Attention Waterworks Owner/Operator:

RE: Precautionary Drinking Water Advisory for *the Resort Village or Kannata Valley* - Rescinded

The Water Security Agency (WSA) is satisfied with *two sets of* negative bacteriological sampling and adequate disinfection residuals and turbidity values from samples that have been collected from the water distribution system following the hydrant repair which caused the system depressurization. Therefore, effective immediately the WSA is rescinding the “**Precautionary Drinking Water Advisory**” for the residents and users of the Resort Village of Kannata Valley’s water supply.

For further information, please do not hesitate to contact the undersigned at 306-527-6128 or Jeff.Hindle@wsask.ca.

Sincerely,
