AmeriGreen Organics First Official Revenue Stream Up And Running

CBD City E-Commerce Site Launched

The team at AGO is excited and grateful to announce the activation of our first official revenue stream with the official launch of our e-commerce website companion to our CBD City retail store footprint - [cbdcitystores.com](#). The site is a one-stop shop for hemp & CBD products ranging from tinctures to topical to textiles to vape and smoke products. We have curated 30 high-quality brands for our collection of over 500 products offered, and our Shopify store is also duplicated on Facebook and Instagram for easy social media purchasing access to the products we sell on the site. A small sampling of our product offerings are displayed below, and you can click the button below or the relevant links above to check out the site. Please take a moment to review it at your convenience.

COVID-19 IMPACT RESPONSE UPDATE

AmeriGreen Organics Nimbly Adapts Operations To Push Through The COVID Pandemic

COVID-19 has had a measurably negative impact on our original plans & progress for 2020 once the full impact set in at the beginning of March. Our plans to

commence outdoor grow operations on our first tract of state trust land in the lease secured with the NM State Land Office were thwarted for this current 2020 growing season, due to acute investor fear & uncertainty about the economy and their portfolios at the outset that disrupted several investor conversations that are well underway. That fear has continued to dominate investor behavior, but recent re-openings around the country has improved their outlook and many of the conversations we were in when the pandemic hit are now back on track. We look forward to closing some of those transactions in the near future as summer sets in with more re-openings, and will remain steadfast in doing all we can to continue our progress with the resources we have and further build investor confidence in the savvy and tenacity of our company. And in spite of the chaos of shutdowns caused by the pandemic the company has achieved some key 2020 milestones included in our business plan - including the launching of our first revenue stream as described above. Other accomplishments we've achieved since the last update are below.

Truth or Consequences Project Takes Major Step Forward with \$500K LEDA Grant

We recently accomplished our goal of being accepted for a Local Economic Development Act (LEDA) grant from the governor. The process moving forward includes the City of Truth or Consequences city Commission voting to adopt a new ordinance to serve as the local fiscal administrator for the grant. The Commission voted to move forward with the ordinance on May 13, 2020 and set the final vote to approve the ordinance for June 10, 2020. We will then sign the administrative agreement with the city manager so that they can begin officially tracking our project investment for activation of grant funds as we cross the thresholds stipulated by the grant. We have been working with the NM Economic Development Department to finalize a statewide press release from them announcing the governor's award to AGO, and celebrating it as a true rural economic development project for New Mexico. Their plan is to release the announcement immediately after the city Commission votes for final ordinance approval. Our plan is to begin permitting and project

build out for the first phase of the master plan footprint starting early July following the approval of the ordinance and signing of the administrative agreement with the City. The building design plans that will be needed for initial permitting are being prepared by our design team now. (The design team artist rendition of the street view of our complete TorC footprint is found in the image above) We have developed the most efficient project development strategy to maximize the stipulations in the funding requirements to quickly develop additional phases of the footprint and activating revenue streams 3 & 4 out of 8 total revenue streams in our business plan in the compound along the way.

JULY 17 | 10:00am-6:00pm EDT

CBD City Retail Store Grand Opening Rescheduled to 7/15

Originally scheduled for April 1, 2020, our first retail store location and revenue stream #2 for AGO is now tentatively scheduled for opening in Atlanta, GA on

Friday, July 17, 2020 (pending advisement from Atlanta Mayor) at 2286 Cascade Road, SW. The store build out has gone well and we will be ready to open the store fully once the coast is clear to do so and sustained customer confidence in shopping has rebounded in that area more fully. This will be a family-friendly event with free samples, infused foods & beverages, catering by Chef Swan Simpson of Canna Bistro, door prizes, and fun for all. The ribbon cutting ceremony is at 10:00am just before the doors open to the public. We hope to see you and your friends there throughout the day to take advantage of our grand opening day discounts.
