Nothing is True and Everything is Possible.

Director Rupert Wainwright  
Producers Lee Nelson, David Tish

**STEALING AMERICA** is our generation's **ALL THE PRESIDENT'S MEN** : it lays out Watergate 2.0, the Russian cyber warfare of the 2016 US Presidential Election.

Like **THE BIG SHORT**, the film weaves three stories : the Russian elite Cyber Warfare Brigades (The Dukes), the idealistic volunteers and managers of the Clinton campaign, and the murky puppeteers of the Trump campaign.

This film shows an unprecedented look into the world of the Cyber Warfare Brigades, and lays out the motives for the Russian invasion, taking us into the inner workings of the Kremlin, with extraordinary access and perspective.

Deadly, idealistic, terrifying and hilarious, **STEALING AMERICA** connects the dots and brings a fresh perspectives to the story on the world's lips.

"It was the biggest heist in history.

We stole the richest country in the world."

## "The Plot to Hack America"

"The Plot to Hack America" is the thrilling true story of how Putin's spy agency, run by the Russian billionaire class, used the promise of power and influence to cultivate Trump as well as his closest aides, the Kremlin Crew, to become unwitting assets of the Russian government. The goal? To put an end to 240 years of free and fair American democratic elections.

Published a month prior to the 2016 Presidential Election Day, this book exposed the Russian hacking before the CIA had written its own report and long before Robert Mueller confirmed for the world the extraordinary efforts made by Russia to help Donald Trump defeat Hillary Clinton.

New York Times bestselling author, intelligence officer, and MSNBC terrorism expert correspondent Malcolm Nance's fast paced real-life spy thriller spells out how Putin performed the ultimate political manipulation — convincing Donald Trump to abandon seventy years of American foreign policy, including the destruction of NATO, cheering the end of the European Union, allowing Russian domination of Eastern Europe, and destroying the existing global order with America at its lead.

# THE DUKES

The Dukes. Fancy Bear. Tsar Team. Advanced Persistent Threat 29. Electronic Warfare Brigade 7. Many names, many victims, but few know who they really are.

The greatest hackers ever assembled, they hacked the White House, they closed down US CentCom for a week, they hacked the Bundestag, turned the lights off in Ukraine and closed down Estonia for a day.

Their most recent victims: the DNC and the Clinton Campaign Chairman.

Elections, governments, infrastructure - no one is safe.

Including America.

MOSCOW

ADORE CREATIVE, a Los Angeles advertising agency, has a client with global influence, deep pockets, a wealth of resources and an image problem the size of Siberia.

That client is Russia, which many outsiders still associate with spies, the gulag, gangsters, breadlines and permafrost, not to mention retrograde politics.

These are some of the prickly issues that Rupert Wainwright, Adore's president and chief creative director, was hired to deal with when Russian officials approached him in 2007.

"The mission I set for myself was make it fun," Mr. Wainwright said recently at a Moscow cafe, a freezing wind whipping down the street outside.

"The big issue with Russia is, you have to normalize it," he said. If people see that sense of normalness, he said, "the country will de-demonize itself."

To many Westerners and human rights agencies, the demons still exist, in the form of official corruption, a puppet judicial system and repression of what little political opposition remains. Russia is the most corrupt major economy in the world, according to Transparency International, and Freedom House considers Russia "not free" politically.

MEDIA Selling the World on Russia (Leaving Out the Spies)

"The big issue with Russia is, you have to normalize it," said the president of Adore, Rupert Wainwright, top, opposite the Kremlin. James Hill for The New York Times

No project was more challenging for Mr. Wainwright than his first one, the film for Olympic campaign.

Mr. Wainwright presented an upbeat proposal titled "From Russia With Love" that was to end with a crowd of children in Red Square shouting the phrase in English. He said it was met with stone-faced silence by officials, who protested that the title from a James Bond film conveyed cold war espionage.

Instead they preferred a loosely cut video they had prepared on
