

TRIPLE PUNCH

LIFT STATION DEGREASER

WITH THE POWER OF CITRUS SCENT DEODORANT

Triple Punch Lift Station Degreaser was developed by demand of customers requiring a safe non-toxic biodegradable degreaser with a natural citrus scent deodorant.

Triple Punch Lift Station Degreaser is a revolutionary natural dispersant that breaks organic and hydrocarbons to a minute particle that indigenous organisms can remediate. Our revolutionary dispersant breaks particles and changes polarity that absolutely prohibits the solidification of fats, oils, and greases down stream.

Triple Punch Lift Station Degreaser cleans fats, oils and grease from wastewater lift stations, sewer lines, and facilities with a maximum strength of a non-toxic cleaner / dispersant. Triple Punch also contains orange scent that utilities rely on to decrease wastewater odors during warmer spring and summer months.

Triple Punch citrus additive does not use di-limeonene, which has become too costly for utilities to implement.

Directions for use :

For Lift Stations: Liberally saturate entire surface area of grease cap and let sit for 10 - 20 minutes. Spray to mix with hose or high pressure washer. After grease has been dispersed, you can re-apply thin spray on surface area. Repeat as necessary.

For expert dosing for continuous maintenance please call your distributor or corporate office.

Benefits of Triple Punch Lift Station Degreaser:

- Fast Acting
- Environmentally safe
- Non-Toxic
- Reduces Fats, Oils, and Grease
- Biodegradable
- Controls Odors
- Cost Effective

ASK YOUR REPRESENTATIVE FOR BEST DEGREASING METHODS

Places to use :

- Sewer Lines
- Lift Stations
- Drain lines
- Equipment
- Floors
