

# ASLAN KINGDOM KENNEL

## DEPOSIT/PURCHASE AGREEMENT

### **Congratulations! We are so excited for you and your new fur baby.**

We will do our best to send you updated pictures of your puppy every week and once your puppy is 5 weeks old we will send a video. Please reach out to us with any questions you might have about your puppy. Your puppy will be handled and loved on a lot over the first 8 weeks of its life by us, our friends, and family that come to visit. We will also work hard to desensitize your puppy to everyday household noises, clippers, kids, and other dogs. Your puppy has had its tail removed (unless asked to leave it) and its dew claws removed and should be all healed up by 8 weeks old. Your puppy will receive its first haircut at 6-7 weeks old.

#### **Puppy pick up day:**

Your puppy will be sent home with a Care Folder that will include vaccination information, birth certificate, as well as some recommendations from us at AKK. Puppy will receive its first set of vaccinations and worming here at AKK. You will need to make an appointment for your puppy to receive its next set of shots with-in 2 days of bringing your puppy home to stay on track.

#### **Feeding information:**

From 8-10 weeks your puppy is still getting their teeth, go ahead and add warm water to their food and allow it to soften some before feeding. Your 8-10-week-old puppy will need to eat 3 times a day, prepare 1/3 cup and if your puppy eats it all go ahead and offer him a little more. Remember, your puppy is growing and will quickly increase his food intake. You can always refer to the puppy food bag for feeding instructions. Once your puppy is 11 weeks old go ahead and switch him to hard kibble twice a day and increase to 1/2 cup. Your puppy will tell you if he is not getting enough food. If he gobbles it all down quickly, start adding a little more until he's full. We feed Purina Pro Plan Puppy. Around 6 months of age you can switch to Purina Pro Plan Sport All Life Stages Active. You can purchase through the link on our Recommendations page on our website.

If you wish to switch your puppy to a different food gradually transition by feeding the following schedule:

Day 1-2: 75% old food and 25% new food

Day 3-4: 50% old food and 50% new food

Day 5-7: 25% old food and 75% new food

After Day 7 you can switch completely over to the new food.

#### **Potty Training**

Starting at 4 weeks old we introduce the puppies to a litter box for potty training. This is a great option for starting potty training and can easily transition into outdoor potty training by placing a small amount of used litter in the area you wish for your puppy to relieve themselves. It is important that when you take your puppy outside, take them to that same spot every time. If you want to have your puppy alert you when it needs to go out there are several options. You could hang bells from the desired door knob or place a dinger bell next to the door. If you wish to continue to litter train your fur baby, refer to our video on the proper way to achieve success with this.

**\*We have several informational videos for you to view regarding these topics and more on our website. Check out the Tips, Tricks & Recommendation tab at [aslankingdoms.com](http://aslankingdoms.com).\***

# Contract Information:

**YOU ARE PURCHASING A PET ONLY PUPPY. THIS MEANS IT IS NOT ELIGIBLE FOR BREEDING AND AKC PAPERS ARE NOT PROVIDED. Initial Here:** \_\_\_\_\_

Seller will contact the buyer when puppies are available. Buyer must make their selection within TWO days of notification. (Puppies might have to wait to be chosen until 4 weeks if blue eyes are a possibility) You may choose your puppy in person or by emailed pictures. If a pre-born deposit has been placed on a litter that does not produce enough babies to fill the amount of deposits, your deposit can be used on a different litter or you can move up the list for that female's next litter. If a pre-born deposit has been placed, the buyer may request to skip one litter. **Initial Here** \_\_\_\_\_

If for **ANY** reason the buyer changes his/her mind and no longer wants to purchase a puppy, the buyer agrees to forfeit the deposit to the seller. Deposit can be sent thru PayPal to lenzy700@gmail.com and then choose "Friends & Family" OR thru Cash App., Venmo OR cash.

**Final payment is due in cash. Initial Here** \_\_\_\_\_

If in the event the seller cannot provide a puppy to the buyer due to death, sickness, or situations out of the seller's control, your deposit will then be refunded or transferred to the next available litter. Please understand that it can take up to a year to get the exact puppy that you want as far as color, sex, or size. Deposits can also be placed on hold to use at a later date, within 12 months.

**Initial Here** \_\_\_\_\_

## Health Agreement

The buyer assumes all responsibility and care of their puppy once possession has transferred from the seller. Buyer has **14 days** from possession to have puppy health checked by a licensed veterinarian. After 14 days, this starts your **Congenital Defect Guarantee for up to 3 years**. If no exam is completed within the first 14 days, the buyer forfeits their Congenital Defect Guarantee. If within 3 years of life your puppy is found to have a life threatening defect (heart, liver, ect) a replacement puppy will be provided as soon as one is available upon the following condition.

- Documentation is required with proof of condition from the vet that diagnosed your puppy. Once proof of defect is provided and the affected puppy is either returned to us, or approval and proof of euthanasia is given from veterinarian to seller. Seller will then provide another puppy to the buyer as soon as the next litter is born.

At **NO** time will the seller cover vet bills. If the buyer decides to keep the affected puppy, the buyer assumes all responsibility for future care. **Initial Here** \_\_\_\_\_

All puppies are sold with a Birth Certificate only. Your puppy is being sold to you as a family pet companion, not for breeding or showing otherwise stated on this contract. AKC Registration is reserved for those purchasing a puppy with breeding rights. **Initial Here** \_\_\_\_\_

If an umbilical hernia is present in your selected puppy the seller will reduce \$100 from the purchase price to offset the cost of umbilical hernia repair at the time of spay or neuter.

Veterinary surgical cost for fixing an umbilical hernia at the time of spayed or neutered is usually between \$60-\$100. **Initial Here** \_\_\_\_\_

The seller does not guarantee size, coat, color, undescended testicle, underbite, or fertility once the puppy has left our premises. We do not warranty against hypoglycemia, retained puppy teeth, coccidiosis, giardia, ear mites, and external/internal parasites, viral or bacterial infections that may occur after the puppy is brought into your environment.

**Initial Here** \_\_\_\_\_

I have read and understand the stipulations of the contract and voluntarily agree to all elements, stipulations and provisions herein.
