VALUE - INNOVATION - PERFORMANCE - DURABILITY

A brief welcome to **HYUNDAI POWER PRODUCTS**.

The selection of HYUNDAI Power Products is extensive, ranging from domestic to professional and heavy duty industrial machines. The machinery is of the highest quality, with innovative features and HYUNDAI quality built in.

A full range of generators, featuring diesel generators for backup and prime power, open frame petrol and LPG generators for professional and commercial use petrol inverter for the leisure market, plus the new power stations for silent power on the move.

However the HYUNDAI range offers far more. From pressure washers and garden machinery, to air compressors, hand tools and construction equipment. We are always looking ahead to bring the very best machinery to the market.

Distributed by PTP EQUIPMENT SALES, the HYUNDAI Power Products range is in good hands, the popularity of HYUNDAI Power Products is growing rapidly. From our 120,000sq ft distribution centre, our company provides products backed by a globally recognisable brand, with sales and technical support second to none, so you can always be safe in the knowledge that your new HYUNDAI Power Product will give you years of reliable use.

Rated Excellent On  Trustpilot

All engine driven machines produce Carbon Monoxide, an odourless gas that can kill in minutes. Always operate outdoors and away from windows.

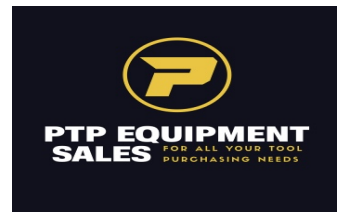

DUAL FUEL These machines will run on unleaded petrol or LPG gas.

LITHIUM POWER Powered by Lithium-ion battery.

4-STROKE GREEN TECH 4-stroke engine.

OIL FREE Maintenance free and no oil contamination.

PRO POWER Suitable for heavy duty use.

GENERATORS

PETROL, DIESEL AND DUAL FUEL

HYUNDAI

2000W 1600W 4500 5.0Hrs 86-EB/A

INVERTER GENERATORS

HY1000Si Inverter Generator

- 1000W max. power
- 50cc 4-stroke OHV engine
- 230V socket & 12V 5 Amp output

HY2000Si Inverter Generator

- 2000W max. power
- 80cc 4-stroke OHV engine
- 2 x 230V sockets & 12V 5 Amp output

HY2000Si-115 Inverter Generator

- 2000W max. power
- 80cc 4-stroke OHV engine
- 115V socket & 12V 5 Amp output

EASY ELECTRIC START

HY3200SEi Inverter Generator

- 3200W max. power
- 210cc 4-stroke OHV engine
- 2 x 230V sockets & 12V 5 Amp output

EASY ELECTRIC START

HY3500Ei Inverter Generator

- 3200W max. power
- 212cc 4-stroke OHV engine
- Electric or recoil start

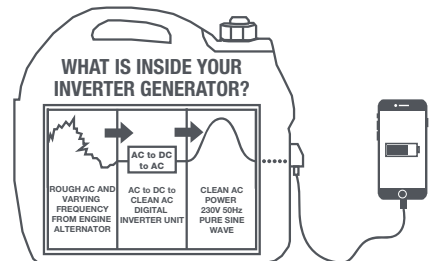

EASY ELECTRIC START

HY4500SEi Inverter Generator

- 4300W max. power
- 223cc 4-stroke OHV engine
- Electric or recoil start

What Is An Inverter Generator?

Computers and sensitive electronic equipment require pure sine wave 'clean power'. Clean power is electrical current that is consistent and has a stable signal, or sine wave. Our digital inverter system regulates the raw power from the engine alternator into pure electricity to safely power your electronic devices and appliances.

RV INVERTER GENERATORS

EASY ELECTRIC START

HY3500Rvi Inverter Generator

- 3500W max. power
- IC225 4-stroke OHV engine
- Complete kit ready to install

EASY ELECTRIC START

HY3500Rvi-LPG Inverter Generator

- 3500W max. power
- IC225 4-stroke OHV engine
- Complete kit ready to install
- LPG powered

EASY ELECTRIC START

HY8000Rvi Inverter Generator

- 7500W max. power
- IC420 4-stroke OHV engine
- Complete kit ready to install

EASY ELECTRIC START

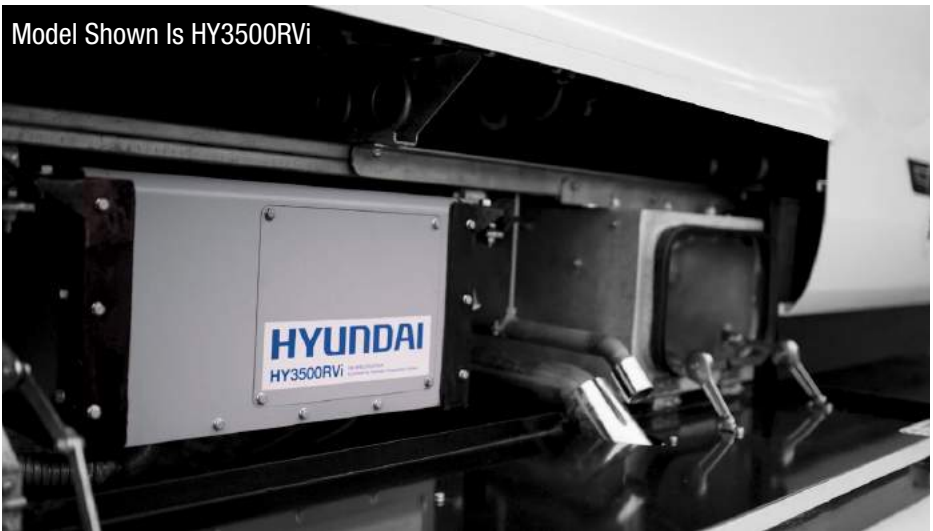

DHY14000Rvi Inverter Generator

- 14kW max. power
- Yanmar 3TNV76 engine
- Up to 380V portable power

new

Model Shown Is HY3500Rvi

Designed to be mounted underneath vehicles for portable power wherever you go.

RV INVERTER GENERATORS

Advantages Of Installed Generators:

- Power with a simple push of a button from the inside of your vehicle.
- No heavy lifting of portable generators.
- No small fuel tanks.
- No bad weather affecting the operation of the generator.
- No looking for extension cords.
- No pulling a recoil cord.

Features Include:

- **Low noise** - Double silenced exhaust system.
- **Low vibration** - Triple anti-vibration mounting system.
- **Smart economy throttle** - To reduce engine speed under light loading.
- **Clean power** - Delivers a full overload protection pure sine wave clean power output.
- **Increased cooling** - Draws in cool air from around the sides of the canopy through a Tri-fan system to increase cooling and reduce noise. The hot air and exhaust fumes are directed downwards and expelled underneath the vehicle.
- **Easy controls** - The control panel can start and stop the generator plus monitor fuel level, oil level, frequency, AC voltage, power usage, battery voltage and hours run. It can be mounted inside your vehicle.
- **Large fuel tank** - 24L for long running.

Vehicles:

Our range of RV generators are designed to be mounted underneath vehicles. They can be mounted to the chassis or mounted within a locker on slide out mounts. The vehicles include:

- Motorhomes
- Sports vehicles
- Welfare vehicles
- RVs
- Horseboxes
- Race Trucks
- Travel trailers
- Service vans
- Catering vans
- And more

PETROL GENERATORS

HY3000CI Converter Generator

- 210cc, 7hp 4-stroke engine
- 3kW max. power
- 13A and 16A sockets
- Weighs only 30kg

PRO POWER

HY2800L-2 Petrol Generator

- 196cc, 6.5hp 4-stroke engine
- 2.2kW max. power
- 2 x 230V 13A sockets

PRO POWER

HY3800L-2 Petrol Generator

- 210cc, 7hp 4-stroke engine
- 3.2kW max. power
- 230V 16A and 115V 16A sockets

PRO POWER

EASY ELECTRIC START

HY3800LEK-2 E-Start Petrol Generator

- 210cc, 7hp 4-stroke engine
- 3.2kW max. power
- 230V 16A and 115V 16A sockets

PRO POWER

EASY ELECTRIC START

HY7000LEK-2 Petrol Generator

- 389cc, 13hp 4-stroke engine
- 5.5kW max. power
- 2 x 115V and 1 x 230V sockets

PRO POWER

EASY ELECTRIC START

HY9000LEK-2 Petrol Generator

- 420cc, 14hp 4-stroke engine
- 7kW max. power
- 2 x 115V and 1 x 230V sockets

PRO POWER

EASY ELECTRIC START

HY10000LEK-2 Petrol Generator

- 459cc, 16hp 4-stroke engine
- 8kW max. power
- 2 x 115V and 1 x 230V sockets

PRO POWER

HY3400 HirePro Petrol Generator

- 212cc, 7hp 4-stroke engine
- 2.7kW max. power
- 115V and 230V sockets
- Ideal for generator hire or rental market

DUAL FUEL GENERATORS

PRO POWER

 EASY ELECTRIC START

HY3800LE-LPG Generator

- 223cc 4-stroke engine
- 3500W max. power
- Ideal for catering vans

PRO POWER

 EASY ELECTRIC START

HY10000LE-LPG Generator

- 458cc 4-stroke engine
- 7000W max. power
- Ideal for catering vans

What Is A LPG Generator?

LPG dual-fuel generators run on standard unleaded petrol or can run on your existing LPG supply. Ideal for catering vans.

- Fuel cost savings of up to 50%
- No messy refuelling required (in LPG mode)
- Improved combustion, as LPG reaches the engine in gas form, rather than liquid
- Enhanced starting, even from cold, with a smoother ignition
- The engine oil does not become diluted which results in lower servicing costs, however regular servicing is still recommended
- Low cost, especially for users who already store LPG
- No need to have to store or bring a supply of petrol with you if you already have a supply of LPG

**PTP EQUIPMENT
SALES** FOR ALL YOUR TOOL
PURCHASING NEEDS

3000RPM DIESEL GENERATORS

EASY ELECTRIC START

DHY6000SE Diesel Generator

- 5.2kW max. power
- 2 x 115V and 1 x 230V sockets
- 16L fuel tank for 16 hour run time @ 50% load

EASY ELECTRIC START

DHY8000SELR Diesel Generator

- 6kW max. power
- 2 x 115V and 1 x 230V sockets
- 30L fuel tank for 30 hour run time @ 50% load

EASY ELECTRIC START

DHY8000SELR-T Diesel Generator

- 6kW max. power
- 230V & 400V output
- 30L fuel tank for 30 hour run time @ 50% load

EASY ELECTRIC START

DHY12500SE Diesel Generator

- 11kW max. power
- 230V 32A and 230V 63A sockets
- 60L fuel tank for 18 hours run time @ 25% load

3000rpm or 1500rpm Generator?

- 3000rpm generators are designed for standby use.
- 1500rpm generators are designed for large standby use and continuous stationary use.

POWER CUTS...

WHAT'S YOUR BACK UP PLAN?

1500RPM SINGLE PHASE

PRO POWER
DHY9KSEm
Diesel Generator

- 8.8kW 230V
- 11kVA of reliable power
- HY380 diesel engine

Diesel Generator

- 68kW 400V
- 85kVA of reliable power
- HY4A100Z-D20 diesel engine
- ComAp IntelliLite MRS10 control module

1500RPM 3-PHASE

PRO POWER
DHY125KSE
Diesel Generator

- 99kW 400V
- 125kVA of reliable power
- HY6B155L-D21 diesel engine

GENERATOR ACCESSORIES

Automatic Transfer Switch (ATS)

An ATS is installed by an electrician between your electricity meter and the consumer unit. In the event of a power cut, the ATS will start the generator and connect it to the building. When the mains power resumes, the ATS will reconnect the building to the mains and switch off the generator. It also has a battery charger to ensure the generator is always fully charged and ready to go.

Manual Changeover Switch (MCS)

With a mains manual changeover switch, in the event of a power cut, just start up the generator and flick the changeover switch to connect the building electrics to the generator. When the mains power resumes, switch the changeover switch back to mains supply and turn the generator off.

Generator Trailers

We offer a road tow trailer suitable for DHY9KSEm, DHY11KSEm, DHY11KSE and DHY14KSE. The trailer includes a light board.

Other Accessories

We also offer battery chargers, exhaust extensions, water heaters, 3-way valves, and more. We can supply remote monitoring and control for 1500rpm generators.

HY50
Petrol Water Pump

- 500L/minute flow rate through the 50mm inlet and outlet
- 196cc 4-stroke petrol engine
- Pumps particles up to 5mm in diameter

PRO POWER

HYC50 Petrol Chemical/Seawater Pump

- 500L/minute flow rate through the 50mm inlet and outlet
- 196cc 4-stroke engine
- Designed for corrosive liquids, chemicals or sea water

PRO POWER

HY80
Petrol Water Pump

- 750L/minute flow rate through the 80mm inlet and outlet
- 212cc 4-stroke petrol engine
- Pumps particles up to 9mm in diameter

PRO POWER

HYT80 Petrol Trash Water Pump

- 917L/minute flow rate through the 80mm inlet and outlet
- 212cc 4-stroke petrol engine
- Pumps particles up to 35mm in diameter

PRO POWER

HY100 Petrol Water Pump

- 1250L/minute flow rate through the 100mm inlet and outlet
- 389cc 4-stroke petrol engine
- Pumps particles up to 9mm in diameter

DIESEL WATER PUMPS

PRO POWER

EASY ELECTRIC START

DHY50E Diesel Water Pump

- 600L/minute flow rate
- 211cc 4-stroke diesel engine
- Pumps solids up to 9mm in diameter

PRO POWER

EASY ELECTRIC START

DHY80E Diesel Water Pump

- 1000L/minute flow rate
- 296cc 4-stroke diesel engine
- Can be powered by red diesel

PRO POWER

EASY ELECTRIC START

DHYT80E Diesel Trash Water Pump

- 1000L/minute flow rate
- 296cc 4-stroke diesel engine
- Pumps debris up to 35mm in diameter

PRO POWER

EASY ELECTRIC START

DHYC50LE Diesel Chemical/Seawater Pump

- 600L/minute flow rate
- 221cc 4-stroke diesel engine
- Can be powered by red diesel

SUBMERSIBLE PUMPS

HYSP400CD Electric Submersible Pump

- 11000L/hour flow rate
- Suitable for clean, dirty & low depth water
- Handles solids up to 30mm

HYSP850D Electric Submersible Pump

- 17500L/hour flow rate
- Tough, durable & corrosion proof
- Handles solids up to 35mm

Our submersible water pumps are covered by the HYUNDAI 3 year platinum warranty.

What Are Submersible Pumps Suitable For?

Submersible pumps are suitable for pumping clean and dirty water and can be used for:

- Draining pools and hot tubs
- Irrigating gardens
- Cleaning ponds
- Clearing flooded areas
- Muddy water from wells, tanks, cellars or basins
- Draining pits, sumps and ditches
- To stop building foundations from becoming submerged
- Suitable for water up to a temperature of 35°C

It is recommended that an RCD is always used with a submersible water pump and whenever any electrical products are used near water.

All petrol lawnmowers are covered by the HYUNDAI 3 year platinum warranty.

PETROL LAWMOWERS

Self Propelled Lawnmowers

All of our petrol lawnmowers, apart from the HYM400P, are self propelled. This means that they propel themselves forward to reduce fatigue. All you have to do is control the path the lawnmower takes. It makes effortless work of mowing.

Smart Cut Feature

Our self propelled lawnmowers will adjust their torque automatically for various grass conditions. This ensures efficient cutting in long or wet grass with a constant cutting speed.

Mulching Function

Mulching is the intelligent way to keep your lawn healthy. The grass clippings are cut into fine pieces which then fall back into the soil. These fine pieces are rich in nutrients and act as a natural fertiliser. This will keep your lawn healthy.

ROBOT LAWNMOWER

new

HYRM1000 Robot Lawnmower

- WIFI feature - You are able to connect and interact with your mower from your smartphone via the app
- Rain and bump sensors
- Automatic charging system
- PIN code for security
- Guided by boundary wires around your garden
- Mulching function
- Maximum safety
- Compact design

Why Choose A Robot Lawnmower?

- **Healthy lawn** - Mulching is essential for putting nutrients and moisture back into your lawn. These help your lawn grow greener and healthier.
- **Saves time** - Less time mowing and more time enjoying your garden.
- **Perfect length** - The lawnmower will ensure your lawn is always kept at the perfect length.
- **Low running costs** - With the latest battery technology, the HYRM1000 uses very little energy.
- **Low noise** - Can be used without disturbing you or your neighbours.
- **No grass to collect** - Shreds grass finely back into the lawn.

Model	HYRM1000
Battery	Li-ion battery 21.6V / 2600mAH
Boundary Wire Length	100m
Cutting Width	100mm
Cutting Height	2.5 - 5.5cm
Blades	Four pivoted blades
Working Capacity	500m ² +/- 20%

SCARIFIER / AERATOR

HYSC210 Lawn Scarifier & Aerator

- 210cc 4-stroke OHV engine
- 400mm cutting width
- Variable height adjuster

Covered by the HYUNDAI 3 year platinum warranty.

What Is Scarification?

Scarification is the removal of moss, lawn clippings and dead grass blades from stem of the grass to maintain a healthy growing environment. It is intensive airing of the lawn surface. Perfect for revitalising and reviving the most tired and spongiest of lawns.

Why Is Scarification Important?

- It is important to do this because the lawn gradually gets covered which results in a reduced amount of oxygen getting to the grass.
- The lawn will be able to absorb water better and it prevents water-logging.
- Ventilation is important so that the lawn can absorb nutrients and it needs air to be able to breathe.

Is My Lawn Suitable For Scarification?

Scarification is ideal for home use and also for sport grounds including golf courses, tees, bowling greens, fairways, croquet lawns and cricket pitches.

- 160 amps max. welding power
- 230V 13 amp input
- Thermal overload protection

HYMMA-200P MMA/ ARC Inverter Welder

- 200 amps max. welding power
- 230V 13 amp input
- Thermal overload protection

HYTIG-200 TIG/MMA/ ARC Inverter Welder

- Advanced inverter technology
- Latest MOSFET technology
- Variable DC output

HYMIG-200 MIG/MMA Welder

- 200 amps max. welding power
- Latest IGBT technology
- Thermal overload protection

HYMMA-201 MMA/ ARC Inverter Welder

- Latest IGBT technology
- Integral single PCB structure
- Thermal overload protection and anti-stick protection

HYMIG-200I MIG Welder

- Latest IGBT technology
- Easy to operate
- Can weld carbon steel and alloy steel

HYCUT40I Plasma Cutter

- Latest IGBT technology
- Cuts up to 12mm (0.5") steel
- Simple operation and smooth cutting surface

WELDING HELMET

HYWH-850RM Welding Helmet new

- Portable, light and balanced welding helmet with adjustable headband that wears comfortable and relieves fatigue. With full head protection that covers ears, neck and both sides of the head.
- Suitable for MAG, TIG, MIG (HEAVY), MIG (LIGHT) PAC & PAW welding.
- Features a high performance solar cell technology with rechargeable Lithium-ion energy pack.
- Delivers filtered, breathable air up to 8 hours without interruption.

Select the right process for the metals to be welded or cut:

Metal	STICK/MMA/ARC (SMAW)	MIG (GMAW)	DC-TIG (GTAW)	FCAW (Flux cored)	PLASMA (PAC)
Steel	●	●	●	●	●
Stainless steel	●	●	●	●	●
Aluminium		●			●
Cast iron	●				●
Copper brass		●	●		●
Titanium			●		●
Magnesium alloys					●
Process skill level	Middle	Low	High	Low	Low

Welding / Cutting Process	Features
SMAW (MMA/ARC)	- Well suited for windy, outdoor conditions - Works on dirty or rusty metal
GMAW (MIG)	- High welding speed available - Provides better control on thinner metals - Easy process to learn
GTAW	- Provides the highest quality and the most precise welds - Highly aesthetic weld beads
FCAW	- Works as well as MMA on dirty or rusty material - Out-of-position welding - Deep penetration for welding thick sections
PAC	- Use with any electrically conductive metals - Small and precise cut

COMPACTOR PLATES

PRO POWER HYCP5030 Compactor Wacker Plate

- 79cc 4-stroke petrol engine
- 495 x 320mm wacker plate
- Compaction depth of 200mm

PRO POWER HYCP6570 Compactor Wacker Plate

- 163cc 4-stroke petrol engine
- 530 x 370mm wacker plate
- Compaction depth of 250mm

PRO POWER HYCP9070 Compactor Wacker Plate

- 196cc 4-stroke petrol engine
- 540 x 420mm wacker plate
- Compaction depth of 300mm

All compactor plates are covered by the HYUNDAI 3 year platinum warranty.

What Are Compactor Plates Used For?

Compactor plates are used for constructing driveways, patios, decking, pavements, conservatories and more. They work by vibrating a flat metal plate against the ground. This plate helps to compress and smoothen out the rough surface.

Included

Wheel kit - For increased manoeuvrability.

Paving mat - Designed not to mark or damage surfaces, for use on paving stones and delicate block paving.

- 330mm cutting width
- 180° rotating head - to be used as a lawn edger

LITHIUM POWER 60V LiBAT25 60V Lithium-ion Battery

- 2.5AH battery
- 60V Lithium-Ion
- One battery fits all of our 60V & 120V range

HYCH602 60V Lithium-ion Charger

- 2A battery charger
- Lightweight and compact
- Charges the 60V battery for all of the range

HYCH604 60V Lithium-ion Charger

- 4A battery charger
- Lightweight and compact
- Charges the 60V battery for all of the range

Benefits Of Cordless Garden Machinery:

- Low noise level - Use without disruption to others
- Emission free - No fumes or pollution
- Lightweight - Comfortable to use and carry
- User friendly - Easy to use, low maintenance
- Portable - No cables, no restrictions
- Convenient - No 2 stroke pre-mix
- One battery powers the full range - Saving you money
- Battery life - Designed for 1000+ charges
- Safety - No flammable petrol and no mains cables

No Cables

No cables to run over or cut through.

No Petrol

No messy petrol to buy or store.

No Pollution

Environmentally friendly with no fumes.

CORDLESS GARDEN MACHINERY

One Battery, Unlimited Fuel

Once you own the battery, you no longer have to pay for additional petrol or diesel, you can simply charge the battery from your homes electricity.

P1000i Petrol Inverter Generator

- 1000W max. output
- 230V, 12V DC & USB outlets
- 54cc 4-stroke OHV engine

DUAL FUEL

P2000iLPG Dual Fuel Inverter Generator

- 1800W max. output
- 230V, 12V DC & USB outlets
- Dual fuel- runs on LPG as well as petrol

P2500i Petrol Inverter Generator

- 2200W max. output
- 230V, 12V DC & USB outlets
- 'ECO' mode to extend engine life span

P4000i Petrol Inverter Generator

- 4000W max. output
- 230V, 12V DC & USB outlets
- 'ECO' mode to extend engine life span

DUAL FUEL

P4000iLPG Dual Fuel Inverter Generator

- 4000W max. output
- 230V, 12V DC & USB outlets
- Dual fuel - runs on LPG as well as petrol

EASY ELECTRIC START

P10000LE Petrol E-Start Generator

- 7.9kW max. output
- 230V 32A, 115V 32A & 16A sockets
- Long run petrol tank

EASY ELECTRIC START

P10000LELPG Dual Fuel E-Start Generator

- 7.9kW max. output
- 230V 32A, 115V 32A & 16A sockets
- Dual fuel - runs on LPG as well as petrol

EASY ELECTRIC START

P8000Ei Inverter Generator

- 7500W max. output
- 115V / 230V pure sine wave
- Large LCD display

LAWNMOWERS

P4100P Petrol Lawnmower

- 79cc 4-stroke OHV engine
- 410mm cutting width
- 7 cutting heights, from 25mm- 75mm

P4600SP Petrol Lawnmower

- 139cc 4-stroke OHV engine
- 460mm cutting width
- 6 cutting heights, from 25mm-85mm

 **EASY ELECTRIC START**

P4600SPE E-Start Petrol Lawnmower

- 139cc 4-stroke OHV engine
- 460mm cutting width
- 6 cutting heights, from 25mm- 85mm

P5100SP Petrol Lawnmower

- 196cc 4-stroke OHV engine
- 508mm cutting width
- Rear discharge, side discharge, collect and mulching options

 **EASY ELECTRIC START**

P5100SPE E-Start Petrol Lawnmower

- 196cc 4-stroke OHV engine
- 508mm cutting width
- Rear discharge, side discharge, collect and mulching options

PRESSURE WASHERS

P3000PWA Petrol Pressure Washer

- Himore axial pump
- 2800psi / 207 bar
- 196cc / 6.5hp petrol engine

P3200PWT Petrol Pressure Washer

- Annovi Reverberi Triplex Pump
- 3200psi / 220 bar
- 212cc / 7hp commercial grade engine

P4200PWT Petrol Pressure Washer

- Annovi Reverberi Triplex Pump
- 4200psi / 290 bar
- 420cc / 14hp petrol engine

PSI

PSI stands for 'pounds per square inch'. This indicates the cleaning power of the machine. The higher the PSI, the better the cleaning power.

BAR

This is another way of measuring the pressure. In 1 bar, there is 14.5 PSI.

WHIRLAWAYS

16" Composite Whirlaway

- 16" diameter head
- 4000 PSI max. pressure
- Nylon brush skirt
- Part No. 85.403.003

18" Composite Whirlaway

- 18" polypropylene cover
- 4000 PSI max. pressure
- Castor wheels
- Part No. 85.403.005

20" Flat Hover Whirlaway

- 20" diameter head
- 4000 PSI max. pressure
- Nylon brush skirt
- Part No. 85.403.007

20" Flat Hover Whirlaway

- 20" diameter head
- 4000 PSI max. pressure
- Nylon brush skirt and 4 castors
- Part No. 85.403.009

24" Steel Whirlaway

- 24" diameter head
- 4000 PSI max. pressure
- Nylon brush skirt and 4 castors
- Part No. 85.403.010

What Are Whirlaways Used For?

Whirlaways make it quick and easy for the operator to clean walkways, patios, decks, driveways, sidewalks and other medium to large surface areas. They deliver industrial standard results.

GENERAL GARDEN MACHINERY

P5200EA Petrol Earth Auger/Borer/Drill

- 52cc 2-stroke petrol engine
- Supplied with 3 drill attachments
- Easy-start technology

P5200BC Petrol Brushcutter

- 52cc 2-stroke petrol engine
- 250-450mm cutting width
- With 3 tooth metal blade and easy-feed 2 string cutting head

P6220C Petrol Chainsaw

- 62cc 2-stroke petrol engine
- 20" bar and 2 chains
- Anti-kick-back safety brake

PTP EQUIPMENT SALES
FOR ALL YOUR TOOL PURCHASING NEEDS

P5200MT Multi-Tool 5-In-1

- The ultimate, all in one gardening tool.
- Easy starting, reliable air cooled 52cc 2-stroke petrol HYUNDAI engine.
- Combines hedge trimmer, grass trimmer, chainsaw, brushcutter and long reach extension pole.
- Heavy duty, designed to cover large areas with ease.
- Convenient and affordable - save money over buying individual gardening tools.
- Save storage space and receive the same impressive power as several equivalent dedicated machines.

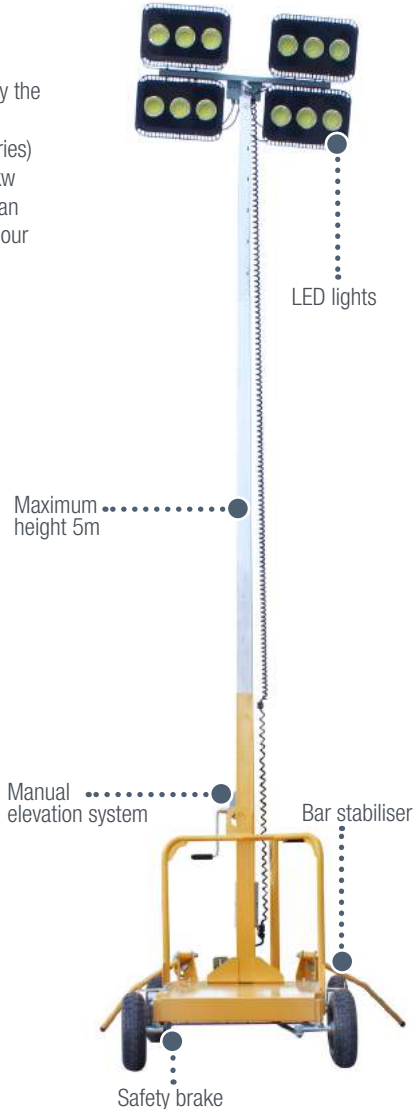

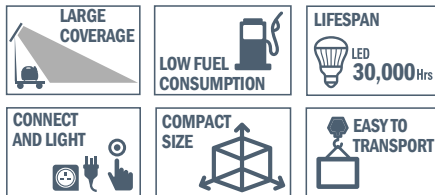

LIGHTING TOWERS

LT600-LED-I Mobile Lighting Tower

- Low fuel consumption, 0.5 litres an hour (when powered by the HYUNDAI HY1000Si not included).
- Each lighting tower can be daisy chained (connected in series) to allow up to 8 lighting towers to be powered from one 6kw generator, making for ultra low fuel consumption of less than ¼ litre per hour for each tower (assumes upto 2 litres an hour for the generator).
- Multi-directional adjustable and tiltable LED floodlights.
- 4 x 150W LED Lights 110-230v (please specify sockets required when ordering).
- High 12,500 lumen output light coverage from each lamp.
- Quick and easily erected by a single operator.
- 5 metre mast on steerable trolley with twin stabilizers.
- 30,000hrs lamp durability.

Model	LT600-LED-I
Max. Height	5M
Light Coverage	2500m ² (average 20 luxes)
Lamps	LED 110v to 230v
LED Lamp Wattage	4 x 150W
LED Lifespan	30,000hrs
Mast	Vertical Telescopic Manual Raise/Lower

LIGHTING TOWERS

LT600-LED-D Mobile Lighting Tower With DHY6000SE Diesel Generator

- Low fuel consumption, less than 1 litre an hour (when powered by the included 5.2kW DHY6000SE Diesel Generator). Can run on red or white diesel.
- Additional 6 bare lighting towers can be daisy chained and run from one generator.
- Multi-directional adjustable and tiltable LED floodlights.
- 4 x 150W LED Lights 110-230v (please specify sockets required when ordering).
- High 12,500 lumen output light coverage from each lamp.
- Quick and easily erected by a single operator.
- 5 metre mast on steerable trolley with twin stabilizers.
- 30,000hrs lamp durability.

Model	LT600-LED-D
Max. Height	5M
Light Coverage	2500m ² (average 20 luxes)
Lamps	LED 110v to 230v
LED Lamp Wattage	4 x 150W
LED Lifespan	30,000hrs
Mast	Vertical Telescopic Manual Raise/Lower
