APPLICATION FORM

What is Independent Study?

RDU Independent Study or Directed Study Program allows students who are in an RDU Program, or an RDU Satellite Course, or just for Personal Growth to take a course and receive Credit units that are recorded on the Student History Record for further use. Some students are not ready to work on a Degree Program, so they start with Independent Courses. (On the other hand, Students working on a degree can choose to do some courses by Independent Study, but they must be officially enrolled as a full or part time student.) RDU will Set the guidelines for independent study for each student and the amount of credits that Can be accrued. Student will work with an advisor or instructor to guide their studies at the pace the student chooses. Independent studies provide a way for well-motivated students to pursue a topic of interest that does not necessarily fit into a traditional academic curriculum.^[4] Independent study is a way for students to learn specialized material or gain research experience. Independent studies requires for the student to be mature and provides students opportunities to explore their interests deeper and make important decisions for the future. Learning from a distance is a theory in which the student is at a physical or a mental distance from his or her teacher. The student and the teacher are connected by something such as a worksheet, an essay, or through a website on the internet. -This is an excellent way for students to fulfill their dream and vision right from home.
