

IT PROJECT REQUIREMENT GATHERING

CAPTURE REQUIREMENTS. DOCUMENT REQUIREMENTS.

Business Analyst

Systematically capturing and documenting business & technical requirements in an IT Project is always the starting point. All subsequent phases of the project are built on this understanding of requirements. Business Analysts (or Functional Consultants) are responsible for requirement gathering. This program provides you with technology and management consulting tools to succeed in this role. The program will provide a “LEARN TO” and “HOW TO” body of knowledge and experience.
