

WHO WE ARE:

The Estimate Guys are skilled insurance estimating specialists providing services to contractors, adjusters, homeowners, landlords, property management companies, realtors, and anyone else in need of quality restoration or repair estimates for their projects. In our 13 years of property claims experience with major insurance carriers, we specialized in storm damage in hail hotbeds and tornado alley. Along with our extensive experience with wind and hail related estimates, we also traveled the country adjusting losses great and small, from overflowing toilets to catastrophic wildfires and hurricanes. We've learned a thing or two over the years about what to look for, what items are often overlooked by the insurance company (and contractors!), and what adjusters like to see in the estimates they receive.

We know the industry, we know the software most insurance companies use, and we enjoy the work we do!

SERVICES & PRICING:

INSURANCE SUPPLEMENTS

When the insurance estimate doesn't cut it, we help you by translating your adjustments (supplements) into their language, reviewing the insurance estimate and your photos for commonly missed items, and delivering to you a professionally written Xactimate estimate with your company's logo and contact information that you can present to the insurance company. We have three standard options available to choose from:

ROOF & EXTERIOR SUPPLEMENTS*

Choose this option if you already have an estimate from the insurance company, photos, diagrams and a list of items you know you'll want to request. We'll also review your information, the insurance estimate, and your photos for additional items to submit to the insurance company. This option does not include any contact with the insurance company, negotiations, or inspections.

Price: \$125.00

Deposit to get started: \$69.00

*Includes minor storm-related interior damages, such as insulation, drywall, and paint. If your estimate is more extensive, please contact us for pricing details.

ALL OTHER SUPPLEMENTS

Choose this option if you have a project other than a Roof & Exterior Supplement. Some examples include water losses or storm losses with heavy interior damage or damage to the structure. Just like the Roof & Exterior Supplements, you'll want to send us the insurance estimate, photos, diagrams, and a list of items you know you'll want to request. This option does not include any contact with the insurance company, negotiations, or inspections.

Price: 1% of the total estimate we write (min. \$250.00)

Deposit to get started: \$100.00

FULL-SERVICE SUPPLEMENTS WITH NEGOTIATION

We know your time is valuable. Wouldn't you rather spend that time selling jobs and managing your active projects instead of sitting at a desk estimating or on the phone with the insurance company? Leave the estimating and negotiating to us! We have easy-to-fill-out forms to guide you through the information we need to complete your estimates and will keep you updated while working on your project.

Price: \$100.00 + 10% of increase approved by the insurance company (min. \$250.00)

Payment to get started: \$100.00

INSPECTIONS

If you want to make the most of your time and our services, add an inspection to your full-service supplement order. We are currently offering inspections in the Dallas-Fort Worth metroplex. Many insurance companies are using desk adjusters to handle claims virtually, and that trend will likely continue. We have experience with both field and desk adjusted claims, and we know what photos adjusters need to approve estimates and expedite claims handling. After our inspection, we will provide you with a detailed photo sheet with captions, a professional Xactimate sketch diagram, and a detailed scope of repairs. You can also add an inspection to your estimate order or request an inspection as a stand-alone service.

Price: Contact us for inspection pricing.

CUSTOM SERVICES

We know your needs may vary, so feel free to contact us, and we'll be happy to discuss what we can do for you!
