Bright Stars Curriculum

Inspiring Young Minds Through Learning, Exploration, and Discovery

"A curriculum that has structure but is not restricted by that structure. A curriculum that evolves without losing its educational purpose."

Bright Stars Curriculum (BSC) is a flexible, theme-based early childhood curriculum designed to support educators and child care providers in creating meaningful, engaging, and developmentally appropriate learning experiences for young children. Through creative arts, fine motor activities, cognitive learning experiences, early literacy and numeracy, and supplementary instructional videos, BSC provides opportunities for children to explore, discover, express themselves, and develop foundational skills. Its themes serve as guides rather than prescribed lessons, allowing educators to select and adapt activities that reflect children's individual interests, abilities, developmental readiness, languages, cultures, and family experiences. Recognizing the uniqueness of every child and the professional expertise of every educator, Bright Stars Curriculum embraces an inclusive approach to early learning that values creativity, diversity, and continuous growth.

Name _____

Connect the dots and trace the number 7:

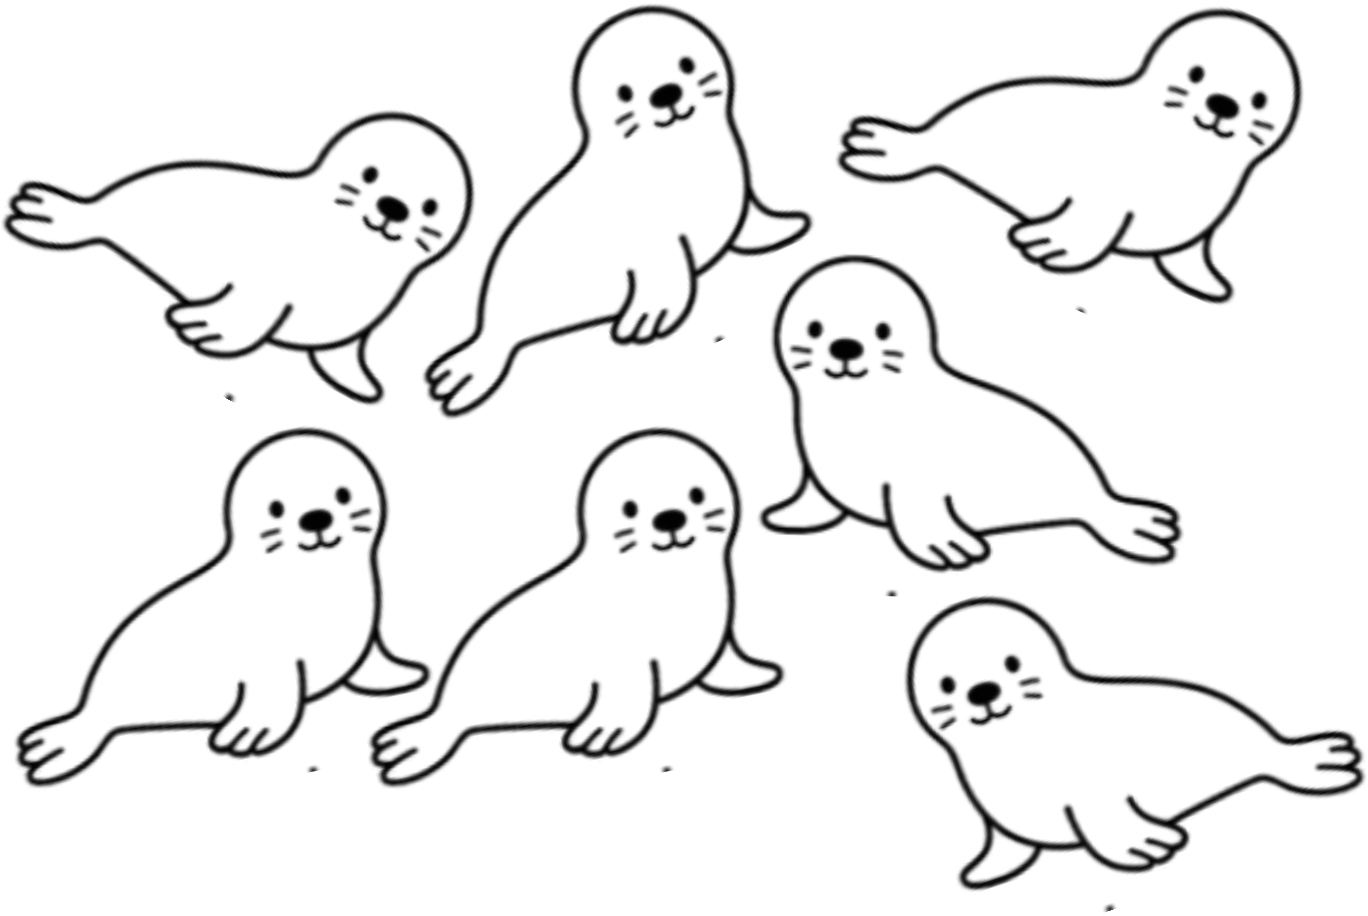

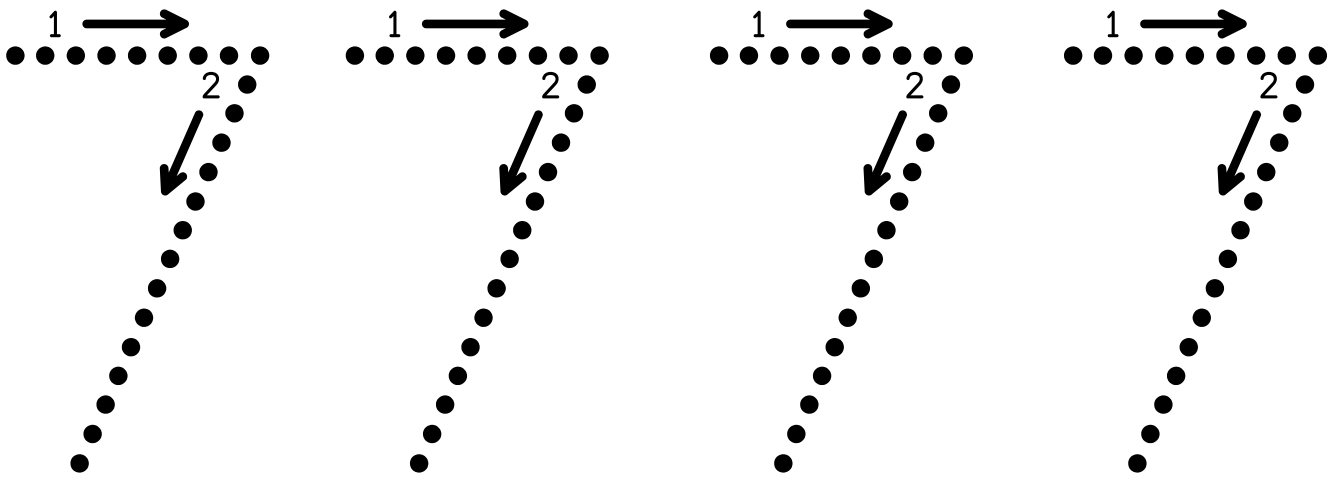

Across the sky and down from heaven.

Name _____

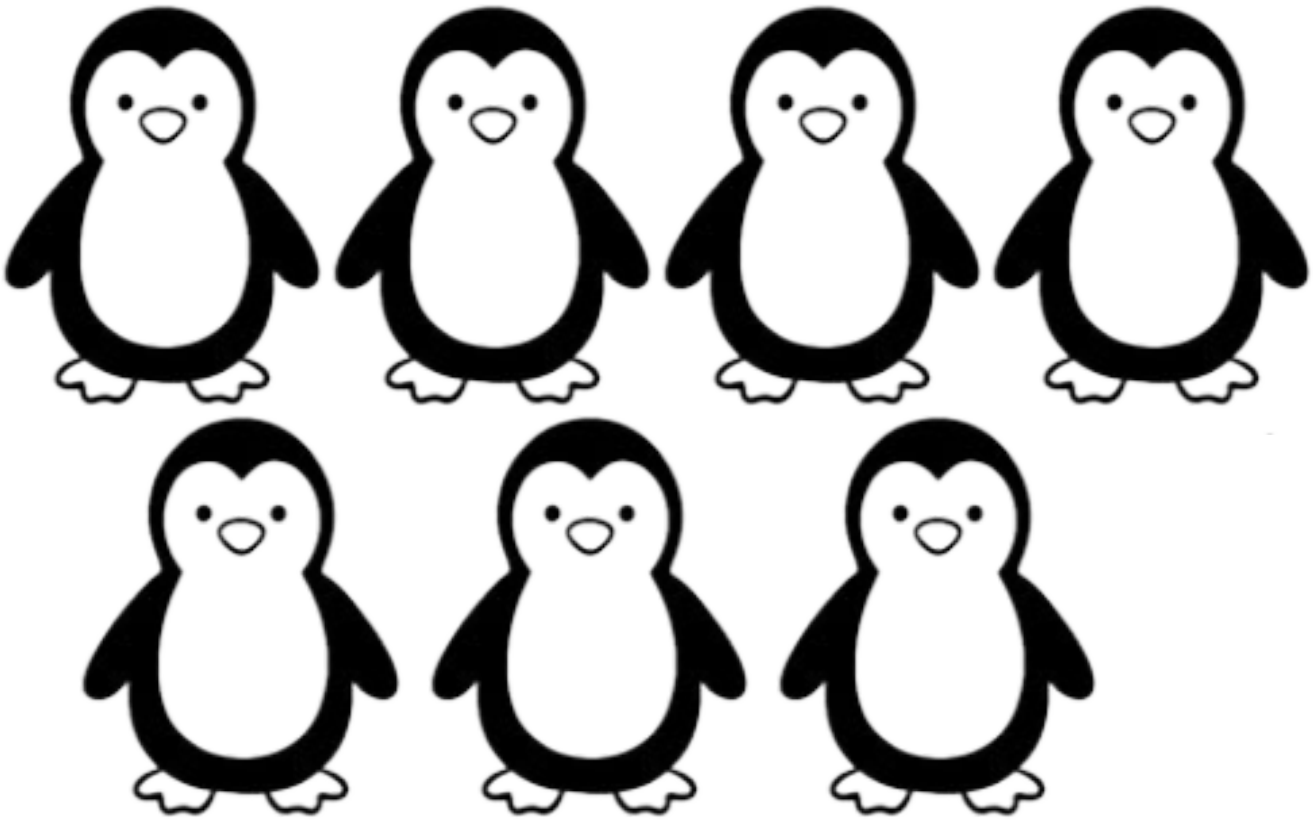

Count the seals and write the number:

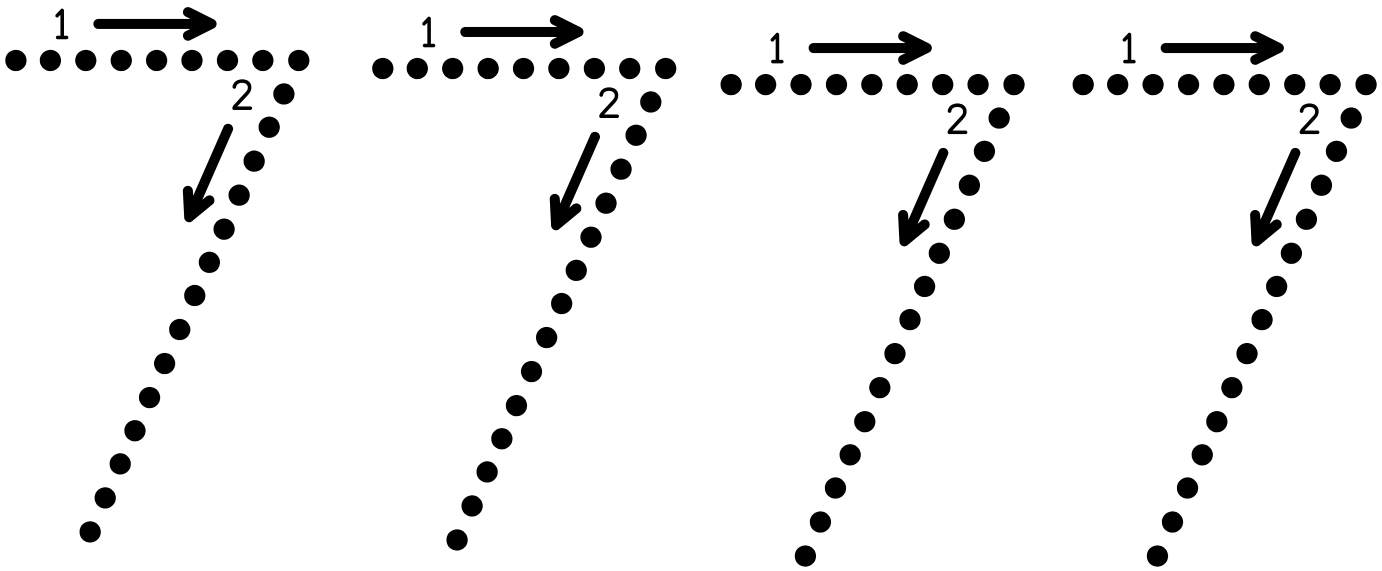

Name _____

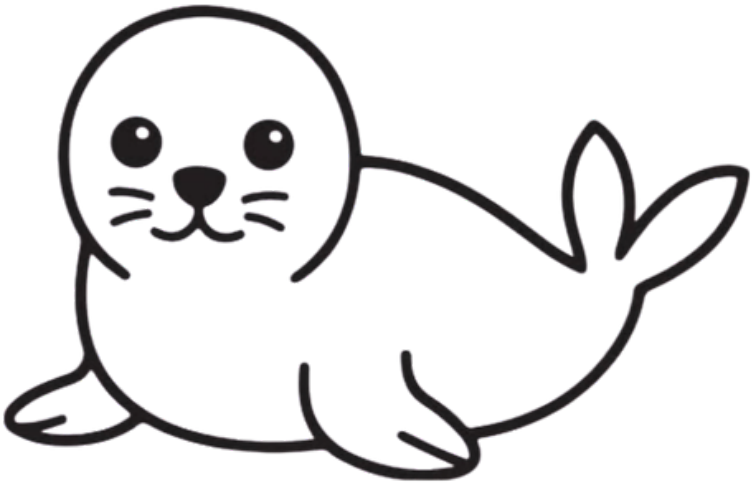

Count the penguins and write the number:

Name _____

Let us name these arctic animals:

seal

penguin

polar bear

arctic fox

Name _____

Let's learn things that are brown:

owl

log

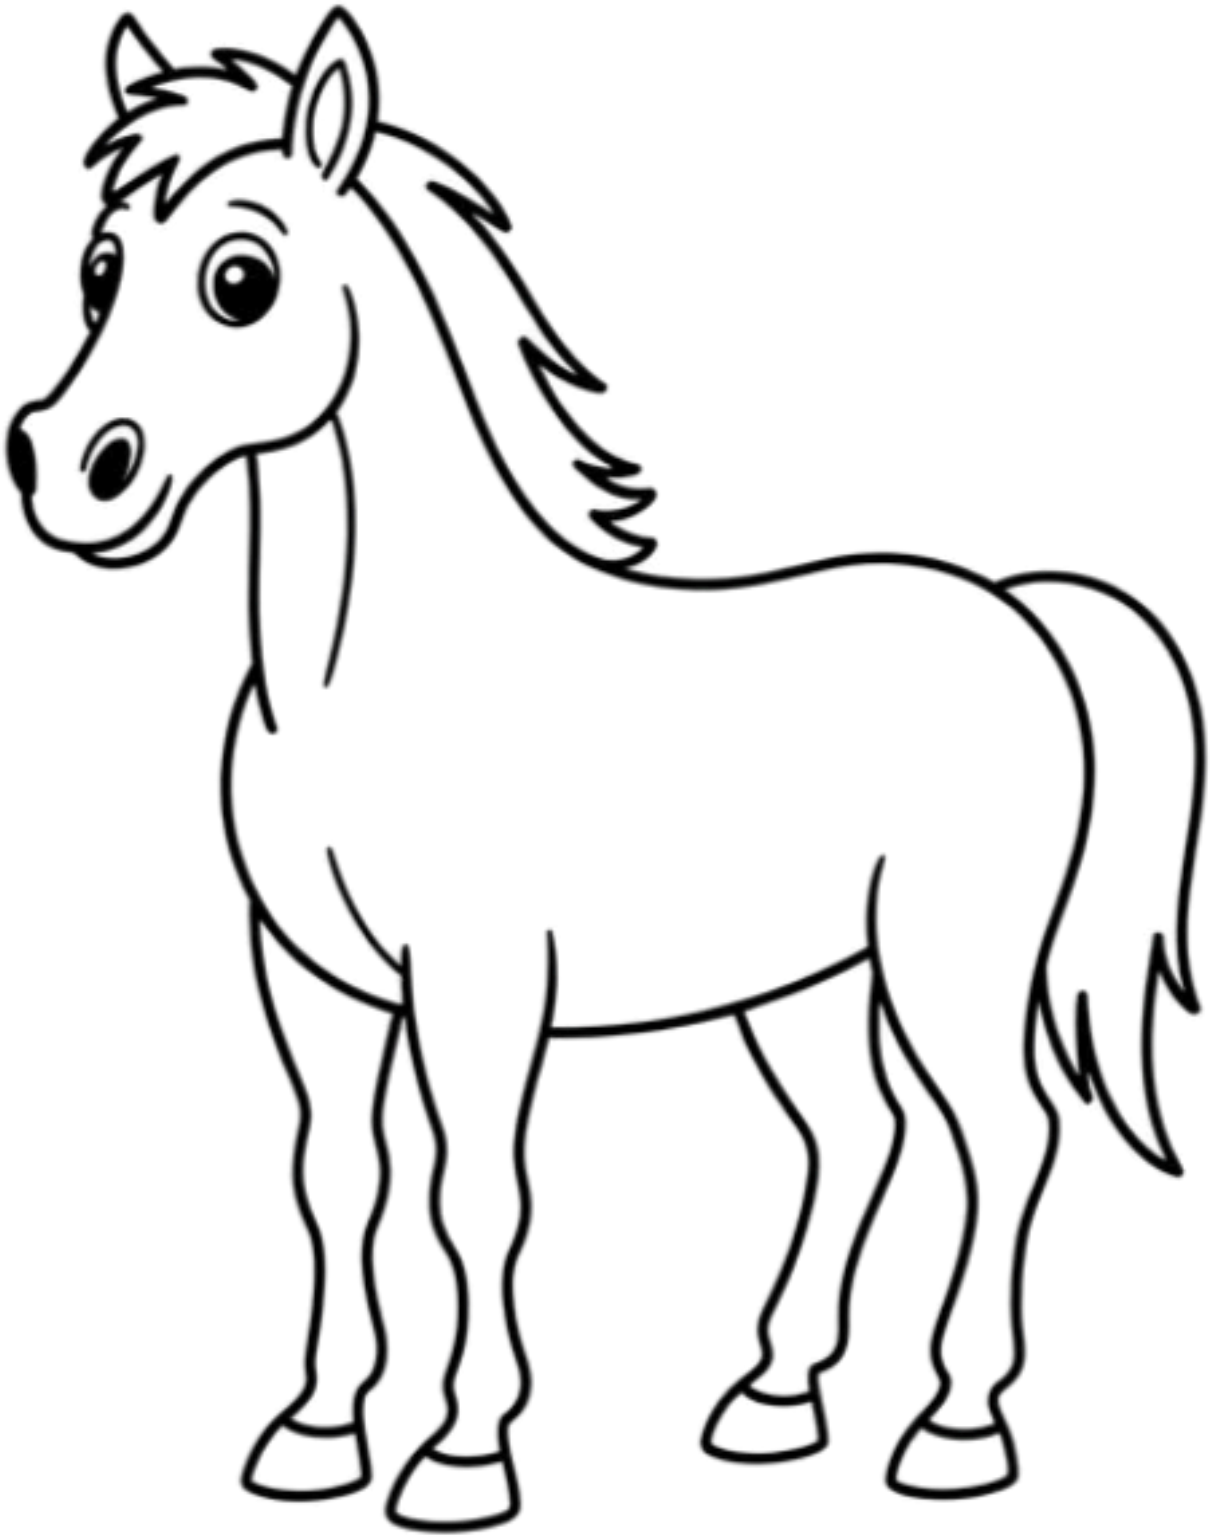

horse

teddy bear

Name _____

Color this horse brown then trace its name:

horse

Name _____

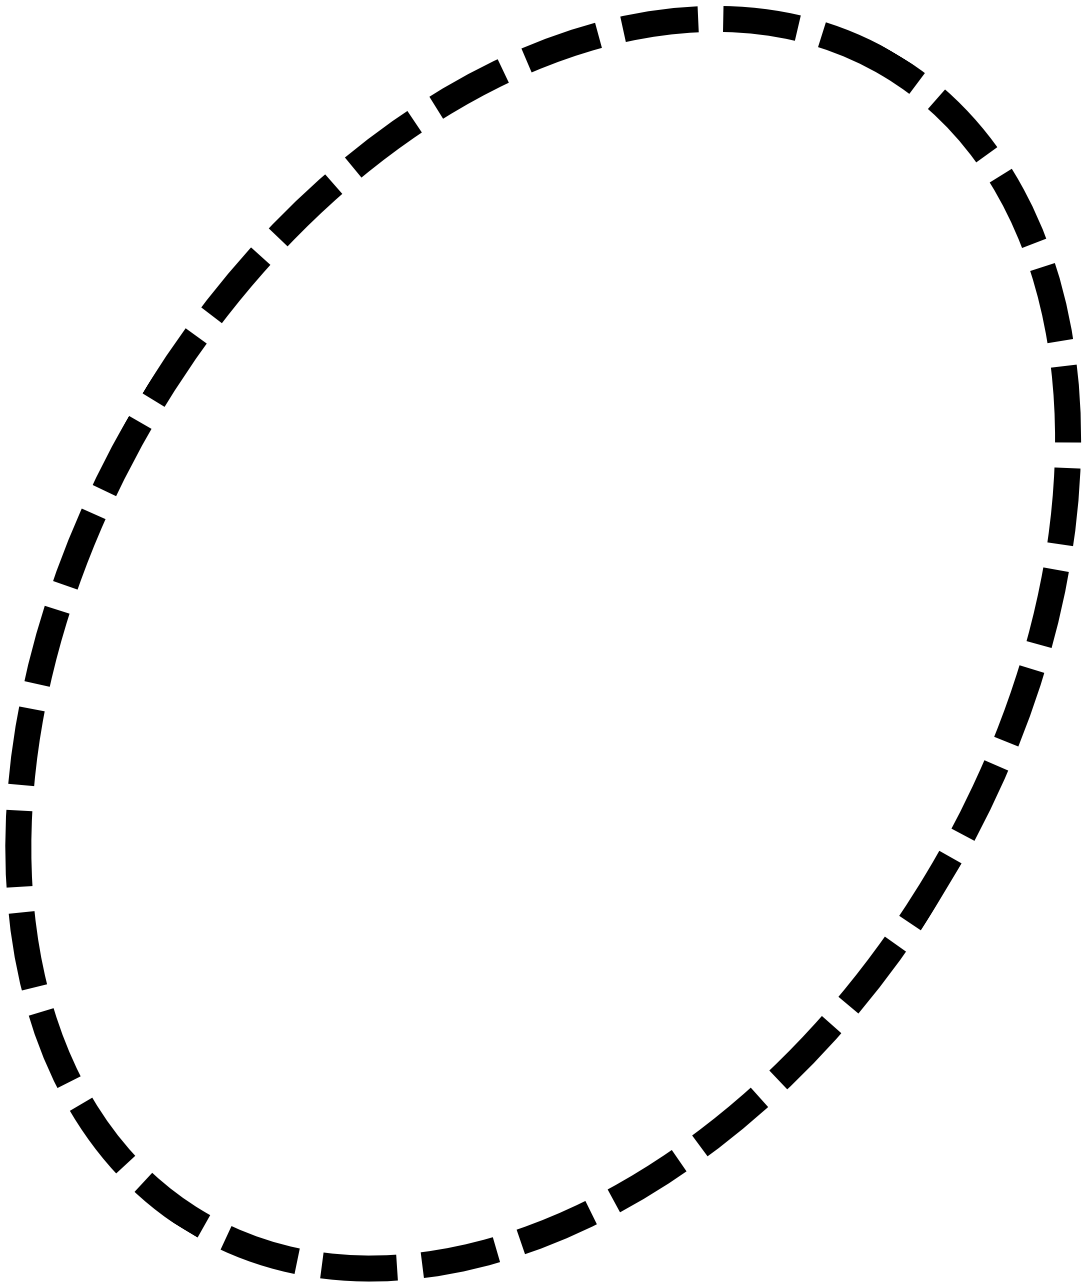

Color this squirrel brown then trace its name:

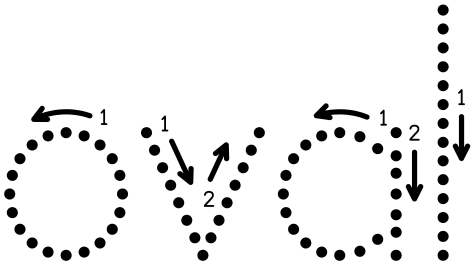

squirrel

Name _____

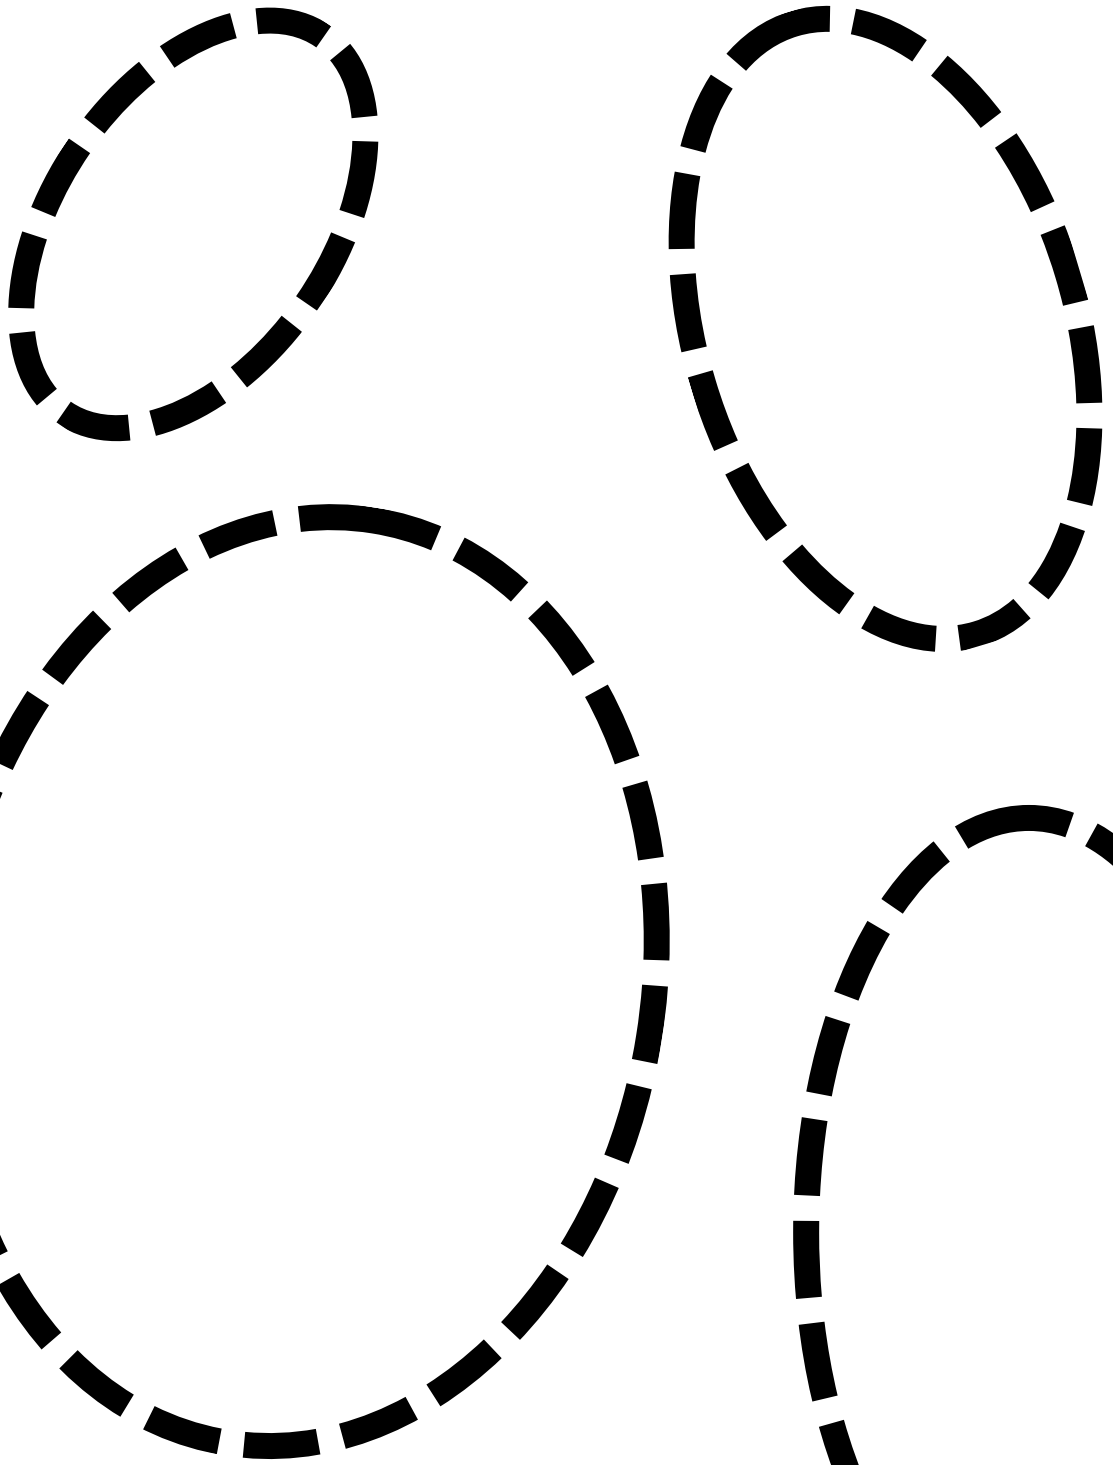

Connect the dots to make an oval:

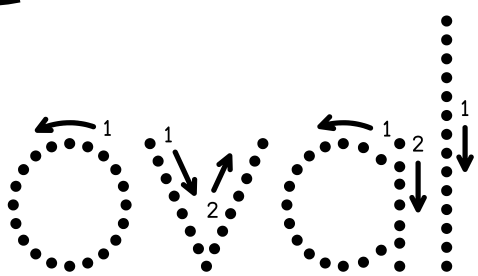

Name _____

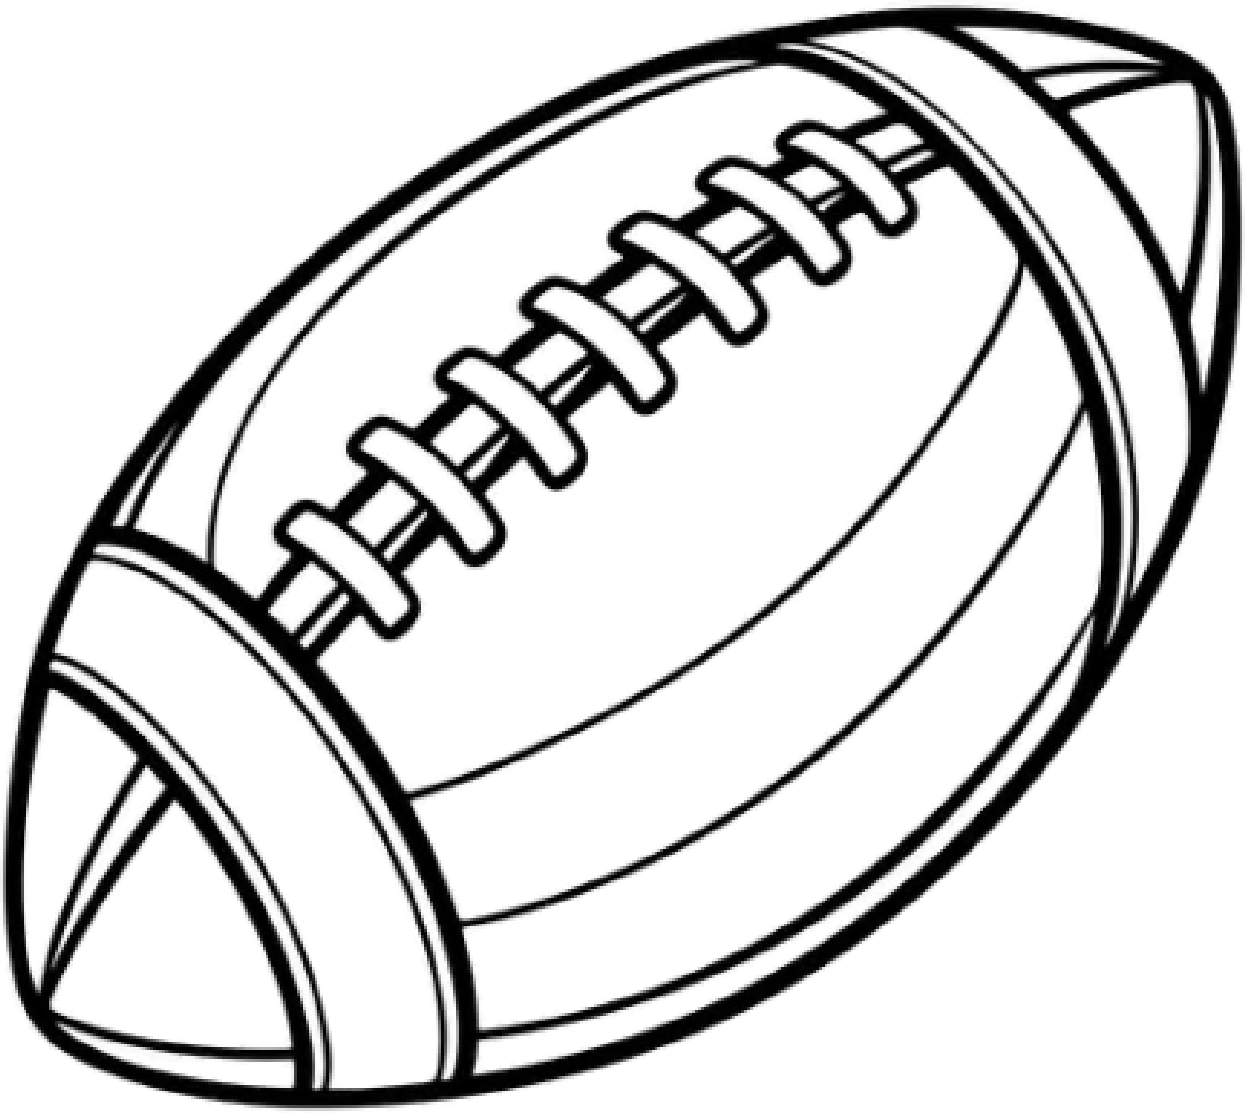

Connect more dots and make more ovals:

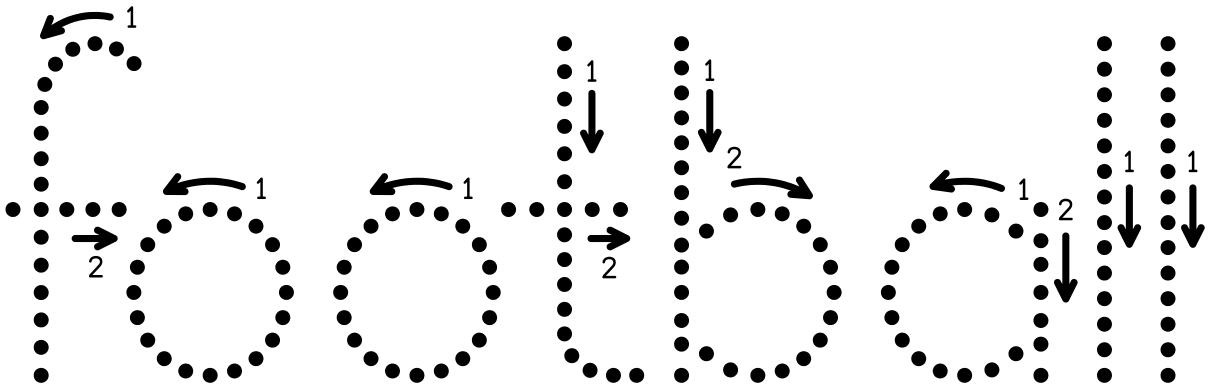

Name _____

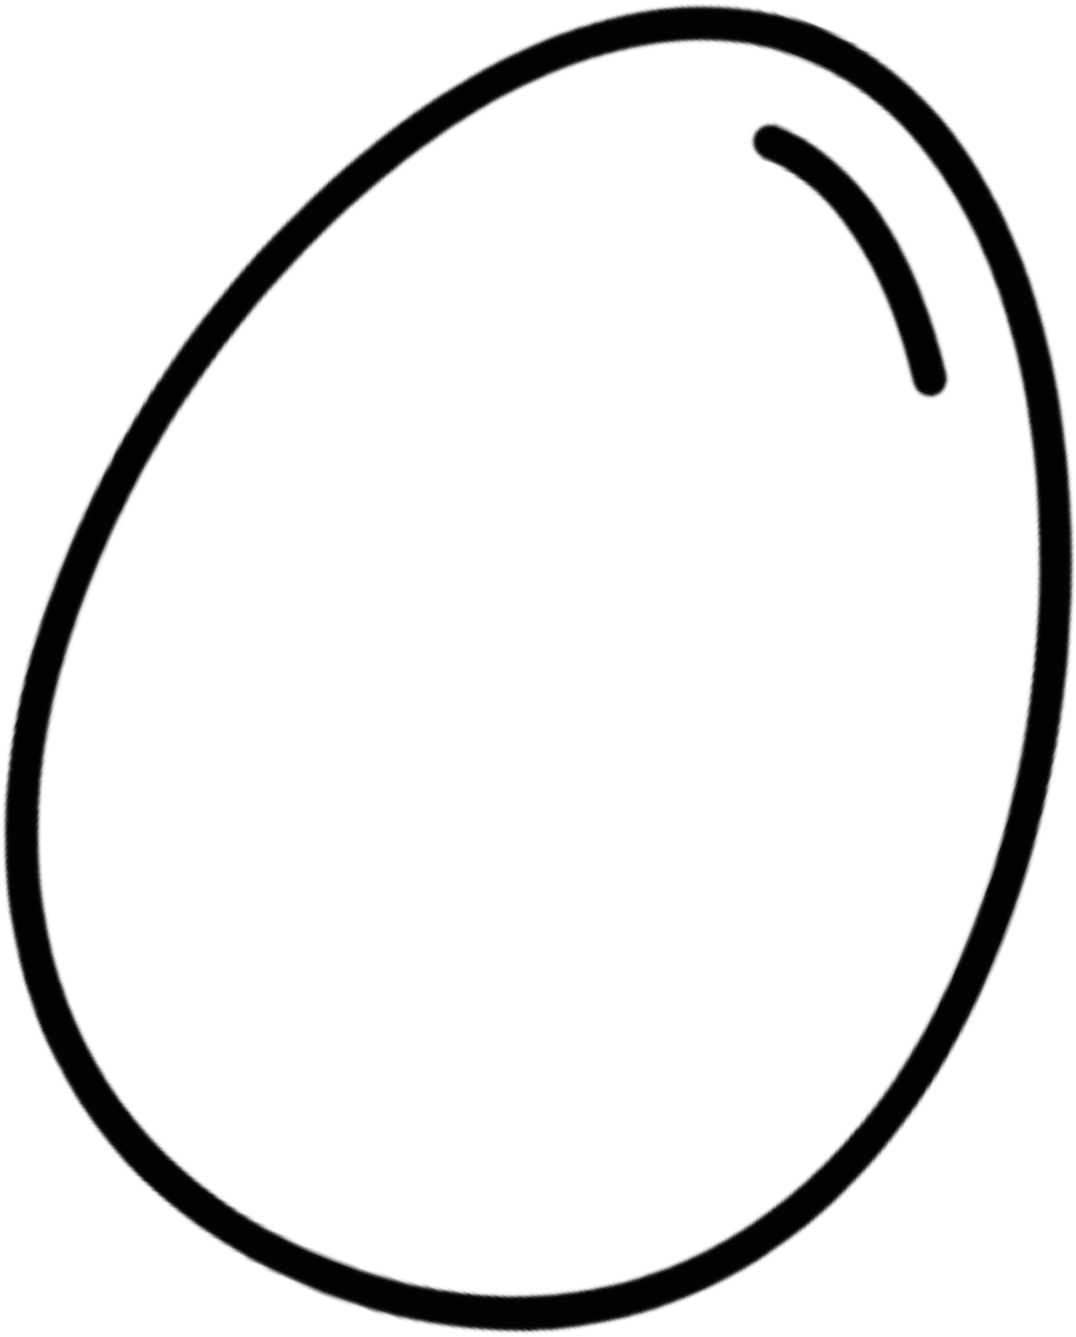

Color these oval brown and trace its name:

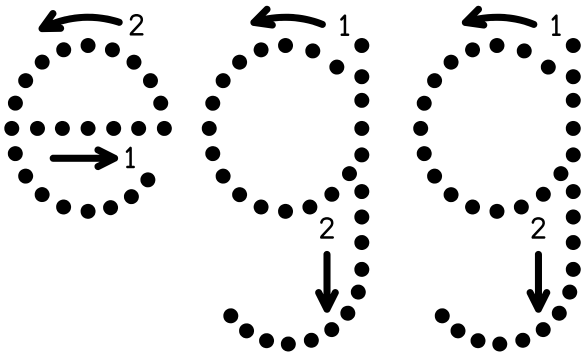

Name _____

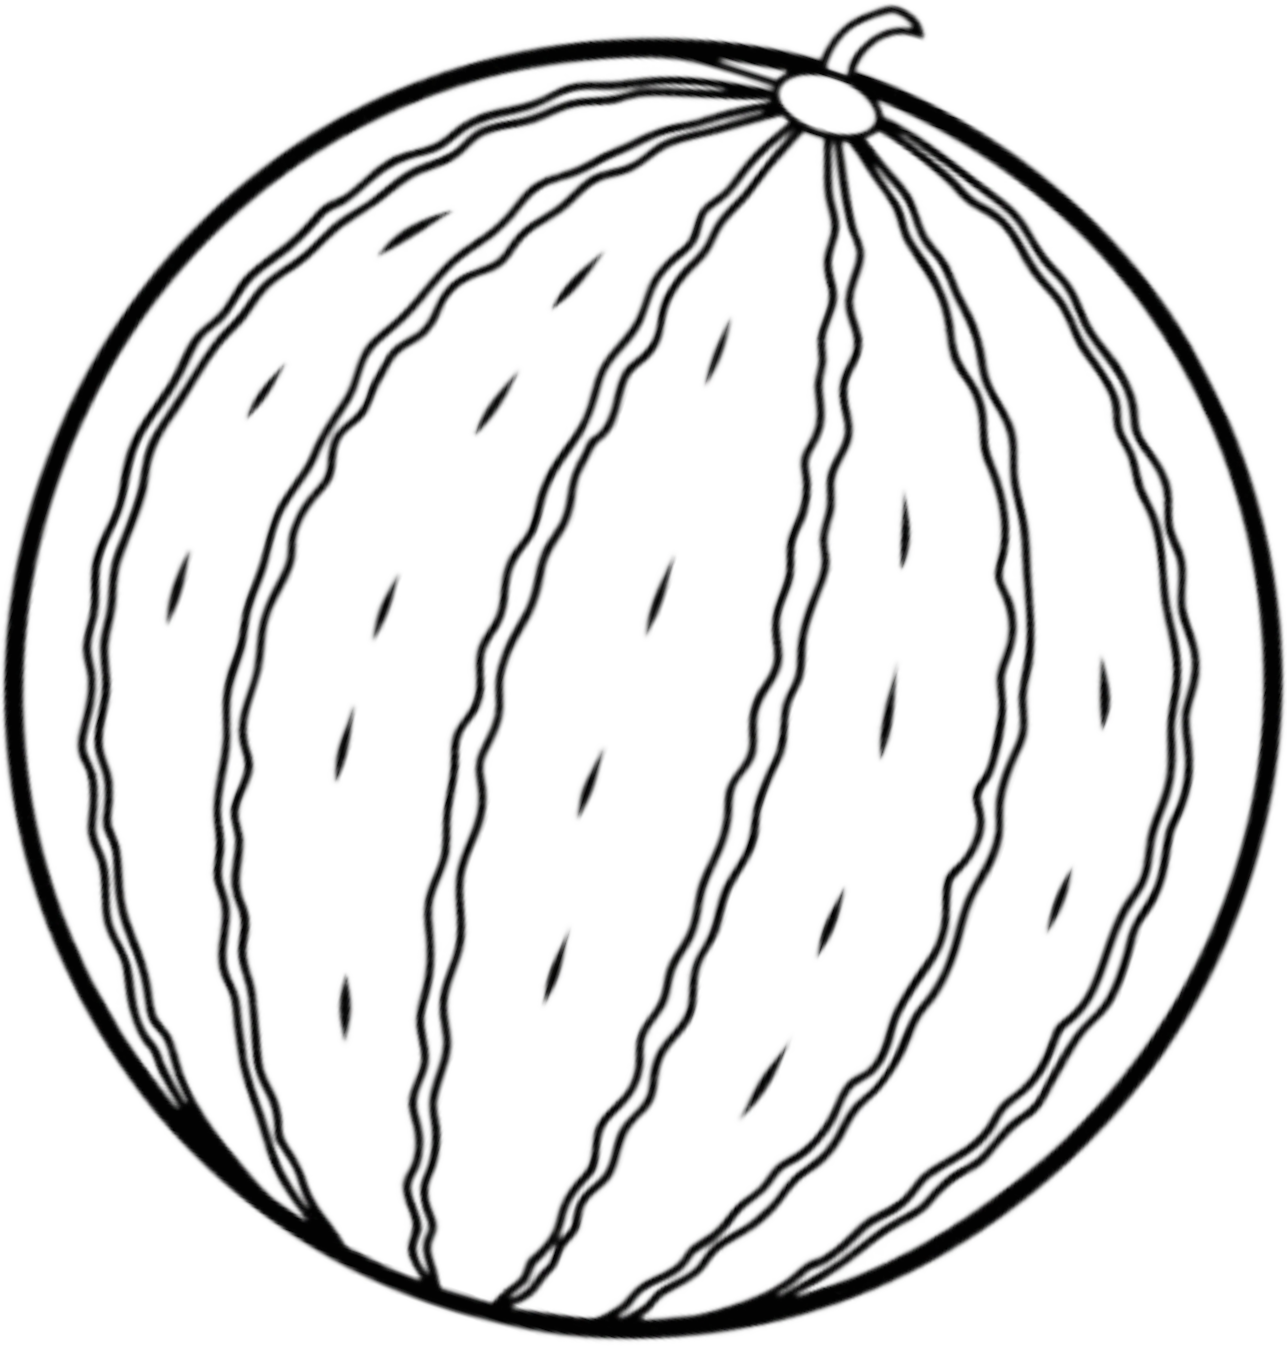

Color these oval brown and trace its name:

Name _____

Color these oval green and trace its name:

watermelon
