REVIEWS

"Ms. Bleau has an unabashed vocal style that is clean and distinct, with just a hint of rasp. She really envelopes a lyric and gets inside it. Her dynamic voice is highlighted by Cocco's Steve Cropper meets Robert Cray guitar accompaniment. His instrumental approach is less about flash and more about laying the proper chord or lick in the right place."

Live Reviews, Magazine, 2022

"Sunny Bleau's show combines high-energy, powerhouse vocals, infectious personalities and great storytelling. Sunny Bleau and the Moons is more of an experience than a concert. They will have you singing along, clapping your hands and dancing in the aisles! This is a must see show!"
