

SCIENCE/STEM EDUCATOR

Discover Science Center is currently accepting applications for enthusiastic **Science/STEM Educators** to join our Team. Our Science/STEM Educators lead fun, hands-on science activities in a variety of informal science education programs for K-12 students, including camps, homeschool courses, after-school programs, scout workshops, birthday parties and more. Full and part-time positions are available at our Roswell and Peachtree City locations.

We are looking for someone who:

- LOVES kids, has a great attitude, and is passionate about science education.
- Is interested in growing professionally with our expanding business long-term. This is not an opening for a short-term or temporary position.
- Is experienced in Elementary Education (STEM Education preferred) or a field of science/STEM, with a minimum of a Bachelor's degree.
- Can effectively work in a busy, high-energy environment.
- Is First Aid and CPR certified or willing to get certified.
- Can pass a criminal background check.
- Can positively represent Discover Science Center.

Primary responsibilities of this position include:

- Mastering lessons for classes and workshops.
- Understanding scientific concepts and teaching these concepts in a fun way to students.
- Supervising and leading student classes during after-school programs, homeschool courses, camp programs, and/or weekday and weekend workshops. Programs may be in-person or online.
- Arriving for classes on time and prepared. Some classes may be off-site and require travel (usually <1 hour from our location).
- Occasional, and optional, travel on educational cruise and out-of-town field trip excursions (travel expenses paid by DSC).
- Adhering to the schedule and syllabus determined for each program.
- Managing student behavior in a positive way.
- Effectively communicating with parents.
- Assisting other Team Members as needed.
- Some weekend hours are required.

Compensation:

- Hourly pay based on experience (starting range \$20-\$22/hour)
- Health, dental and vision insurance options available (full-time only, partially compensated).
- Retirement benefit with company match.
- Paid time off.
- Summer camp for children of Team Members and other unique benefits included.

About us:

Discover Science Center is an informal science education enrichment center whose purpose is to supplement the STEAM (Science, Technology, Engineering, Art and Math) curriculum taught in K-12 schools and homeschool programs. Our programs focus on hands-on, interactive learning, and were designed by scientists and educators to take advantage of the natural fascination students have with science.

Our mission is to serve the community by providing fun and interactive educational experiences and opportunities related to science, in order to inspire and support childhood passion for learning.

We value hard work with a healthy life/work balance, professional growth and upward movement within our growing business.
