Do you have Medicare or Medicaid (even if you don't use it)? ☐ Yes ☐ No

Welcome to New Life Functional Medicine! We want to get to the root cause of your health and wellness concerns and fix the problems "up stream" rather than giving medications for each symptom. So, instead of treating the headache with medicine first, we try to determine the CAUSE of the headache and fix that. We

do this with generous appointment times that include a thorough medical history, specialty labs and assistance with diet and lifestyle changes. If needed, medications, supplements and bio-identical hormone therapy can be part of the treatment plan. We believe each patient is unique, having different lifestyles, belief systems and budgets. Our mission is to help each patient reach achievable goals for their health, lifestyle and budget.

Please note, we may use an alternative to the FDA approved treatments to improve your health. We focus on dietary and lifestyle guidance, as well as advanced laboratory monitoring that is science based, but has not been evaluated by the FDA. I will refer you to your primary care provider if you prefer only FDA approved treatments for your health concerns. Additionally, I will not replace you primary care provider and do not offer 24-hour a day urgent care. My office hours are by appointment only. My scope of practice includes reproductive and functional medicine only, and I will let you know if any of the concerns we discuss should be addressed by your primary care provider.

This office values your privacy and follows all terms and condition of the Health Insurance Portability and Accountability Act (HIPAA). In doing so, you will be asked to designate, in writing, with whom we can share your private health information. Additionally, our staff is committed to providing care to all patients, regardless of race, skin color, national origin, age, sex, sexual orientation, disability, religious or political beliefs, with dignity and compassion.

Consent to Treat:

My signature on this document authorizes the staff of New Life Functional Medicine to perform examinations, order and interpret diagnostic tests, suggest treatments and/or therapies and take other actions that they consider medically necessary to diagnosis and treat my symptoms or illnesses. I further understand the practitioner treating me will consult and educate me on the suggested treatment(s) or therapy(s) before proceeding. I understand that the practice of healthcare is not an exact science and that no guarantees will be made to me as to the results or outcomes of my evaluations or treatments.

Financial Policy:

Please be advised that our office is not contracted with any insurance carriers. It is your financial responsibility to pay our fees at the beginning of each visit.

If any lab work is ordered, you will be given a lab order for Quest Diagnostics, which is our lab of choice. It is your responsibility to verify that your insurance will pay for the lab work that is being ordered prior to going to the lab. If you are unsure if your insurance will pay for specific lab work, or if you have a large deductible plan, we offer an option that allows you to pay us directly or labs from Quest at a discounted rate. We require payment in full for this option prior to sending you the lab order.

Your insurance may require that you got to a lab other than Quest. It is your responsibility to know this prior to having any lab work done. The lab order we provide you for Quest can be used at other labs if you are billing through your insurance.

Since we do not accept insurance, we cannot pre-certify any labs or procedures (e.g., pellets) with your insurance company.
