

# KeyCross<sup>TM</sup> Deposition Examinations Pricing FAQ

For depositions booked after June 01, 2023.

## What **fee options** are available for KeyCross<sup>TM</sup> Depositions?

We work with you on each matter to design a strategy that maximizes your leverage for trial or settlement, along with a fee structure that suits the economics of your business model.

Based on each matter's estimated value, your goals, and your preferences, your ideal fee structure may be one of the following:

1. **flat** (fixed fees as provided below, paid per deposition session)
2. **contingent** (per matter or session or per matter)
3. **blended** (progressive contingent fees with reduced flat fees to suit your needs)
4. **pro bono** (for cases that you handle pro bono, we are happy to do likewise)

Contingent and blended fees are reserved for select plaintiff-side matters with compensatory damages above \$250,000 (not including non-economic and punitive damages).
