

# BOOK YOUR EVENT AT THE SCARBOROUGH JUNCTION COMMUNITY FARM!

The Scarborough Junction Community Farm, built by Republic Developments, is a green space for the families and neighbours to come and connect with the Land, their shared culture and each other, while promoting plant diversity and food security. The community farm also has a welcoming space with picnic benches, wood burning oven, and fairy lights to enjoy evenings. The farm was built by efforts of Feed Scarborough's staff and volunteers who run and maintain the green space. The produce from the farm goes to Feed Scarborough's four food bank and three healthy meal programs, which serves more than 3000 people on a weekly basis.

# OUR PRICING
