The Future of Healthcare Navigation

- ▶ **Navimatrix Pro is changing healthcare management by shifting from traditional cost-containment to proactive intervention.**
- ▶ **A deep-learning powered healthcare navigation system.**
- ▶ **Goes beyond cost savings to improve patient outcomes.**
- ▶ **Designed to target chronic disease resolution and optimize employer healthcare plans.**

What is NaviMatrix Pro?

- ▶▶ **A proprietary software platform integrating advanced data analytics, personalized care navigation, and deep learning-driven precision medicine.**
- ▶▶ **Identifies high-risk employees before costs escalate.**
- ▶▶ **Proactive, personalized care navigation.**
- ▶▶ **Seamless integration with your health plan.**

Addressing Chronic Disease and Resistant Conditions

- ▶▶ **Many patients are stuck in long-term disease management cycles with little to no improvement.**
- ▶▶ **NaviMatrix Pro breaks this cycle by targeting the root cause through personalized, integrative treatment plans.**
- ▶▶ **Designed for employees left behind by traditional healthcare models.**

How NaviMatrix Pro Works

Data Integration & Deep Learning Analysis

Data from TPAs, PBMs, prior authorization providers, and personal health assessments identifies at-risk individuals.

Intelligent Predictive Analysis

Identifies chronic disease risks before they escalate through deep learning algorithms for precise targeting.

Care Intercept & Navigation

Remote care team contacts employees for proactive care providing alternative treatment paths, second opinions, and specialist referrals.

Targeted Interventions

Employees are directed to specialized programs (Oncology, Drug Management, Chronic Care, etc.).

Key Features of NaviMatrix Pro

Personalized Care Plans

Focused on root cause resolution using functional precision medicine including alternative therapies, integrative medicine, and genetic targeting.

Global Case Rates & TPA Coordination

Optimized cost management through TPA and provider rate coordination.

Precision Medicine Enhancement

Adds an extra layer of care management improving healthcare strategies.

Integration with Biolytics

Triggers Envita Biolytics for comprehensive health assessments.

Benefits of NaviMatrix Pro

Significant Cost Reductions

Saves on claims by proactively intercepting high-cost conditions.

Targeted Chronic Disease Resolution

Shifts healthcare from reactive to proactive management.

Improved Employee Health Outcomes

Better quality of life through personalized care & predictive intervention.

Proactive Management & Ongoing Engagement

Employees stay engaged in their healthcare journey, preventing costly hospitalizations.

Increased Efficiency & Transparency

Moves away from outdated CPT & ICD10 algorithms, focusing on patient-centric decisions. Employers gain full transparency into care options & cost savings.

Why Employers Need NaviMatrix Pro

- ▶ **Tackles the biggest cost drivers in employer healthcare plans.**
- ▶ **Ensures employees receive the right care at the right time.**
- ▶ **Prevents unnecessary high-cost treatments, surgeries, and hospitalizations.**
- ▶ **Easily integrates with existing health plans.**
- ▶ **The future of cost-effective, personalized healthcare management.**

Ease of Integration with TPA's

Who We Serve

- ▶▶ Self-Funded Plans
- ▶▶ Level-Funded Plans
- ▶▶ Third-Party Administrators (TPA)
- ▶▶ Health Trusts
- ▶▶ Captives
- ▶▶ Large Employer Groups

How We Save You Money

- ▶▶ Drug Intercepts
- ▶▶ Oncology Intercepts
- ▶▶ High-Cost Claim Intercepts

Ovarian Cancer Case Example

A 59-year-old patient with stage 3 ovarian cancer was identified and directed to our Center of Excellence (COE) through our Navimatrix Pro™ program. This intervention resulted in the patient receiving personalized care at the center leading to significant cost savings for the company.

➤ Conventional Plan		➤ Envita Health™ COE Program	
PROTOCOL	PRICE	PROTOCOL	PRICE
Labs	\$44,150.20	Labs	\$31,025.10
Imaging	\$18,435.00	Imaging	\$18,435.00
Chemotherapy	\$256,672.36	Chemotherapy	\$82,024.00
Radiation	\$127,352.14	Radiation	\$65,660.00
Surgery	\$134,515.44	Surgery	\$11,850.00
Total Protocol Cost	\$581,125.14	Total Protocol Cost	\$208,994.10

*Pricing is based on 200% Medicare Reimbursement

The total savings for the plan was approximately **\$372,131.04** less than the conventional oncology program.

Disclaimer
Please note: This case study is based on a single patient and may not reflect the experience of all individuals. Costs and treatment options can vary depending on specific circumstances. While we strive for accuracy, there may be potential errors or fluctuations in the data presented. Furthermore, prices and treatment options may change over time. Prior authorization is required for all services, and we make every effort to ensure accurate cost estimates. However, final costs can be subject to change. It's important to consult with your healthcare provider to determine the most appropriate treatment plan for your individual needs. Not all conditions may be eligible for treatment at our Center of Excellence.

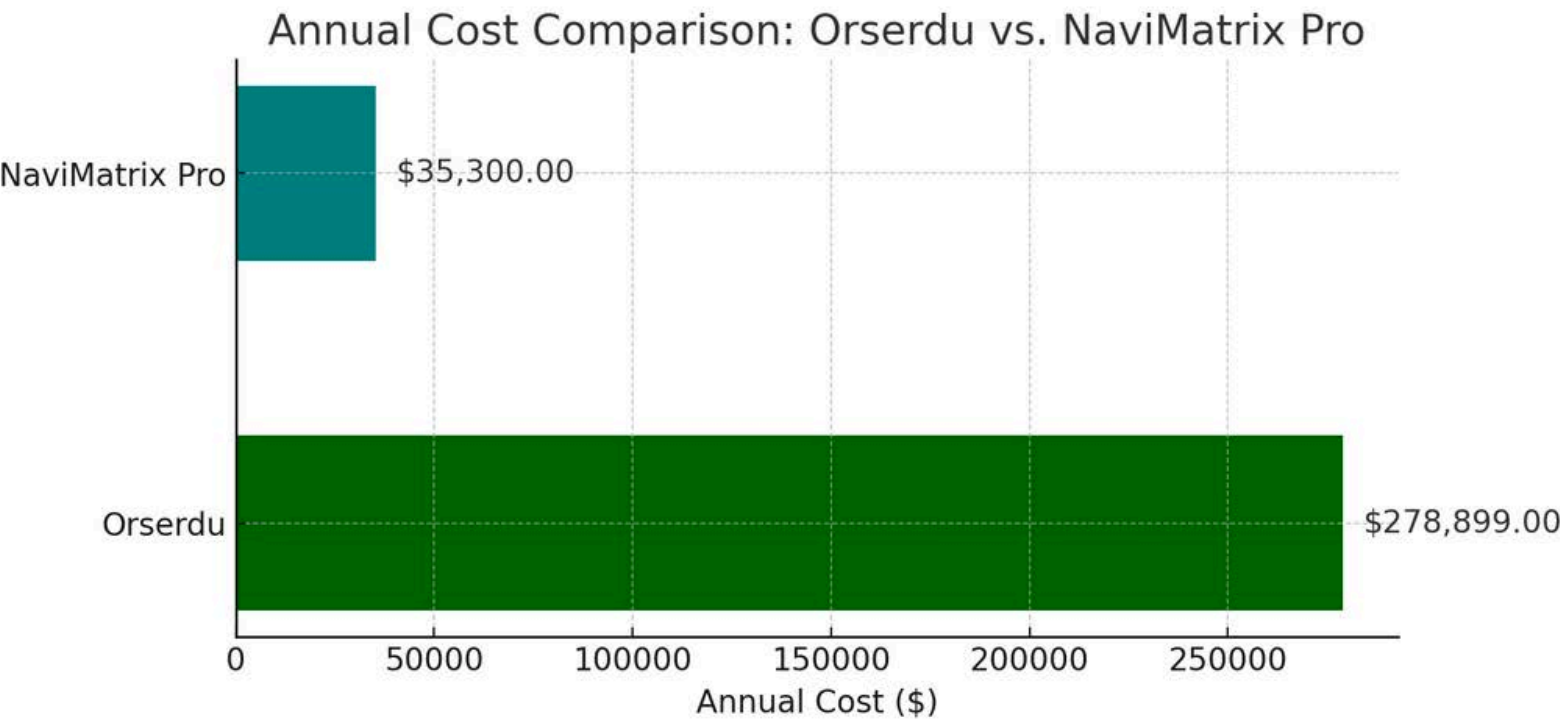

Orserdu – High-Cost Drug Intercept Example

Orserdu Financial Burden

30 Day Cost	\$23,241.00
Annual Cost	\$278,899.00
Additional Expenses	\$\$\$
-Lab Work	
-Physician Visits	
-Side Effect Management	

NaviMatrix Pro Approach

One-Time Diagnostic Tests	\$6,500.00
30 Day Med Cost	\$1,100.00 - \$2,400.00
-Hormones	
-Blockers	
-Supportive Agents	

An estimated 87% decrease in cost or \$243,599 a year savings. Significant savings achieved through personalized integrated medicine approach, while improving patient outcomes and quality of life.

Disclaimer:
The cost savings presented in this analysis are based on estimated projections and may not reflect the experience of all patients. Actual costs and treatment options can vary depending on individual circumstances, insurance coverage, and medical necessity. While we strive for accuracy, data fluctuations, pricing changes, and potential errors may occur. Additionally, prices and treatment availability are subject to change over time. Prior authorization may be required for certain services, and final costs may differ from initial estimates. Patients should consult with their healthcare provider to determine the most appropriate treatment plan for their specific medical needs. Not all conditions or patients may qualify for treatment through this approach.

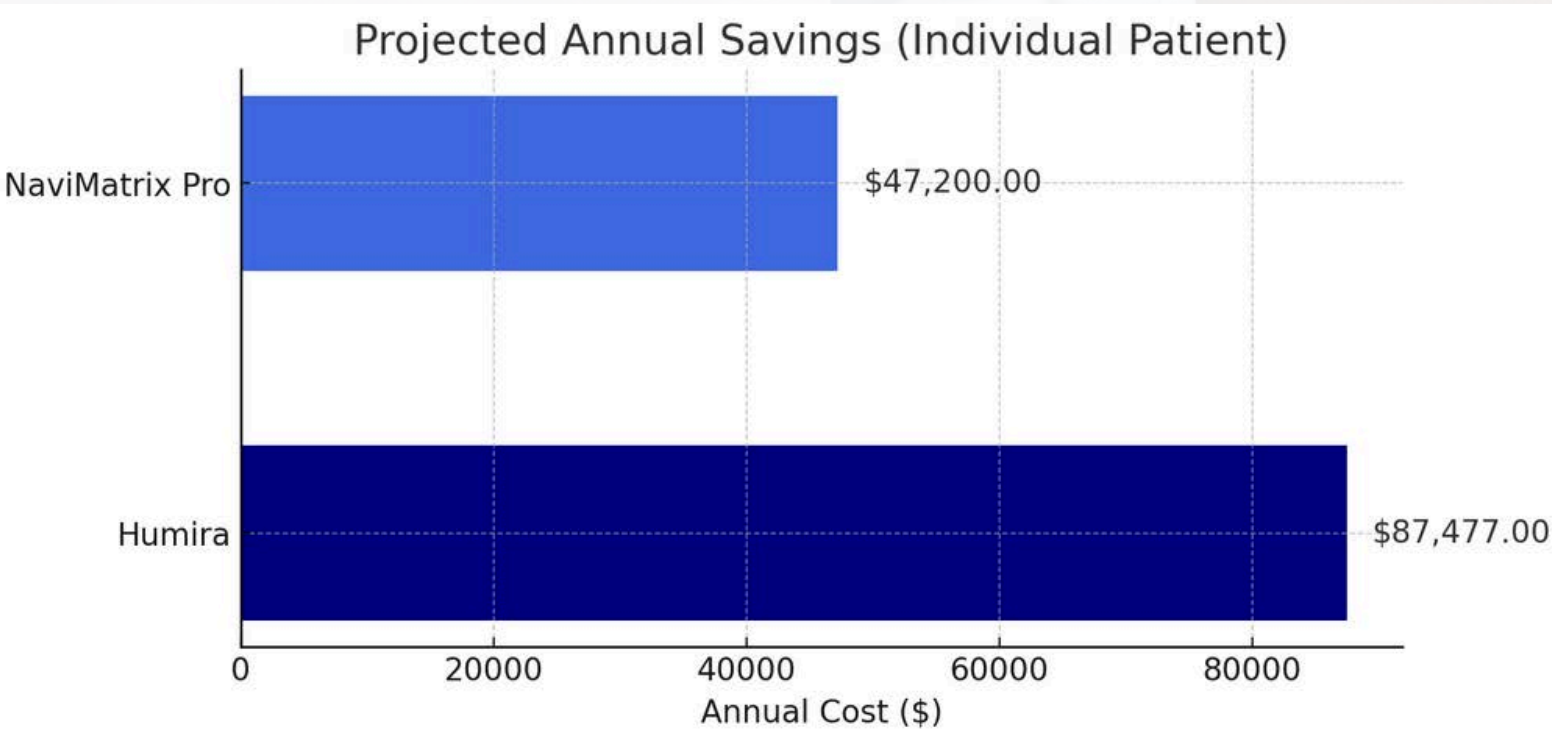

Humira – High-Cost Drug Intercept Example

➤ Humira Financial Burden

30 Day Cost	\$6,729.00
Annual Cost	\$87,477.00
Additional Expenses	\$\$\$
-Lab Work	
-Physician Visits	
-Side Effect Management	

➤ NaviMatrix Pro Approach

One-Time Diagnostic Tests	\$3,500.00 - \$4,000.00
30 Day Med Cost	\$1,300.00 - \$1,800.00
-Hormones	
-Anti-inflammatories	
-Peptides	
-Antibiotics	
-Targeted Therapies	

An estimated 46% decrease in cost, resulting in annual savings of \$40,277. This significant cost savings is achieved through a personalized integrated medicine approach, which also enhances patient outcomes and quality of life.
