

PACKING LIST

- **Hearty lunch and two snacks (children get very hungry when playing on the farm all day). It is better to pack too much food than not enough. We eat every 2 hours on the farm.**
- **READ YOUR WELCOME EMAIL, to determine if the session your child is attending is a NUT-FREE SESSION.**
- **Wear farm appropriate clothing**
- **Closed toe shoes for farming activities**
- **Water shoes**
- **Towel**
- **Full Change of clothing**
- **Bathing suit**
- **Hat**
- **Large water bottle (labeled w/ name) We can refill bottles, but we are not always close to a water filling station)**
- **Apply bug spray and sunblock**
- **Gardening gloves**
- **Reusable plastic cup**
- **Reusable place settings (plate and silverware)**

Zero Waste Policy (Waste Reduction, Recycling and Composting)

At HCFC, land stewardship is important, and we are committed to implementing a zero-waste mission. Zero-waste is the principle of minimizing waste production as much as possible, and composting, reusing, or recycling any other waste generated. We encourage our campers and staff to minimize single use products, when possible. Please consider bringing refillable water bottles, reusable lunch containers and bags, and we will be composting appropriate food waste. Staff will be available to assist students with the identification of composting, recycling, and reusable items as needed. We also have a refrigerator on site for lunches to be stored, decreasing the need for single-serve items. Together, we can reduce climate impact, encourage sustainability, reduce landfill trash and food waste, and do our part to keep our planet thriving for generations to come. Any item that cannot be composted or recycled will be kept in camper's lunchboxes and will be taken home.
