

DISCOVER SCIENCE ON THE SEA: ALASKA

JULY 15-22, 2024

Join us for our **Marine Biology Cruise to ALASKA** on Royal Caribbean's **Quantum of the Seas**. As we cruise round trip from Seattle to Sitka, and Victoria Canada, our team of Scientists and Educators lead your kids (ages 8-18) in our hands-on field and science experiences. We focus on ocean science as well as the biology and ecology of the destinations you will visit.

- **Girl Scout Badges** are offered for Girl Scouts joining our trip. 🍀
- Optional island excursions including **whale watching, White Pass railway, glacier hiking and raptor center tours** will be available at an extra cost.
- Cruise fare and inclusions start at \$1449/person
- \$250/person non-refundable deposit required at time of booking. Additional partial payment of \$500/person due January 27, 2024. Full payment due April 10, 2024. See website for full details.
