

In-Person Courses

At Engreco Healthcare, we offer a range of maxillofacial prosthetics courses, delivered in-person at our education centre in Leighton Buzzard, UK, and through flexible online learning. Led by award-winning maxillofacial prosthetists, our courses are designed for clinicians, dental technicians, maxillofacial prosthetists, prosthetics and art students seeking to advance their skills in maxillofacial prosthetics.

Our educational courses are led by award-winning maxillofacial prosthetists with extensive clinical and teaching experience, ensuring each programme combines academic excellence with real-world expertise. Designed for clinicians, dental technicians, maxillofacial and dental professionals, our CPD-accredited training covers the latest techniques in maxillofacial prosthetics.

What to expect

Each participant will gain the skills, confidence, and clinical insight needed to deliver outstanding patient-centred care. You will receive a complete course pack containing all necessary resources to complete their prosthesis, from start to finish. This includes:

- Materials & tools
 - Booklet
 - Presentation
 - Live demonstrations
- 1-to-1 supervision and mentoring
- Certificate of completion
 - Lunch and drinks

**All our courses are subject to our Terms & Conditions.*
