YOU CAN GO THE DISTANCE FASTER AND EASIER WITH THE CONVENIENCE OF A NEW LASER TECHNOLOGY THAT MAKES MEASURING JUMPS AND THROWS A SNAP! AND IT'S PORTABLE TOO!

The number following the letters XTK in the description indicate how many Leica DISTO X3 lasers are included with the rail.

XTK100 Complete Rail System (1 laser) \$3320.00 XTK200 Complete Rail System (2 lasers) \$3710.00 XTK300 Complete Rail System (3 lasers) \$4100.00

XacTraK laser rails are the only patented rails that can incorporate the use of multiple lasers on a single shuttle. This allows the use of laser measuring on multiple toe boards during a triple jump competition.

FAST ASSEMBLY

ONE MAN SET UP & OPERATION

EASILY STORES IN SMALL AREA

LASERS

MILESEEY LASERS BY XACTRAK

XacTraK Lasers

XTKP2P

- Point to Pont (P2P) Technology with Auto Pythagoras
- Units Ft-In-Fractions, Ft-In, M
- 120 Memory
- 2X and 4X Zoom
- 400ft Range
- 2.4" Display
- Camera
- IP65 Protection (waterproof)
- Power Supply via USB
- Real Time Data Transfer via USB

XTKRAL

- 6 Bank~20 Memory
- IP65 Protection (waterproof)
- 330ft Range
- Power Supply via USB
- Real Time Data Transfer via USB
- Units Ft-In-Fraction, Ft-In, M

GREEN DOT SIGHT LASERS

\$42.50

SHUTTLE TRAYS

Single \$30.00

Double \$50.00

Triple \$75.00

VERTICAL LASER STICK

Use the XacTraK Vertical Laser
Stick to verify the height of every
Pole Vault or High Jump Setting.
For our younger, up and coming
competitors, our stick has a laser
mounting location in the middle of
the stick so EVERYONE jump
heights are verified. Once again,
XacTraK has separated itself from
the competition with a unique
design that includes all ages and
talent levels.
