## How to Prepare (only 5 minutes!)

1. **Identify your top priorities** — Which room or area bothers you most? (kitchen, closet, home office, garage, etc.)
2. **Jot down 2-3 goals** — Example: "Create a calm kitchen that stays organized" or "Set up my home office for better productivity."
3. **Have your calendar handy** — In case you want to book the next step right away.
4. **No cleaning required** — We want to see the space as it is so we can give the best advice.
5. **Prepare any questions** — Pricing, timeline, what we bring, how we work — ask anything!
