# INITIATIVES FOR THE REVITALIZATION OF FORESTRY INVESTMENTS

# CLIMATE RISK AND VULNERABILITY ASSESSMENT OF PIA

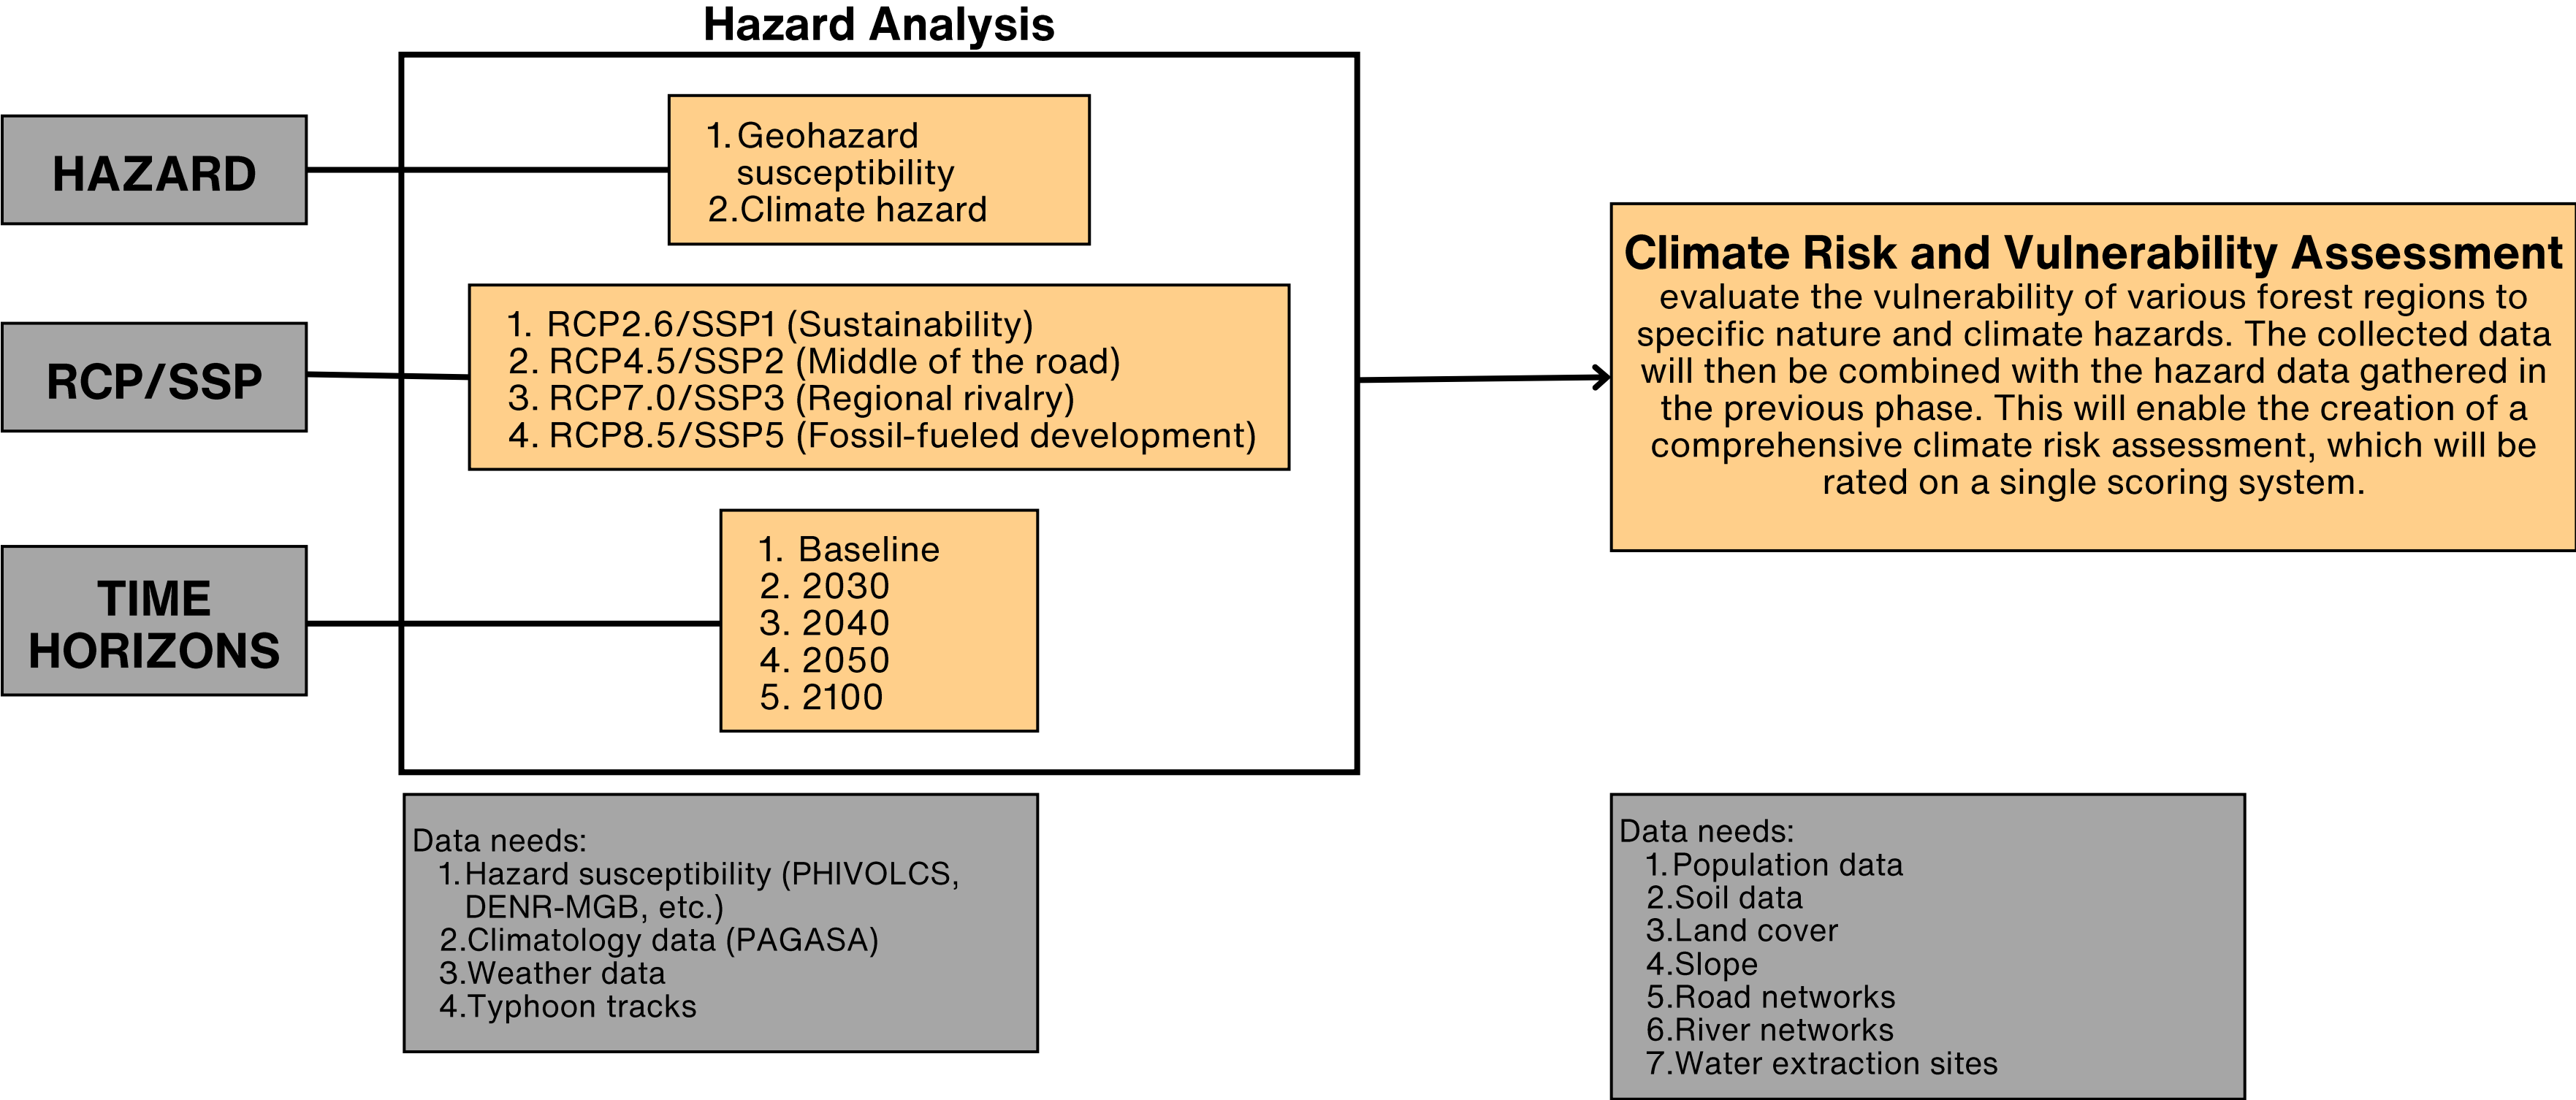

Identify risks by natural hazards and assess the vulnerability of PIAs towards climate-resilient investments for private investors.

## Objectives:

1. Conduct a thorough climate hazard analysis, incorporating present and future climate change scenarios.
2. Assess the vulnerability of forest ecosystems to various hazards; and
3. Provide recommendations for private investors based on current and future climate risk to selected PIAs

# CLIMATE RISK AND VULNERABILITY ASSESSMENT OF PIA

Process Flow Chart

# SUSTAINABLE FOREST LAND MANAGEMENT PROGRAM

Implement a holistic program that will encourage investments with diversified forest use, wherein the utilization of various management strategies will be prioritized.

- Encourage investments that diversify forest use and broaden forest productivity.
- Promotion of vertical integration approach and the rationalization of the provision on payment of user's fee.

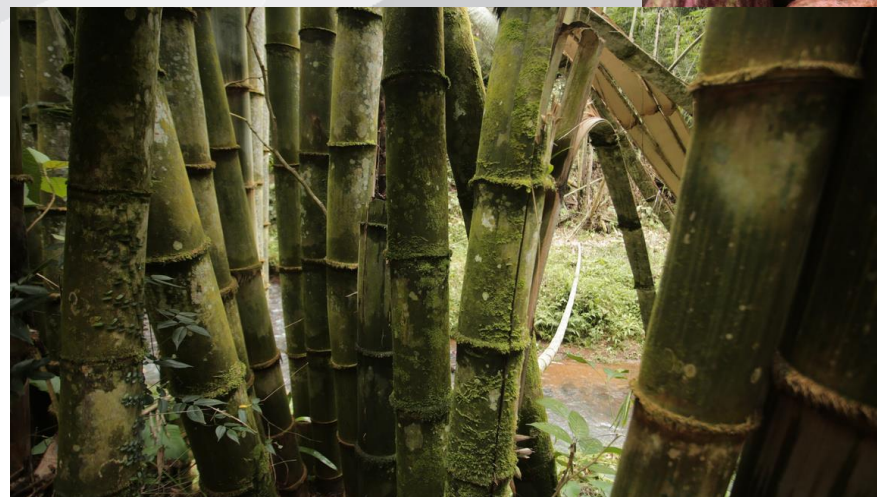

# HIGH VALUE CROPS INSURANCE PROGRAM

A way for PO members in areas under CBFMA to protect their crops/plantations and livelihood by mitigating the financial losses due to natural calamities, pests and diseases, and other unforeseen event.

## Features:

- Provides annual coverage for high value crops and selected forestry and agroforestry species, such as bamboo, coffee, cacao, falcata, mahogany, etc.
- Covers up to 120% of the cost of production inputs
- Farmers registered under the Registry System for Basic Sectors in Agriculture (RSBSA) can avail waived premium fees

## Key Message

# Ani at Kita, Tiyakin!

*Ensuring your crop is  
ensuring your income.*
