

VIDEO VISIT

Instead of coming in to the office, a video visit will allow you to:

- ❖ **See and talk to your provider by video from home, work, or wherever you will have your smart phone/computer**
- ❖ **Go over any concerns and discuss any potential medication changes just as you would at an in-person office visit**

Instructions to do before a visit:

- ❖ **Call the office prior to your appointment to give our office your email address, pay any co-payment you may have, as well as go over any concerns regarding how to use the app. This appointment is still scheduled amongst other in-office appointments, so we kindly ask for your patience, while staying logged in to the Vsee app, and allow adequate time to be seen.**
- ❖ **Please complete the following steps prior to your scheduled appointment**

GET STARTED!

STEP 1:

Download the *Vsee messenger app* (green box with a white 'V' inside) {NOT the waiting room app} from the app store or go online to www.vsee.com

STEP 2:

After downloading the Vsee app, you will be asked to set up an account

STEP 3:

We will need your email address to call you through the app. Call our office at (405) 360-2827

STEP 4:

Log in and test the app days before the appointment
