

DISCOVER SCIENCE ON THE SEA

Marine Biology Cruise
December 18-24, 2022

Join us for our **Marine Biology Cruise to the Western Caribbean**. As we cruise to Cozumel, Roatan and Puerto Costa Maya, our team of Scientists and Educators lead your kids (ages 8-18) in our hands-on field and science experiences. We focus on ocean science as well as the biology and ecology of the destinations you will visit. Girl Scout Badge workshops are included for Girl Scouts joining our trip. Optional excursions will be available at an extra cost.

More information and RSVP on our website:
