GOLF BOOKING CONDITIONS

These conditions accompany the Film It Slow quotation/order confirmation. Where a written quotation expressly varies a term below, the quotation controls.

1. Booking and payment

A booking is confirmed when Film It Slow accepts the booking and receives the 25% booking retainer. The retainer reserves the agreed date and production capacity. The remaining production balance is due 7 calendar days before the event unless the quotation states otherwise.

2. Package capacity

Package pricing reserves capacity for up to the stated number of golfers. No-shows or a smaller final field do not automatically reduce the package price. The organizer should provide an accurate start sheet or participant list where golfer identification is required.

3. Event timing and access

The client is responsible for safe and timely access to the filming position, reasonable setup time, event schedule information and facility permissions. Delays caused by the event, course operations, late starts or access restrictions do not automatically extend the booked production window.

4. Capture format

For tournament and larger-group work, the capture format is selected in advance: cinematic capture up to 1,000 fps in 16:9, or social/open-gate capture up to 600 fps. Unless otherwise agreed, the First Tee Experience provides one recorded tee shot per golfer from Film It Slow's selected fixed position.

5. Weather and equipment safety

Film It Slow's specialist high-speed equipment cannot be operated in rain and may need to be shut down for lightning, severe wind, extreme temperature, smoke/poor air quality or other unsafe conditions. Film It Slow has final authority over safe operation. Temporary weather interruption does not by itself constitute cancellation.

6. Weather interruption and partial completion

If weather prevents or stops filming, the remedy takes account of the proportion of booked golfers successfully captured. As a working framework: no golfers captured - production fee may transfer to one mutually agreed rescheduled date; fewer than 25% - normally substantial credit or rescheduling; 25%-75% - completed work delivered plus proportionate credit or reduced-rate return visit; more than 75% - service normally treated as substantially completed and any return filming separately quoted.

7. Technical interruption or equipment failure

Film It Slow will use reasonable care to test and maintain its camera, media, computer, power and production systems. A temporary issue must be given a reasonable opportunity to be diagnosed and corrected and does not automatically create a refund right. If an unrecoverable failure prevents continuation, the remedy will reflect the proportion successfully completed.

8. Travel and third-party costs

Travel within Anthony Henday Drive is included unless stated otherwise. Outside Edmonton, mileage, accommodation, parking, flights, baggage, meals/per diem or other reasonable travel costs may apply. Mileage may be charged at \$0.75/km round trip or travel may be quoted as a fixed package. Costs already committed or incurred are non-refundable.

9. Client cancellation or postponement

If the client cancels or postpones after confirmation, the booking retainer remains non-refundable. Film It Slow may also recover non-refundable travel, accommodation, custom-product and third-party costs already incurred or committed. Any transfer to a new date is subject to availability.

10. Same-Day Takeaway

Same-Day Takeaway is available only where expressly booked and is limited to a maximum of 30 golfers. Delivery assumes the event runs reasonably to schedule and suitable workspace/power is available where required. If the same-day element cannot reasonably be completed for circumstances outside Film It Slow's control, affected deliverables may instead be supplied digitally as soon as reasonably practicable, with an appropriate adjustment to the undelivered same-day upgrade portion.

11. Delivery

Unless otherwise stated, finished digital deliverables are targeted within 48 hours after filming, assuming normal production conditions and timely receipt of required names, logos or information.

12. Copyright and client licence

Unless a written buyout is agreed, Film It Slow retains copyright and intellectual-property rights. The commissioning client receives a non-exclusive, perpetual licence to use supplied finished deliverables for its own website, social media, marketing, promotion, internal communications and event-related purposes.

13. Golfer and sponsor use

Golfers may use and share their supplied individual finished video for personal, non-commercial purposes, including personal social media. Commercial sponsor use, third-party advertising or broader commercial exploitation may require a separate licence.

14. Copyright buyout and raw files

A full copyright buyout is available only by separate written quotation. Unless expressly included, it applies only to specifically identified finished footage and does not include raw high-speed camera files, unused footage, project files, editing timelines, LUTs or working files.

15. Film It Slow promotional use

Unless confidentiality or restricted use is agreed in writing before filming, Film It Slow may use selected finished footage or excerpts for its portfolio, website, social media, showreels, demonstrations, trade shows and promotion.

16. Participant permissions

The client is responsible for informing participants that filming will take place and obtaining event, participant, parental/guardian or facility permissions reasonably required for the intended use of footage, unless the quotation expressly assigns that task to Film It Slow.

17. Data retention

Film It Slow does not guarantee indefinite archival storage. Clients should download and securely retain delivered files. Raw footage, project files and working media may be deleted after Film It Slow's normal retention period unless an archival arrangement is agreed in writing.

18. Limitation of liability

To the maximum extent permitted by applicable law, Film It Slow's liability arising from a booking will not exceed the amount actually paid for the affected production service, excluding pass-through travel, accommodation, custom-product and third-party costs. Nothing excludes liability that cannot legally be excluded.

19. Force majeure

Neither party is responsible for failure or delay caused by circumstances beyond reasonable control, including severe weather, wildfire, evacuation, government restriction, venue closure or major transportation disruption. The parties will work toward a practical rescheduling, credit or other solution.

20. Governing law

The booking agreement is governed by the laws of Alberta and applicable laws of Canada. Amendments or special conditions must be agreed in writing.

Commercial draft: Have an Alberta lawyer review the cancellation, liability, privacy/release and copyright provisions before adopting these conditions as your final contract.
