Introduction to Sustainability and ESG Training Courses

Discover a range of Sustainability and ESG training programs crafted to meet the evolving needs of today's professionals and organizations. Sustavia Global's courses are designed to strengthen technical expertise, deepen strategic understanding, and enhance leadership capacity in sustainability, environmental performance, and ESG reporting.

At Sustavia Global, we believe that continuous learning is the foundation of meaningful impact. Our programs are developed and delivered by industry experts with real-world experience, ensuring that every concept is practical, actionable, and relevant to your work.

With flexible delivery options, including interactive workshops, on-site corporate training, and hybrid formats, Sustavia makes professional growth accessible and adaptable to your schedule.

Join us and take the next step in your sustainability journey with confidence, build the skills to drive change, foster accountability, and advance a more sustainable future.

Sustainability Reporting & ESG Fundamentals

Overview

Gain a clear understanding of sustainability reporting frameworks, ESG principles, and stakeholder engagement. Learn how to prepare credible, transparent reports that communicate your organization's environmental and social impact.

Duration: 2 Days

Learning Outcomes

- Understand ESG frameworks (GRI, SASB, TCFD).
- Conduct materiality assessments and stakeholder consultations.
- Develop sustainability reports aligned with global best practices.

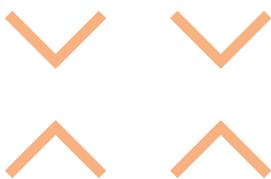

Delivery: Instructor-Led (In-Person / Virtual)

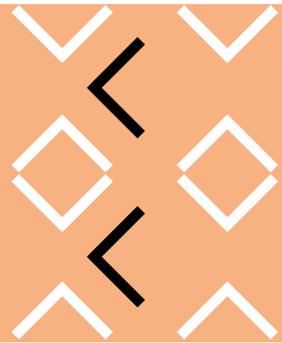

Who Should Attend

Sustainability professionals, CSR managers, communications officers, and strategists.

Fee: \$635

Climate Resilience & Environmental Performance

Overview

Integrate climate risk assessment and environmental performance monitoring into your organization’s planning. Build climate resilience for stronger operational continuity.

Duration: 1.5 Days

Learning Outcomes

- Assess climate-related risks and opportunities.
- Integrate resilience strategies into planning.
- Strengthen environmental performance metrics.

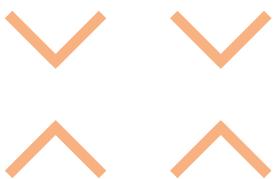

Delivery: Hybrid/Virtual

Who Should Attend

Environment managers, sustainability leads, planners.

Fee: \$395

Circular Economy Training

Overview

Explore circular economy principles and practical tools for designing products and processes for reuse, recycling, and regeneration.

Duration: 2 Days

Learning Outcomes

- Understand circular economy concepts and business models.
- Conduct circularity assessments.
- Apply circular design for resource efficiency.

Delivery: Hybrid/Virtual

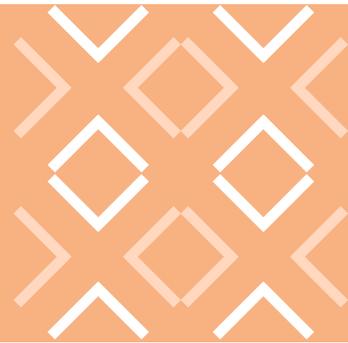

Who Should Attend

Manufacturing professionals, sustainability leads, R&D teams.

Fee: \$635

Carbon Footprint & Green Facilities

Overview

Learn to measure, manage, and reduce greenhouse gas emissions. Develop practical carbon accounting and sustainability reporting skills.

Duration: 1.5 Days

Learning Outcomes

- Conduct carbon audits and calculate emissions.
- Identify reduction and renewable energy options.
- Build carbon action plans aligned with standards.

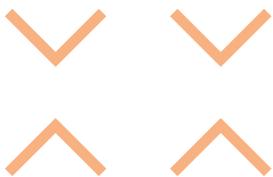

Delivery: Hybrid/Virtual

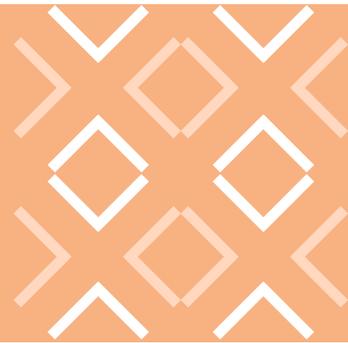

Who Should Attend

Facility managers, sustainability officers, energy coordinators.

Fee: \$395

Environmental Management Systems (ISO 14001 Excellence)

Overview

Develop and implement Environmental Management Systems (EMS) using ISO 14001 standards. Learn to integrate compliance and continuous improvement.

Duration: 2 Days
