## CORE CAPABILITIES

### General Contracting:

Comprehensive management of construction projects, from start to finish, ensuring all aspects meet client expectations and industry standards.

### Design-Build:

Integrated design and construction services that streamline project delivery, reducing costs and timelines while maintaining quality.

### Engineering:

Expert engineering services that provide innovative and practical solutions to complex challenges, ensuring structural integrity and project success.

### Construction Management:

Efficient oversight and coordination of all project phases, ensuring safety, quality, and timely completion.

## DIFFERENTIATORS

What makes RSC General Contracting stand out is our unparalleled commitment to quality, safety, and scheduling.

We combine a deep understanding of construction methods with a passion for precise scheduling, ensuring that we meet even the most demanding deadlines without compromising on quality. Our extensive safety training, obtained through various industry-leading programs, ensures that every project is executed with the highest safety standards in mind.

This unique combination of expertise, dedication, and safety makes us the preferred choice for clients looking for reliable and efficient contracting services.

## CERTIFICATIONS

**Certified General Contractor:** CGC1535883

**Certified Roofing Contractor:** CCC1335309

**OSHA 30 training**

**High Security Clearance**

## PAST PERFORMANCE

**NASA Vehicle Assembly Building (VAB) Re-pipe Project:** Successfully executed complex re-piping tasks, showcasing our capability to handle critical infrastructure in highly regulated environments.

### United Launch Alliance (ULA):

Served as a trusted roofing contractor, providing expert roofing solutions that meet stringent aerospace industry standards.

### SpaceX Projects:

Partnered on various construction and maintenance projects, demonstrating our ability to support cutting-edge technological advancements in space exploration.

### Brunswick Boats Searay Plant:

Delivered continuous improvements and maintenance services, contributing to the sustained operational efficiency of the facility.
