CRISTAL SINGLE GLAZED

The Vista Cristal single glazed system is a minimal framed system **Combining Style & Versatility** but with maximum glass, allowing light to flow through your workplace offering both **Elegance & Design**

Cristal Banding

Vista Cristal banded system offers the **Industrial & Contemporary** feel to your glazing

Keep with the traditional styles or be **Creative** to achieve a **Unique** design

Acoustics

Up to 40db (Rw)

Offering all our clients **Confidence & Reassurance** that their choice of systems not only meet the design criteria but also the performance best suited to their privacy needs

Product Summary

Overview

Vista Cristal single glazed partitioning is a sleek, minimal-framed demountable system designed for modern office environments.

With the flexibility to be up to 3300mm high and integrate a variety of door styles, it offers the perfect balance of style & practicality. Whether you're aiming for a clean, contemporary aesthetic or a more classic look, Vista Cristal delivers a tailored solution to enhance any workspace.

Framing

Our Cristal Single Glazed standard channel consists of a 1 part and 2 part channels, that is 30mm x 30mm. We also offer a deflection head that is 64mm deep (Deflection +/- 25mm).

Acoustic Performance

10mm Clear Toughened - Rw 33db

12mm Clear Toughened - Rw 34db

12.8mm Acoustic Laminated - Rw 38db

16.8mm Acoustic Laminated glass - Rw 40db

Doorframe Detail

The Cristal doorframe allows integration of:

- Mirage Acoustic Glass doors (single & double glazed)
- 44mm Timber doors
- Frameless Glass doors

All frames are prepared for hinges & strike plates as your project requires.

Supplied with fixing kits & batwing seals.

Glass Junctions

Dry joints - straight, 90 degree, 135 degree, 3 way joints for glass junctions

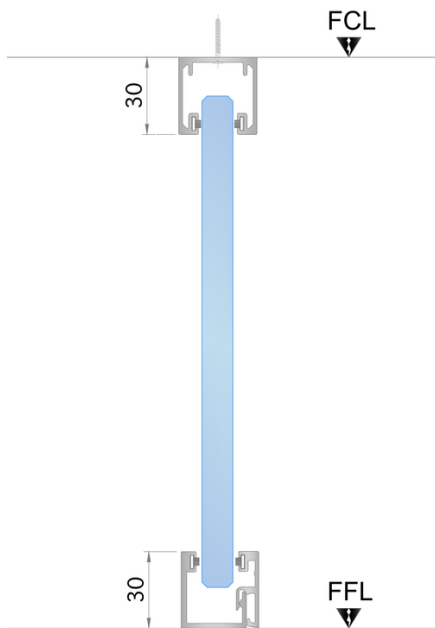

Option for silicone jointed if required

Aluminium Finish

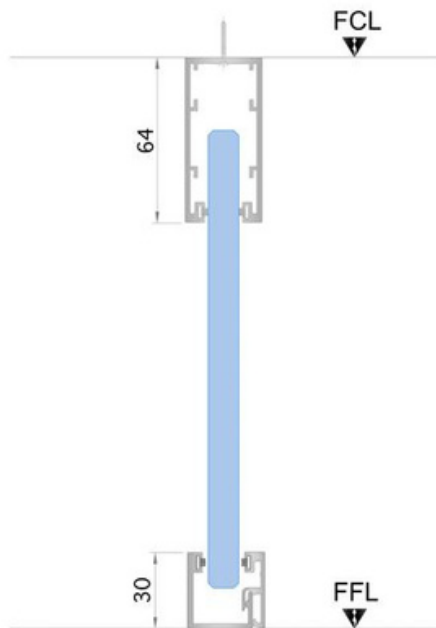

Whilst we stock the standard RAL 9005 (Black) & RAL 9010 (White) there are so many different finishes to choose from. Give your project a unique style & finish from many different RAL colours.

Contact us for a range of powder coated metallic finish options.

ASTERIA 100MM DOUBLE GLAZED

The Vista Asteria double glazed system offers **Enhanced** performance to our other partitioning ranges, yet does not distract from the **Uninterrupted** flow of light into your work place

Acoustics

Up to 50db (Rw)

Offering all our clients **Confidence & Reassurance** that their choice of systems not only meet the design criteria but also the performance best suited to their privacy needs

Product Summary

Overview

Vista Asteria double glazed partitioning is a premium 100mm demountable system designed for spaces where both style & performance matter.

Suitable for ceiling heights up to 3000mm high, it accommodates a range of door styles & features a wrap-around doorframe to integrate with 100mm drywall. With outstanding acoustic performance Asteria provides enhanced sound insulation, ideal for maintaining privacy during sensitive or high-level meetings.

Framing

Our Asteria Double Glazed standard channel consists of a 1 part and 3 part channels, that is 101mm x 28mm. We also offer two options for deflection head a 64mm deep (Deflection +/- 25mm) & a shadow gap deflection detail (Deflection +/- 15mm).

Acoustic Performance

12mm / 12mm Clear Toughened - Rw 43db

12mm Clear Toughened & 12.8mm Acoustic Laminated - Rw 48db

12.8mm / 12.8mm Acoustic Laminated glass - Rw 50db

Doorframe Detail

The Asteria doorframe allows integration of:

- Mirage Acoustic Glass doors (single & double glazed)
- 44mm Timber doors
- 54mm Rebated Timber doors
- Frameless Glass doors

All frames are prepared for hinges & strike plates as your project requires.

Supplied with fixing kits & batwing seals.

LITE SINGLE GLAZED DOORS

Product Summary

Overview

Our **Lite single glazed door** offers a refined upgrade to the traditional frameless glass door, featuring a slim 16mm aluminium boarder channel that allows for seamless application of banding.

Fully compatible with our partitioning systems, the door leaf integrates effortlessly into any space. With a range of ironmongery options & the ability to include a drop seal for improved acoustic performance, Lite provides a cost affective solution without compromising on style & functionality.

Available as a single leaf or as part of a double-door configuration, the Lite door can be manufactured up to a maximum height of 2950mm.

Framing

The toughened glass door has a slim 16mm profile frame fitted around all 4 sides of glass, which would allow you to apply aluminium bars directly to the glass doors for a banded style finish.

Glass Type

12mm Toughened Glass

Ironmongery

Standard Ironmongery Options

- 3no Patch Hinges
- Patch Lever & lock
- Cylinder & Thumbturn
- Door Stop

- 2no Biloba Hinges
- 600mm D Line Back to Back Pull Handle
- Door Stop

For added acoustics the Lite door can also come pre-fitted with an inline Drop Down Threshold Seal

Standard Black finish ironmongery
