Intelligent Hearing System

- Nature 2.0 technology platform
- 4+1 multi-core wireless open processing system
- Wide dynamic range dual compression AWDRC
- 48-channel signal processing system
- AI intelligent panoramic real-time analysis system (4 scenes)
- Adaptive directional focus (8 noise sources)
- Multiple directional mode switching
- Synchronous fusion of both ears
- Real-time dynamic demonstration

Intelligent Wireless

- MFi wireless direct connection/Bluetooth phone/Music (iOS)
- TV Mate • Bluetooth APP
- Compatible with FM

HD voice

- 16 channels
- 8 frequency band compression control
- Intelligent squelch management system (Level 3)

Natural and comfortable

- Multiple speedy feedback wall
- Super FBC II
- Gain balance 8dB
- Occlusion control
- Maximum output control
- Multi-channel Expansion

Advanced features

- IP68 nano waterproof (BTE / RIC)
- Natural tinnitus masking(Narrow band sound/white noise/Pink noise/2 kinds of ocean wave sound)
- Three-in-one control

Humanized function

- Power-on delay
- Indicator
(Power on indicator/Low voltage/Program switching)
