Sound / Tracks

Sound / Tracks

In Partnership with SAW Video Media Art Centre

Sound / Tracks is a project that has brought together 8 Indigenous Artists (4 Musicians and 4 Media Artists), and to provide them a space where they can work together in creative teams (1 Musician + 1 Media Artist) to create new collaborative works. Going beyond the confines of conventional music videos and short films, each of the four creative teams has created a "Sound/Track" for you to experience, that will attempt to expand the limits of what live music with video can be, and redefine the very idea of the film soundtrack.
