

# INDIAN ROCK PRODUCT 4/1/19

**BABY GREEN MANGOS** are small, round, and flat in shape, averaging 1-3 centimeters in diameter. The skin is smooth, waxy, firm, and a vibrant emerald green. The flesh is toothsome, moist, and yellow to green with a single immature, white, edible seed encased in the center. Baby Mangoes are crisp, acidic, and tangy with nuances of sweet, tropical flavors.

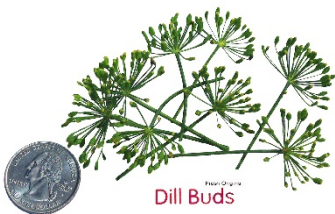

**BABY SUNBURST SQUASH** AKA MINI YELLOW PATTY PAN  
The unique size of this baby summer squash makes it ideal for use whole, roasted or skewered onto kebabs and grilled. Individual squashes can also be hollowed out, stuffed and baked.

**BLACK FIG FUN FACT** is among the oldest fruit. Fossil records date **figs** back to between 9400-9200 B.C. **Figs** are not really fruits, but flowers turned inside out.!

**ENGLISH PEA FUN FACT** One serving of peas contains as much vitamin "C" as 2 apples, more fiber than a slice of whole wheat bread. 7175 peas were eaten in one minute with chop sticks by a woman in Sussex, this was a world record!
