PD All-in-One Odor Control and Degreaser

All-in-One low cost and environmentally green lift station conditioner

PD All-in-One Odor Control and Degreaser is the All-in-One Solution for clearing obtrusive odors and F.O.G. buildup in lift stations.

- **Removes Toxic Gases** by absorbing and then dispersing into the greater emulsion
- **Eliminates Odors** caused by sulfur based compounds
- **Disperses grease and loosens mats** expediting emulsification
- **Improves Line Flow** by emulsifying F.O.G. that can otherwise plate along sides of piping
- **Controls Corrosion** by removing damaging hydrogen sulfide from the water phase

**F.O.G. builds up in untreated lift stations
Causing noxious odors and costly backups**

100% Safe and Non-Toxic

Easy-to-Use

Only requires Water

PD All-in-One Odor Control and Degreaser cleanses and treats F.O.G. buildup for the overall health of the system

Recommended Dosage:

We recommend a weekly maintenance dose of 1-2 buckets per lift station.

(Initial treatment and problem lift stations may require a larger dose of 3-5 buckets)
