IT SOLUTION TESTING
TESTING & VALIDATION.

Quality Deliverables

Testing is a critical activity in all IT Projects. It will decide the fate of your product or solution, quality; and customer satisfaction. This training will guide you on how to build rigor into your testing activities from strategy to planning to execution of testing. The program will equip you with the necessary tools and methods to succeed in this role Test/Solution/Functional/Technical Consultant. This program provides you with technology and management consulting tools to succeed. The program will provide a "LEARN TO" and "HOW TO" body of knowledge and experience.
