy to pay; working people who must first be subjugated then controlled by armed animals created for the purpose.

It is no coincidence the preeminent Marxian dark money vehicle, Arabella Advisors, was founded the same year Obama entered the Senate to create a vast and well-funded far left agenda infrastructure; advising the likes of Mark Zuckerberg and his wife Priscilla Chan who donated \$400M toward "nonpartisan" election administration...but only in the contested 2020 swing states.

There is one billionaire, George Soros, very adept in the art of translating funding to political power in a precise manner so as to insure desired outcomes as was the case of ObamaCare; the Secretary of State Project funded by the Democracy Alliance, also founded in 2005, was in turn funded by Soros and Mark Steyer...insuring the election of "progressive" Minnesota Secretary of State Mark Ritchie who examined and adjudicated disputed absentee ballots that in the end reversed the election night victory of Norm Coleman. Comedian Al Franken would go on to the Senate where his deciding vote passed ObamaCare on a strict party line vote with no Republican votes in either the Senate or House...and the pretense of bipartisanship ended.

Then there is the ongoing Progressive Prosecutor Project which explains the precipitous rise in violent crime felt most in black communities and best explained in a must read essay by Andrew McCarthy titled *The Progressive Prosecutor Project*. There is one last project having a direct bearing on the fate of black men which had no name until now; the Oprah Winfrey Project.

Do you really believe the selection of Oprah Winfrey to lead the Lionsgate plan to transform the Nikole Hannah-Jones "1619 Project" into a portfolio of films, podcasts and television is a mere "coincidence"? Do you really believe the inordinate number of black women in movies, television, commercials and the election of black women to a growing number of mayoral and prosecutorial positions in major cities since 2008 is a "coincidence"? Do you really believe Biden chose Kamala Harris for his running mate? Do you really believe Biden appointing numerous black women to positions of authority has no purpose?

Coincidence is unlikely; Oprah Winfrey avatars represent a strategy Marxians consider virtually impervious to criticism. The advent of "mean ass bitches" in positions of authority began in earnest with Obama and is now coming to fruition as a strategy with Biden but originated with the intentional destruction of the black family after 1960.

In 1965 Assistant Secretary of Labor, sociologist and future Senator Daniel Patrick Moynihan released what came to be known as the Moynihan Report; *"The Negro Family: The Case for National Action"* condemned as racist by an already coalescing neo-Marxist strategic front designed to render criticism of the black subculture a third rail. All would be well advised to read an article titled *The Black Family: 40 Years of Lies; Rejecting the Moynihan Report Caused Untold, Needless Misery* by Kay S. Hymowitz for the Summer 2005 edition of City Journal.

Because Marxianity insists only blacks can criticize blacks it would take 22 years before esteemed black sociologist William Julius Wilson published *The Truly Disadvantaged* in which he provided a candid, honest, assessment of the problems associated with the destruction of the black family. Thomas Sowell said in 1989 the Moynihan Report "may have been the last honest government report on race" and true to form Sowell was right. The government replaced black men as the provider and black women simply made a choice between single-motherhood and the problems attendant to black men who were not marriageable to begin with.

Ironically, the prospects were well known within the subculture and in a rare instance of honesty, black women refused to be trapped and tended to focus more on education which bodes well for the African Exodus. Unfortunately blacks tend to be drawn to the familiar; vastly underrepresented in STEM and overrepresented in service fields such as education, social work and the humanities they have gravitated to careers in politics and social movements. Over 20% of community organizers are black college graduates and for those who move on to graduate degrees and law very few manage to grow beyond black before American...and now those blacks who identify as black before American have been convinced and empowered to strike back against their perceived oppressors and "systemic racism".

On the street the convincing has manifested as aggressive, abusive, destructive and rude "looting is reparations" attitudes with black women leading the charge into sidewalk restaurants to overturn tables, drink the drinks of elderly whites and scream in faces demanding people kneel to Black lives Matter. In the halls of political power the same attitude manifests as vindictive, spiteful, authoritarian and vengeful black women who exercise their authority and enforce the law as they see fit with sovereign impunity.

November 2016 witnessed the election of three prototypical examples of abusive sovereign impunity exercised by black women with an agenda; Aramis Ayala elected State Attorney for the Ninth Judicial Circuit Court of Florida, Kimberly Gardner elected chief prosecutor of St. Louis Missouri and Kimberly Foxx elected State's Attorney for Cook County, Illinois...they would join Marilyn Mosby State's Attorney for Baltimore since 2015. 2018 would see General Letitia James elected New York State Attorney and between the six of them sovereign impunity would quickly match that or exceed that of the CIA, FBI and Department of Injustice; partisanship and explicit bias unchecked.

- Marilyn Mosby is best known for the malicious prosecution of the six police officers involved in the Freddie Grey; now acquitted the officers are suing Mosby. Less known are the financial and work ethic controversies surrounding Mosby including 144 missed work days in 2018.

- Aramis Ayala wasted no time in informing Republican Governor Rick Scott she would not seek capital punishment in any case and fought her replacement in those cases all the way to the Florida Supreme Court which eventually ruled Governor Scott had the power to remove her from death penalty cases.
- Kimberly Gardner, elected chief prosecutor of St. Louis Missouri promising to clean up the "racist" criminal justice system, literally manufactured a slanderous case, including falsified evidence, against Republican Governor Eric Greitens forcing his resignation. During the George Floyd riots Gardner released the scant 38 rioters who were arrested but filed multiple felony charges against Mark McCloskey who, with his wife, famously stood his ground rifle in hand; a case the court disqualified Gardner from prosecuting finding "the Circuit Attorney's conduct raises the appearance that she initiated a criminal prosecution for political purposes".
- Kimberly Foxx is best known for insuring the Jussie Smollett hoax was dismissed. As with Gardner one need only make simple inquiries as the "progressive" nature of prosecution.
- Letitia James has engaged in a vendetta against all things Trump and his supporters including a civil case seeking the dissolution of the NRA...in a continuation of abuse which in 2016 took the form of NY City Council member James trying to pressure six financial institutions to deny financial services to gun manufactures; a strategy that will be used against individual gun owners when the time comes.

The five are just a partial list of "progressive" prosecutors in major cities like Los Angeles, San Francisco, Portland and Seattle who under the guise of prosecutorial discretion simply refuse to enforce the laws on the books which is de facto defunding; defanging the police which has resulted in a massive increase in violent crimes affecting black communities in cities run by black women mayors as the second front in the Oprah Winfrey strategy.

As the Obama administration was winding down and plans were being made for the anticipated Clinton 2016 election victory to usher in a one party state there was only one black woman mayor in any of the 100 largest cities. Now there are black women serving as mayors in nine of the nation's 100 largest cities including London Breed in San Francisco, Keisha Lance Bottoms in Atlanta, LaToya Cantrell in New Orleans, Lori Lightfoot in Chicago, Vi Lyles in Charlotte, Muriel Bowser in Washington, D.C., Sharon Broome in Baton Rouge and of late Kim Janey in Boston and Tishaura Jones in St. Louis.

Whether prosecutor or mayor all have three things in common besides being black women and Democrats; all are social justice warriors, all support neo-Marxist Black Lives Matter and all benefit from the Oprah Winfrey illusion. Kimberly Peeler-Allen with the Center for American Women in Politics at Rutgers University inadvertently captured the illusion when she said "Black and brown women are running with a message that is a totality of their life experiences, which transcends race or gender". Bullshit...CRT is manipulative control which asserts any black claim of racism is valid simply because they accuser is black and speaking from "their life experience".

I suffer no such delusion given the vindictive and race centric machinations to date and fully expect that when the time comes each and every one of the named prosecutors and mayors will be as ex-Baltimore Mayor Stephanie Rawlings-Blake who said with impunity "...we also gave those who wished to destroy space to do that as well" allowing black animals created by Marxians to destroy and loot with absolutely no fear of interference or prosecution.

It is no coincidence Kamala Harris was chosen to act as a placeholder until Biden steps down; Kamala Harris who established her political bias bona fides when as California Attorney General she, like Kimberly Gardner, was quite willing to violate the law to file multiple politically motivated felony charges against David Daleiden on behalf of Planned Parenthood. Charges that are still pending in Marxian California after now Secretary of Health and Human Services Xavier Becerra succeeded Harris as California Attorney General.

It is no coincidence Kristen Clarke, who actually wrote blacks have "superior physical and mental abilities" due to high levels of melanin, was nominated by Biden to head the U.S. Department of Justice Civil Rights Division; Clarke who recently said "We are at a crossroads...If I am fortunate enough to be confirmed, we will turn the page on hate and close the door on discrimination by enforcing our federal civil rights laws" as if those laws have never been enforced or used as a cudgel for 55 years.

America has come to the crossroads but unbeknownst to Clarke the God of Sinai is directing traffic...and He is signaling blacks who identify as black before American to take the first exit marked African Exodus. To survive they will have to bypass a long list of black women including Joy Reid, Sunny Hostin, Jemele Hill and Yamiche Alcindor in the media; Ayanna Pressley, Cori Bush and Ilhan Omar et al in politics and activists such as Stacy Abrams, Tamika Mallory and the three homosexual Marxists who founded Black Lives Matter which makes clear its disdain for straight black males.

Cori Bush; "Our communities wouldn't have needed to spark a national movement to save Black lives if America weren't racist AF." Bush seems to have no idea her words may well lend to a bloody conflict...but yes she does.

"Mean ass bitches" that refuse to concede the problems plaguing the black subculture do not stem from "systemic" or "structural" racism. The problems plaguing black communities have nothing to do with the criminal justice system; the problems are the result of Marxian policies and initiatives that strategically removed God from the equation and then destroyed the black family; undermining the sacrifices of generations blessed, not damned, by the God that placed His personal imprimatur on the United States.

The face of black women is not that of Oprah Winfrey but rather Cardi B and the words of WAP; "Wet Ass Pussy". There is no turning back after Cardi B and Megan Three Stallion engaged in televised pornography as the high point of the once venerable Grammy Awards; a "performance" that is now the measure as to the depth of depravity reached by a culture created by Marxianity after undermining the Judeo-Christian civil religion of America.

*"Don't be fooled by those who try to excuse these sins, for the anger of God will fall on all who disobey him"*

Ephesians 5:6

As is the way of evil; too clever by half in the words of Bob Marley; *But my hand was made strong...By the hand of the Almighty...We forward in this generation triumphantly. Won't you help to sing these songs of freedom? Emancipate yourselves from mental slavery. None but ourselves can free our minds.* The words of *Redemption Song* were inspired by a speech by Marcus Garvey and were echoed in the songs *Exodus* and *Africa Unite*.

It is time for the African Exodus and so much more; a time of great change and a singular opportunity avoid conflagration thus earning an as deserved singularity in 2026. The importance of the last chosen people is obvious and buttressed by warnings and messages written in the ink of natural phenomenon. I am not a prophet but I have learned how HaShem thinks given the matrices and the messages are as follows:

- The matrices make clear history as it is understood will end with a new beginning on July 4<sup>th</sup> 2026 with the Mashiach, Yeshua, in Jerusalem. When a major 6.4 earthquake struck in a remote area of California July 4<sup>th</sup> 2019 on a previously unnoticed NE-SW fault my first thought was the 7.2 across the southern border in Baja in 2010 given the importance of the number 72. The next day, July 5<sup>th</sup>, a rare step up 7.1 main shock occurred, which I have good reason to believe was actually 7.2; both the 2010 and the 2019 were in remote areas, intended as warnings to those posing a threat to the Constitution.
- The July 4<sup>th</sup> 2019 California earthquake not only marked the start of the seven year countdown to singularity but also the 400 year anniversary, possibly to the day, the English privateers *White Lion* and *Treasurer* captured the Portuguese slave ship *São João Bautista*. After dividing the slaves the *White Lion* then sailed to Point Comfort in English America to trade 20 slaves for food in what is today Hampton Roads...as in Hampton Roads Conference.
- On June 8<sup>th</sup> 2020 I posted "Should a 7.4 earthquake strike the west coast or Yellowstone would any recognize it to be a very specific message?" and when a 7.4 struck on June 23, literally under the beach on the west coast of Mexico, I posted "And so it begins". The July 4<sup>th</sup> association to 7.4 is a warning to cartels and Marxianity the God of Sinai is fully engaged.
- On July 2<sup>nd</sup> 2020 I posted "As July 4<sup>th</sup> approaches, pray the next message is in the remote Pacific Northwest rather than a 7.4 on the Seattle fault" and then on July 4<sup>th</sup> "All should pray the next warning is distant, takes no lives and reaches as many human beings as possible. But then again..." "Who will listen". The two Twitter's were followed by one on July 8<sup>th</sup> "Look to the Pacific Northwest for a warning to tyranny written in nature's ink and to Yellowstone if all Americans are to be forewarned"; a second on July 16<sup>th</sup> "Look to the sky, look to the Northwest...He Who Is is losing patience and a warning is likely" and finally "Comet Neowise, New Wisdom, reached its brightest just after 10pm on July 21<sup>st</sup> over the Aleutian Islands, when a 7.8 earthquake struck...in the remote Pacific Northwest. But as Jeremiah said "Who will listen?"

Learned Jews will look to 7.8 and first think of "*...the transition from natural perfection, the number 7, to that which is beyond natural constraints...the number 8*" but that would be the peshat whereas derash is far more revealing. The 7.8 earthquake, below the comet the Neowise luminescent apogee in the remote Aleutian Pacific Northwest on July 21<sup>st</sup> Gregorian and the 29<sup>th</sup> of Tammuz Judaic marked the passing of Rabbi Shlomo Yitzchaki "Rashi" on the 29th of Tammuz of the Judaic year 4865.

That the comet Neowise, New Wisdom, pointed to the exact location of the 7.8 earthquake not only honored Rashi but also sent a message to every Jew; HaShem is calling every Jew to make Aliyah. Rabbi Menachem Mendel Schneerson taught those who would listen; Rashi stressed the most obvious meaning of scripture, the peshat, was actually layered many times over with hidden meaning that when subject to deep thought and consideration not only resolved difficulties and contradictions but also allowed for new and innovative interpretation entirely in harmony with Torah...the derash.

I can see what others cannot only because I have an understanding of the plan and what God is thinking...and then there is the Queen Equation too specific to be ignored. I would ask Judaic scholars to deeply consider the multiple layers of logic human detritus managed and if in error point out the error without resorting to ideological rationalizations. What I know with certitude goes to blacks as the last chosen people; stand away from Marxianity lest the African Exodus be compromised.

American blacks as the last chosen people would be wise to give deep thought and consideration to the manifold difficulties and contradictions shaping the final confrontation; new eyes allowing for innovative interpretations entirely in harmony with the last phase of God's plan. Time is short as evidenced by the importation of the anti-racist movement to Israel where Arab-Israeli youth now represent a fifth column...as does BLM and Antifa in the United States.

If the dynamic continues it will not end well for the fifth column; Americans have visceral understanding of freedom; an intrinsic characteristic of a unique, independent and stubborn people; slow to rise but decisive when forced to take up arms...and they will when the sword of Yeshua is unsheathed.

The Holy Nation and the last chosen people share major problems none can ignore given the God of Sinai is close and getting closer every day; people where they should not be in 2026. Until the Convergence Matrix humanity could sit back in comfortable complacency and pretend the promises made to Abraham, Isaac and Jacob as to the boundaries of the Promised Land were quaint stories, but no more; Jews and their Ishmaelite brothers from a different mother are being called to make Aliyah...for Jews a return to the land promised in anticipation of singularity in 2026 Jerusalem and for Ishmaelites the great nation of Ishmael.

So too the last chosen people; God's 1619 Project is the African Exodus.

## ***Highest Ways Highest Thoughts; Barack Obama Must Decide***

*"God creates out of nothing. Wonderful you say. Yes, to be sure, but he does what is still more wonderful: he makes saints out of sinners."* Soren Kierkegaard, The Journals of Kierkegaard

The God of Sinai takes great pleasure in proving the Satan and ha-satan too clever by half by transforming the evil that men do into great good; quite often injecting irony and paradox into the debates and decisions as a challenge to human reason. For one particular individual the writing is on the wall.

The role Barak Obama will play in the last days is irony and paradox of the highest order; Obama will either prove to be evil on par with Adolf Hitler as the matrices indicate or the greatest of good in that he now has an opportunity to earn the Nobel Peace Prize he was awarded by wishful thinkers on the Nobel Committee to anoint their messiah.

The full extent of the evil that is Barack Obama has yet to unfold but what can be seen centers on the decline of institutional integrity when after 2009 the Gramsci strategy of "praxis" began a transition to actual overt direct action; the agencies of governance were weaponized and the traditional watchers in the new media became partisan advocates advancing narratives as opposed to, and quite often in direct opposition to, objective truth. Overt direct action became unrestrained "resistance" and a coup attempt in 2016 but *None Dare Call it Treason*...except this emissary.

Obama introduced Critical Race Theory into government agencies and during his term made it clear that the supposed Marxian affinity to democracy and equality was nothing more than a stratagem to gain political power which was used to telegraph *"All animals are equal, but some animals are more equal than others"*. The double standard is palpable and now highly racist 'anti-racism' defines the false religion Marxianity.

*None Dare Call it Treason* by John Stormer was prophetic as to the pervasive neo-Marxist influence strategy but as with every other warning over the decades few have acknowledged allegiance to neo-Marxism is treason in very real terms; the central tenet of Marxism is the destruction of the free market economy and by extension the destruction of western civilization and the United States. God's country must fall before evil incarnate can turn its focus on the destruction of Israel and the Holy Nation.

It really is that simple, but in simplicity are complex considerations lending to the final test of reason after thousands of years of human refusal to reason hence the measures provided; measures as an act of grace and an indictment in that reason has failed and Marxianity is on the cusp of total victory.

Foremost among black Americans is Barack Obama; Marxian born and Marxian bred to advance the Marxian agenda...but none dare call it treason except God and His faithful emissary.

It matters little what you think about Obama or the United States; the God of Sinai has let mankind know what he thinks and how he thinks when He identified Obama as evil incarnate and evidenced the Declaration of Independence and the Constitution of the United States to be exceptional instruction, Torah, as to how one conducts individual self-governance that originated at Sinai and fleshed out by Yeshua to provide a template for governance for all mankind.

All those faced with complex considerations are on notice; HaShem is not sitting on the sidelines during the final confrontation and the deepest meaning, derash, of the messages being written in the ink of natural phenomenon is clear; 'This, I will defend'. The June 23<sup>rd</sup> 2020 7.4 earthquake on the west coast of Mexico and the July 21<sup>st</sup> 2020 7.8 Aleutian earthquake were not coincidence...they were warnings after BLM and Antifa took to the streets with the blessings of Marxians and harbingers of the 2020 fraudulent election.

One would have to be naïve to believe the Black Lives Matter organization just sprang up whole cloth; Marxianity is a highly organized predatory religion with a clergy that lives to spread the Marxist gospel and the bishops and cardinals rarely let a crisis go to waste; never letting a symbolic metaphor like George Floyd, a blatant lie, pass into history. There is nobody on earth that has more gain and more to lose than Obama who like every other human being is being called upon to make the penultimate choice.

For those who consider Barack Obama a great statesman and the quintessential citizen of the world it would seem beseeching the man to lead the African Exodus would be the storybook ending; the first president of a United Africa. It must be said in that when the African Exodus is debated Marxianity will suggest that he could and should lead after his second coming but only after the United States is secured which would result in conflagration when Israel is inevitably threatened and there would be no African nation.

Do not be deceived; the question as to how many lives God would be willing to take to insure the survival of the Torah and a plan designed to prepare mankind for ascendance to a higher plane has an answer...as many as is necessary. Americans are being subjected to the final test of reason as presented in Pamphlet No.2 and as such comfortable complacency has been removed from the equation; replaced by plague, pestilence, war and an overtaxed economy teetering on the brink with the threat of Marxian tyranny hinging on the choices made henceforth.

From the higher vantage it is obvious Marxians took the White House by subterfuge and the inevitable constitutional crisis will require clarity as never before so as to make reasoned decisions. The truth will be necessary as will certitude given the Marxian strategy of Planned Chaos, 'become ungovernable', designed to exhaust the opposition until surrender; the Marxian lumpen will be called into the street to riot, loot and destroy and the military now under control of Marxians will be called upon to choose. If they chose wrong they will effectively end the Republic...and face destruction if ordered to fire on Israel.

The terms of surrender would logically result in the second coming of Marxist messiah Obama, the "voice or reason", with a shadow government already in place...after which those in the street will receive orders to stand down. There is no good ending for Marxianity in the long run under any circumstances but for blacks there is the chance of real hope and change but only if humility allows for concession; the die has been cast and a civil war is unavoidable after critical race theory has deemed the founders white supremacists. Obama need only do the math of such a calculation.

*"When peace becomes more losing than war, we may prefer the latter on principles of pecuniary calculation."*

T. Jefferson to William Wirt, 1811

Obama is a human being and as such calculating; capable of doing and appreciating the mathematics of the matrices, but whether or not he embraces the logic and reason therein will not only determine his role in the final confrontation but also endlessness or an eternity of possibilities.

HaShem is extending Obama the opportunity to pave the way for world peace by embracing the African Exodus thus defusing a potential civil war while at the same time opening the door for a lasting and honorable peace between Israel and Sunni Islam. Destiny is a decision and all should pray Obama chooses wisely but that fact his last book was titled "A Promised Land" bodes well for support of the African Exodus.

Not one jot or tittle of sympathy from an emissary tasked with impressing upon blacks who identify as African it is time for the last chosen people to make Aliyah; the African Exodus. Being found where you should not be is a concern that should not wait for the final bell when every exit will have closed. The scale was always in place but with He Who Is no longer subject to debate the weight is commensurate to the offense made heavier by rejection of the offer of peace with terms that are the matrices...which not only provide the needed measures but understanding as to how God thinks.

Being in a place one should not be is of particular concern to illegal migrants in America and Islamic migrants in Europe. But from the higher vantage, as precarious as physical location might be, it is the place where the heart, soul and mind reside that is of the utmost concern to He Who Is. In truth every black in America should give thanks to God for the privilege of being brought to or born in the United States.

It is time for blacks to put down Ibram Kendi et al and pick up *Please Stop Helping Us* by Jason Riley, *Red, White, and Black: Rescuing American History from Revisionists and Race Hustlers* by Robert Woodson and *How to Understand Slavery and the American Founding*, by Matthew Spalding. Your life and perhaps your soul depend on doing so; one must know from whence they came before plotting a course to destiny.

"I often tell people that if you think Ta-Nehisi Coates and Nikole Hannah-Jones represent the views of most black people, you need to get to know more black people"

Jason L. Riley, *Maverick: A Biography of Thomas Sowell*

It is time for the African Exodus and the eradication of all forms of racism to offset racism from life and political discourse; 'race' is an antiquated term dispelled by science and forbidden by the God of Sinai. Greater peoples and cultures has always been the measure and it is time the greater black people in America to carry a greater culture to Africa so as to build a great African nation and in doing so save 6 million whites in Africa...earning the respect and admiration so long denied to a potentially heroic people now in danger of losing their blessing.

*"Treat people as if they were what they ought to be and you help them to become what they are capable of being"*

Johann Wolfgang von Goethe, German philosopher
