Bright Stars Curriculum

ALL ABOUT ME

Letter: l

Number: 8

Color: PINK

Shape: Triangle

The reason behind the theme, “All About Me!”

The goal behind All About Me as a theme is to help children learn about each other and each families! It is fun watching them being a friend to each other and discussing things about them. This will help children to realize that every person is unique and special.

**ALL
ABOUT
ME!**

Lesson for the Week

This week's lesson will be an exciting one. The alphabet is the building block of literacy and so children must learn to recognize and name the letters, both in and out of order, and the sounds associated with each letter. Please start simple. Do not attempt to teach all 26 letters at once.

Goals for this week:

1. Trace the upper and lower case letter l,
2. Recognize object names that begin with the letter l,
3. Match pictures and name words with initial "l",
4. Make sets of objects that is equal to 8,
5. Recognize objects around them and start naming things that are pink,
6. Trace, cut and make their own triangles,
7. Make logical connections while working with patterns,
8. Recognize rhymes using pictures while reading after the teacher,
9. Develop phonemic awareness through pictures,
10. Describe their favorite characters from the story read to them.

Domains and skills developed:

1. Fine motor skills: Tracing, writing, drawing, cutting, and coloring
2. Social & emotional: Identifying, observing, and naming things that they see around them
3. Cognitive: Recognize numbers, letters, colors, and shapes
4. Language & communication: Talk about their favorite color and shape, developing simple answers to simple questions, naming the four kinds of weather
5. Physical: Action songs and reciting nursery rhymes

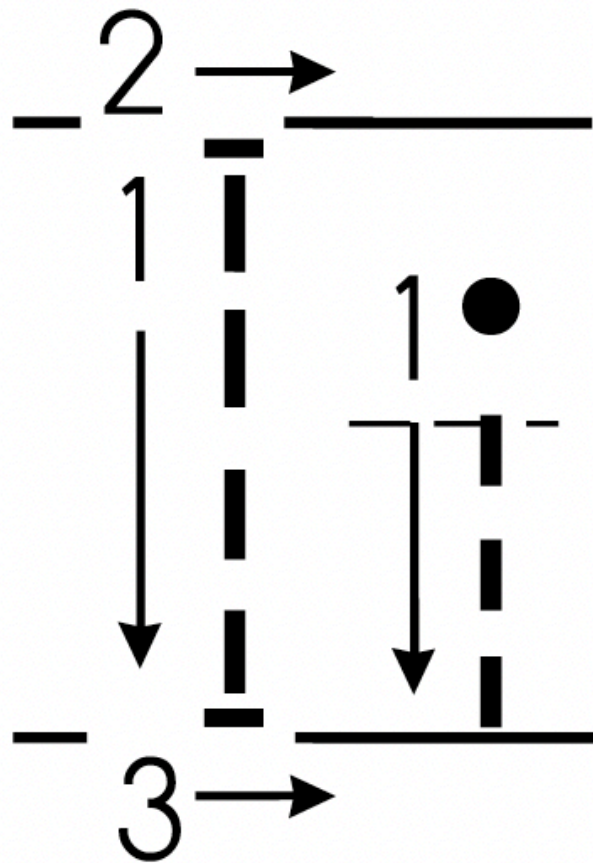

Name: _____

Follow the dashes and make your first letter I.

Name: _____

Trace the upper and lower case “l-i”.

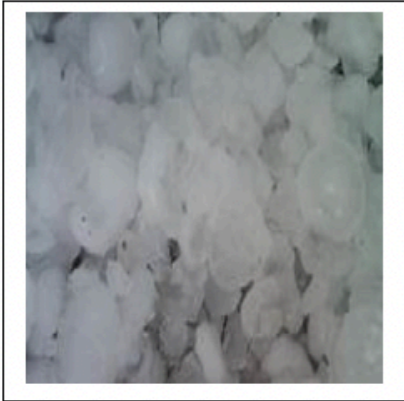

Name: _____

Trace the upper and lower case letter l.

Name: _____

Let's learn some "i-words":

ice

igloo

iron

island

Name: _____

Let's learn more "i-words":

insect

ice

cream

icicle

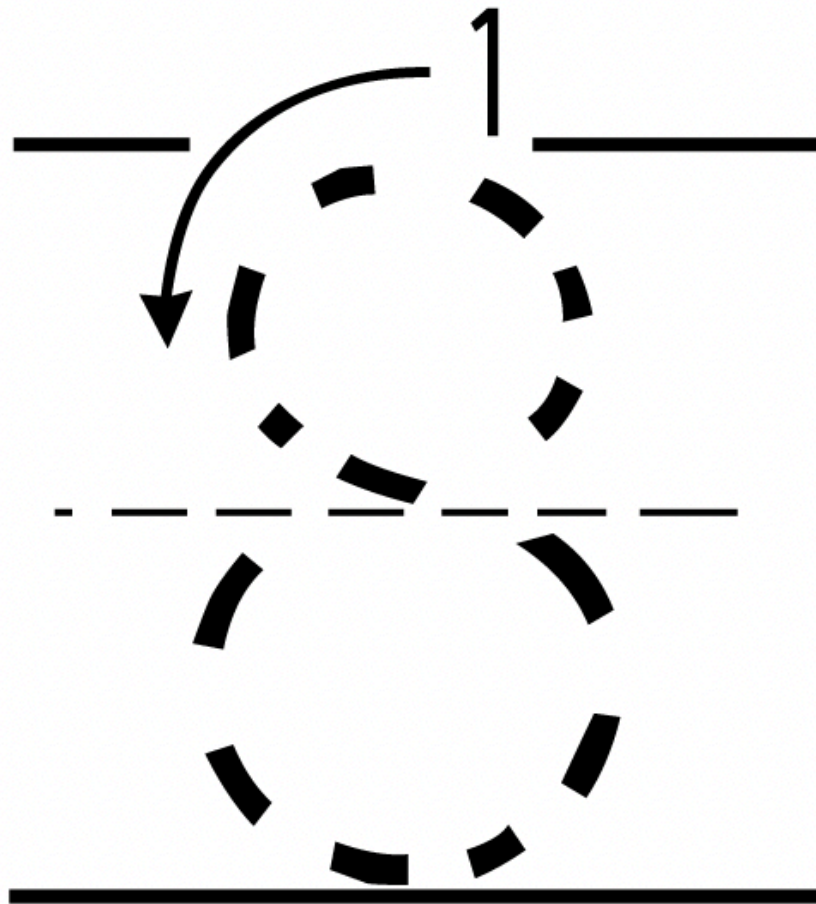

ice

drop

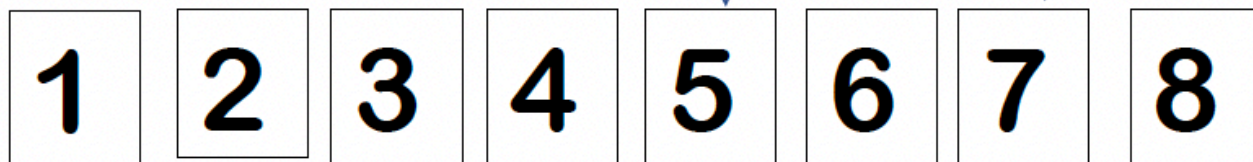

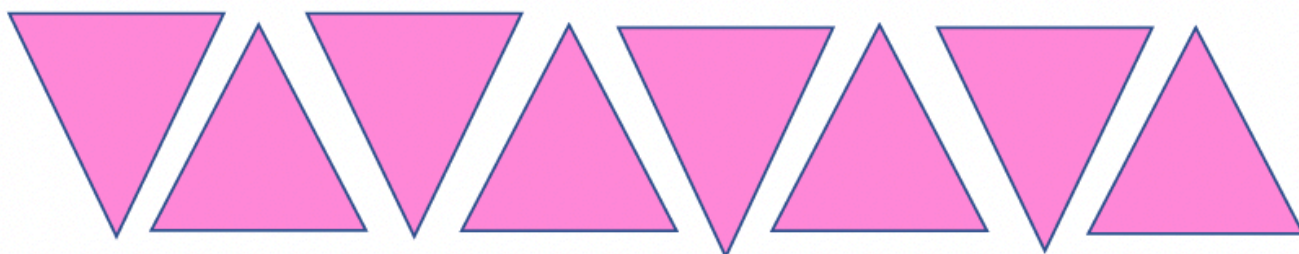

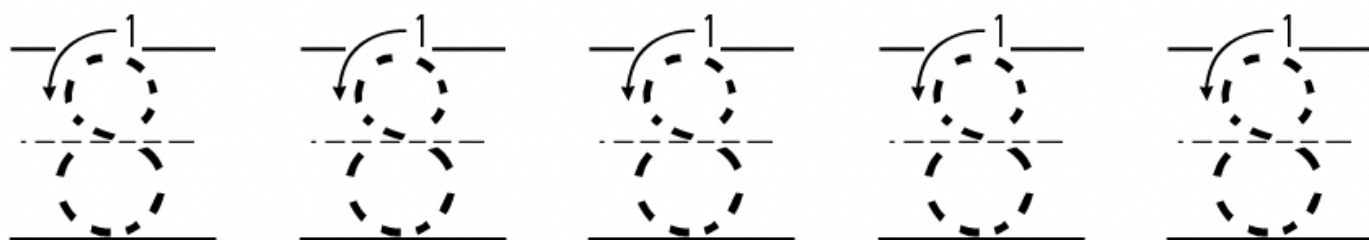

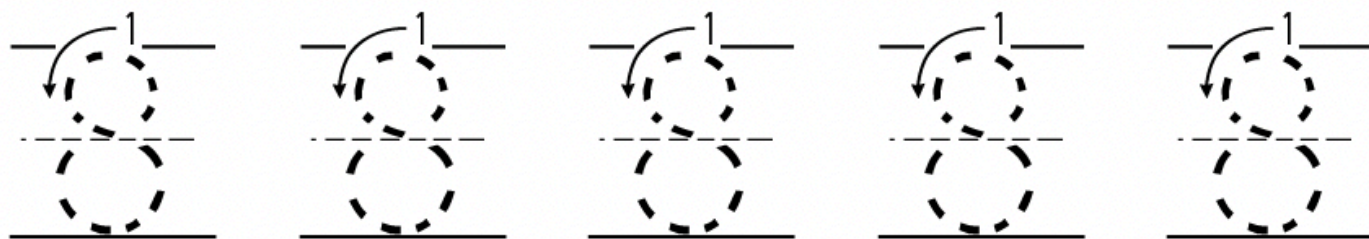

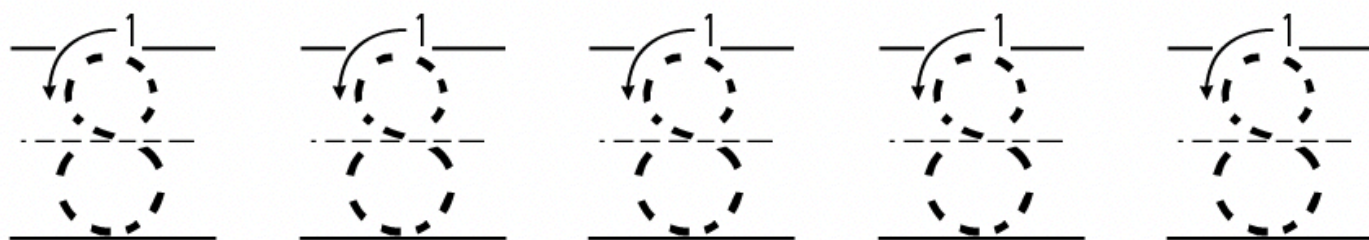

Name: _____

Connect the dashes and make your number 8.

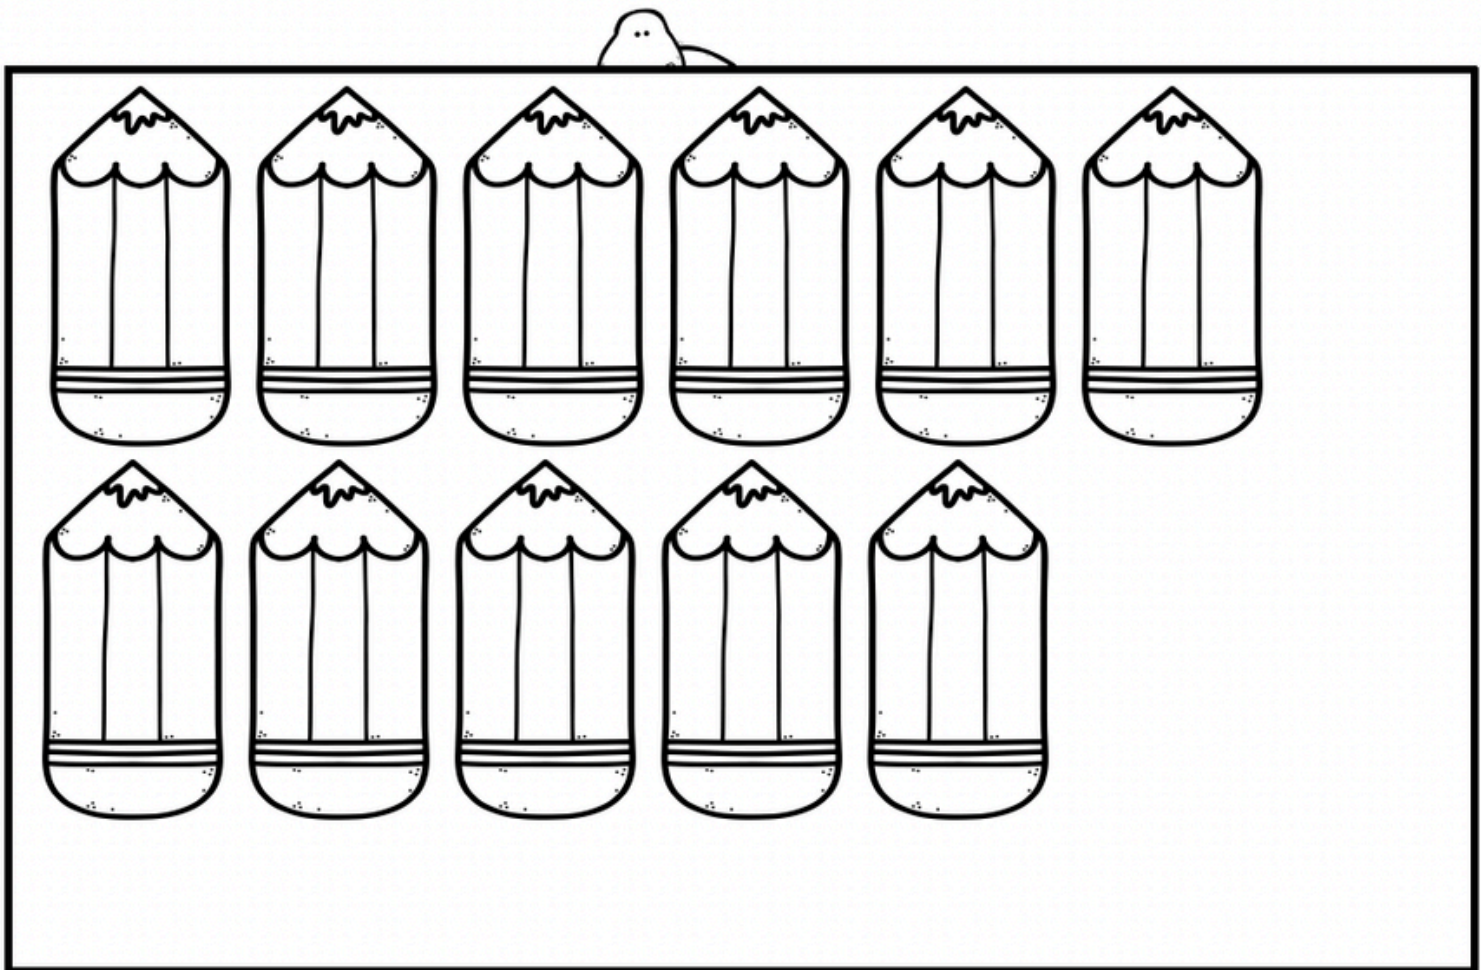

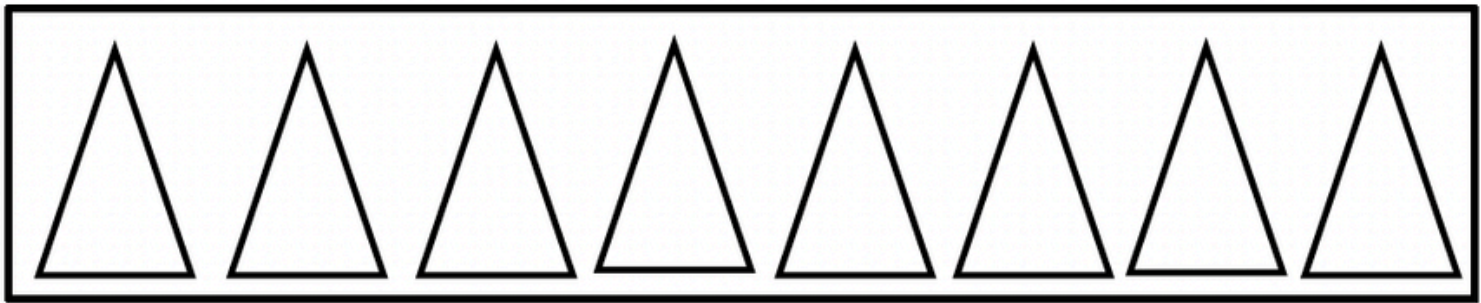

Name: _____

Practice tracing the number 8.

Name: _____

Count and color the eight object. Use your pink crayon to color the object.

Name: _____

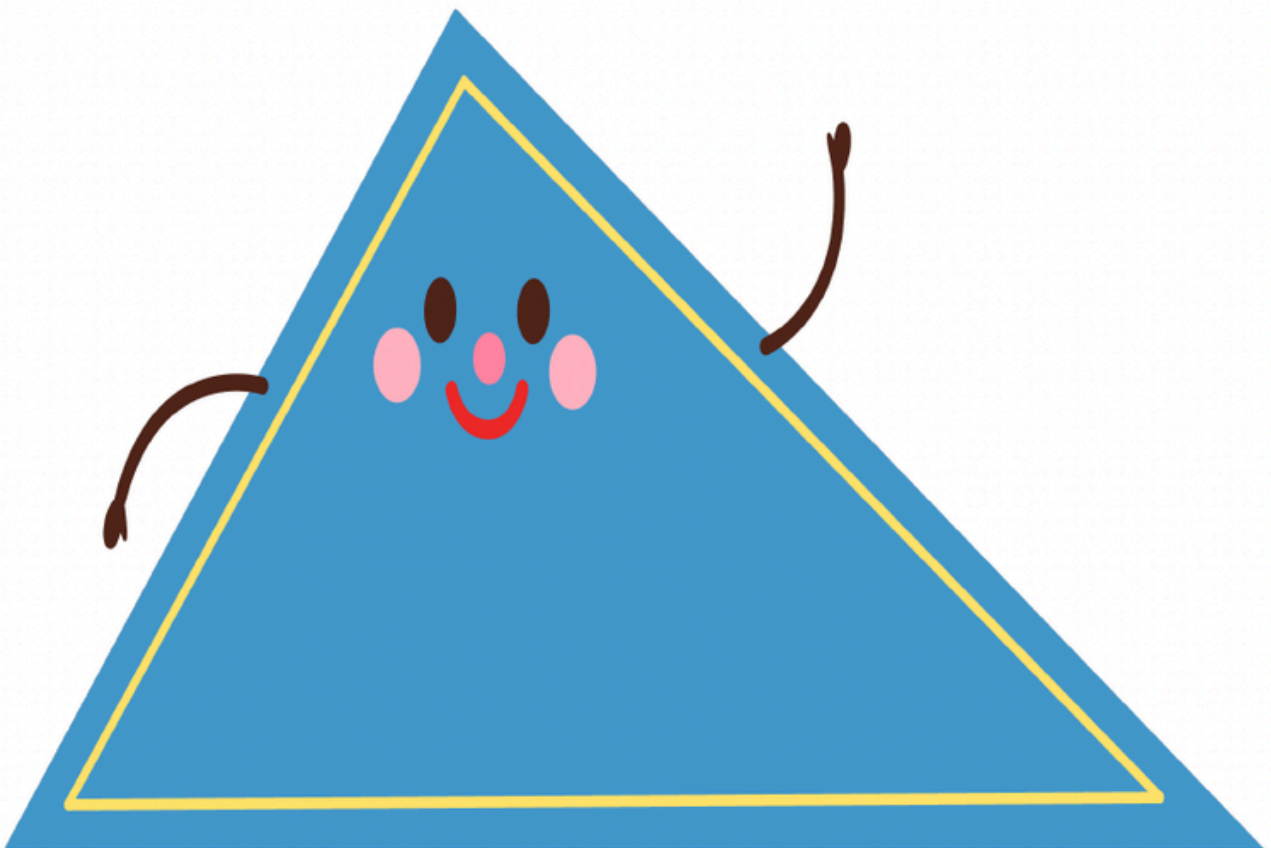

How many bags are there?

5	6	7	8	9	10
---	---	---	---	---	----

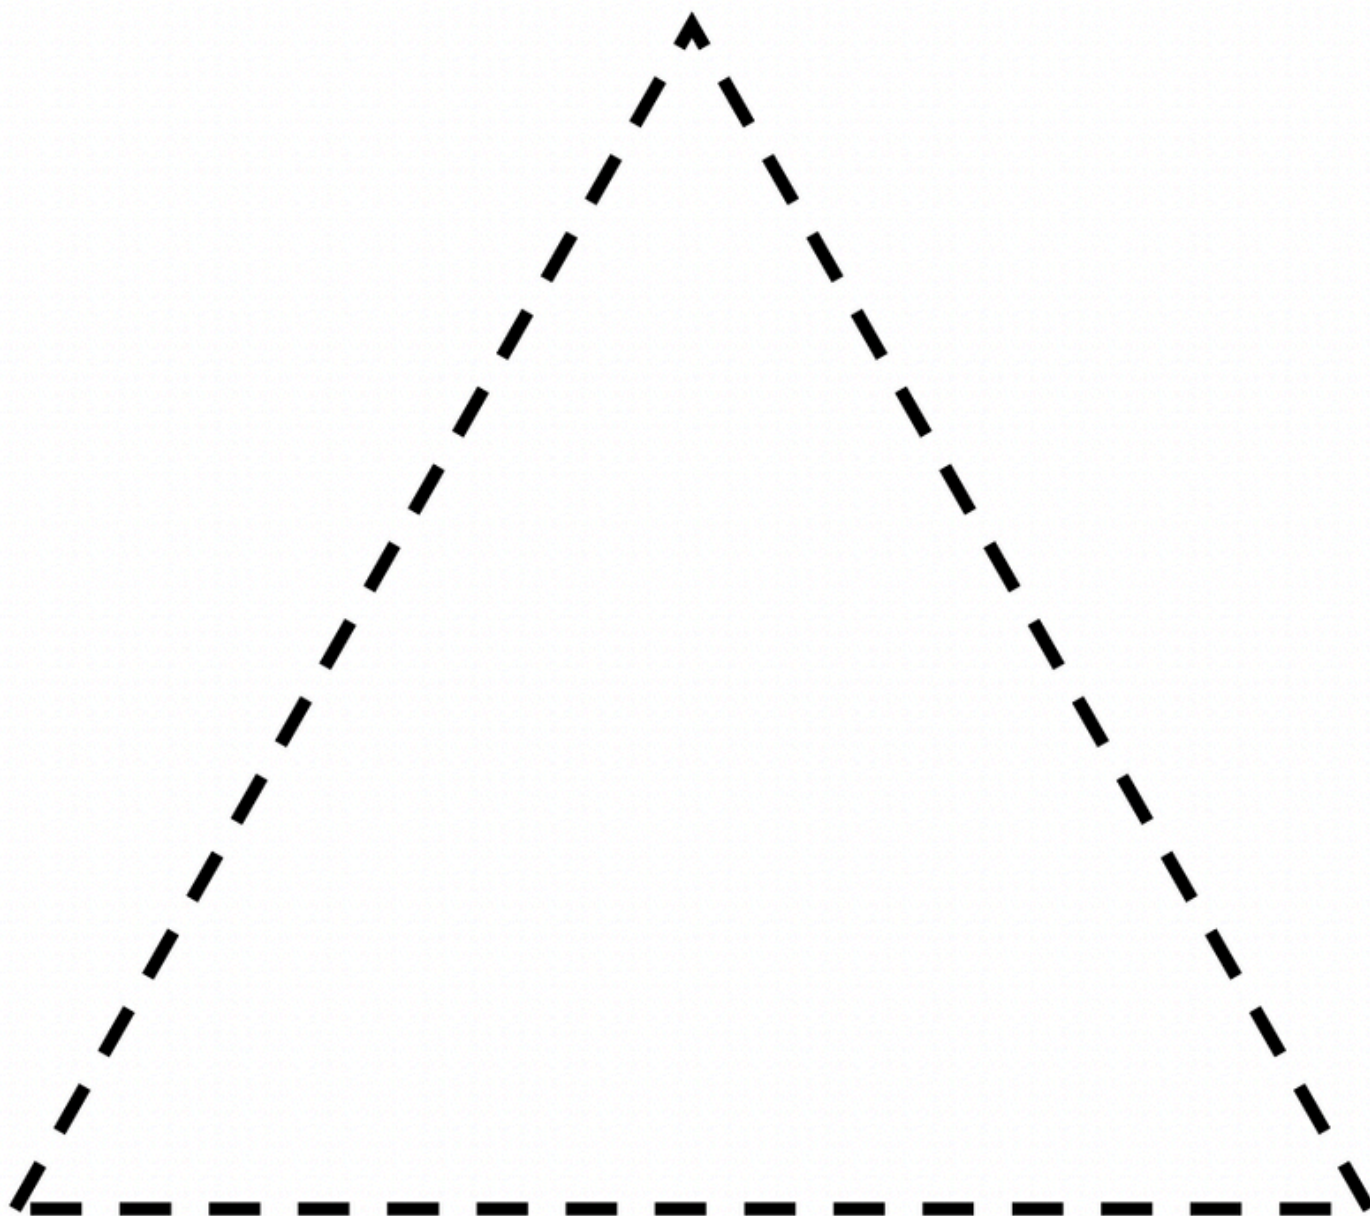

What shape is this?

I am a triangle. I have three sides and three corners.

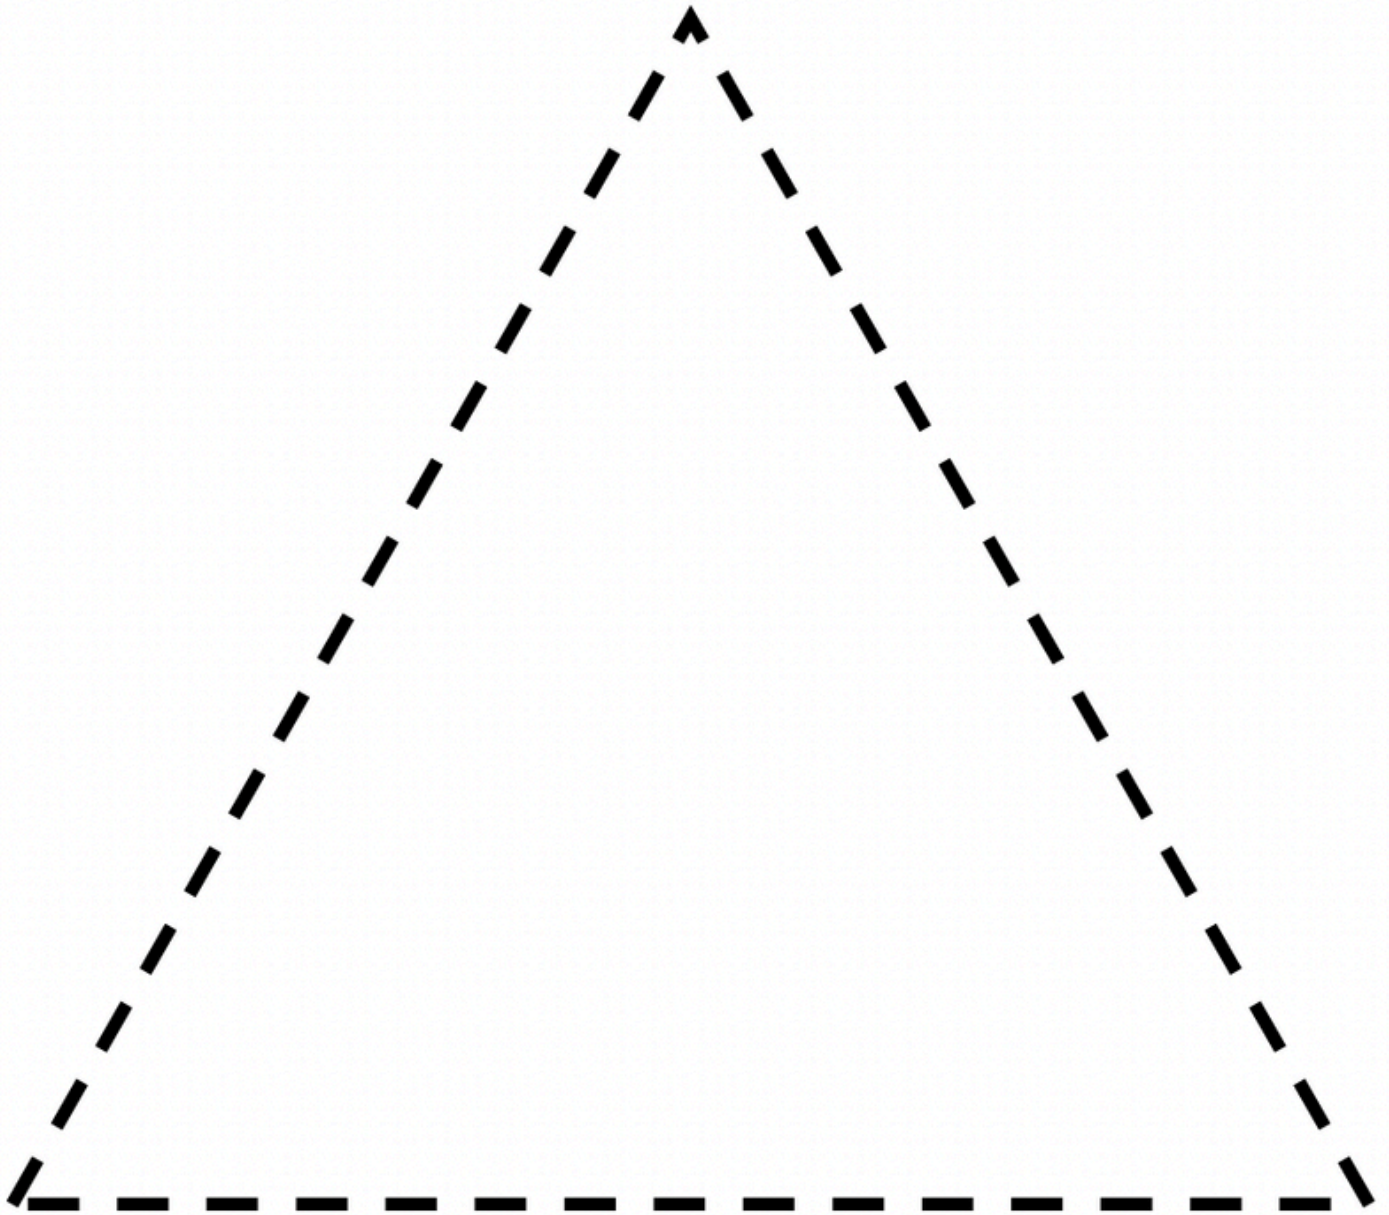

Name: _____

Connect the dots. What shape did you make?

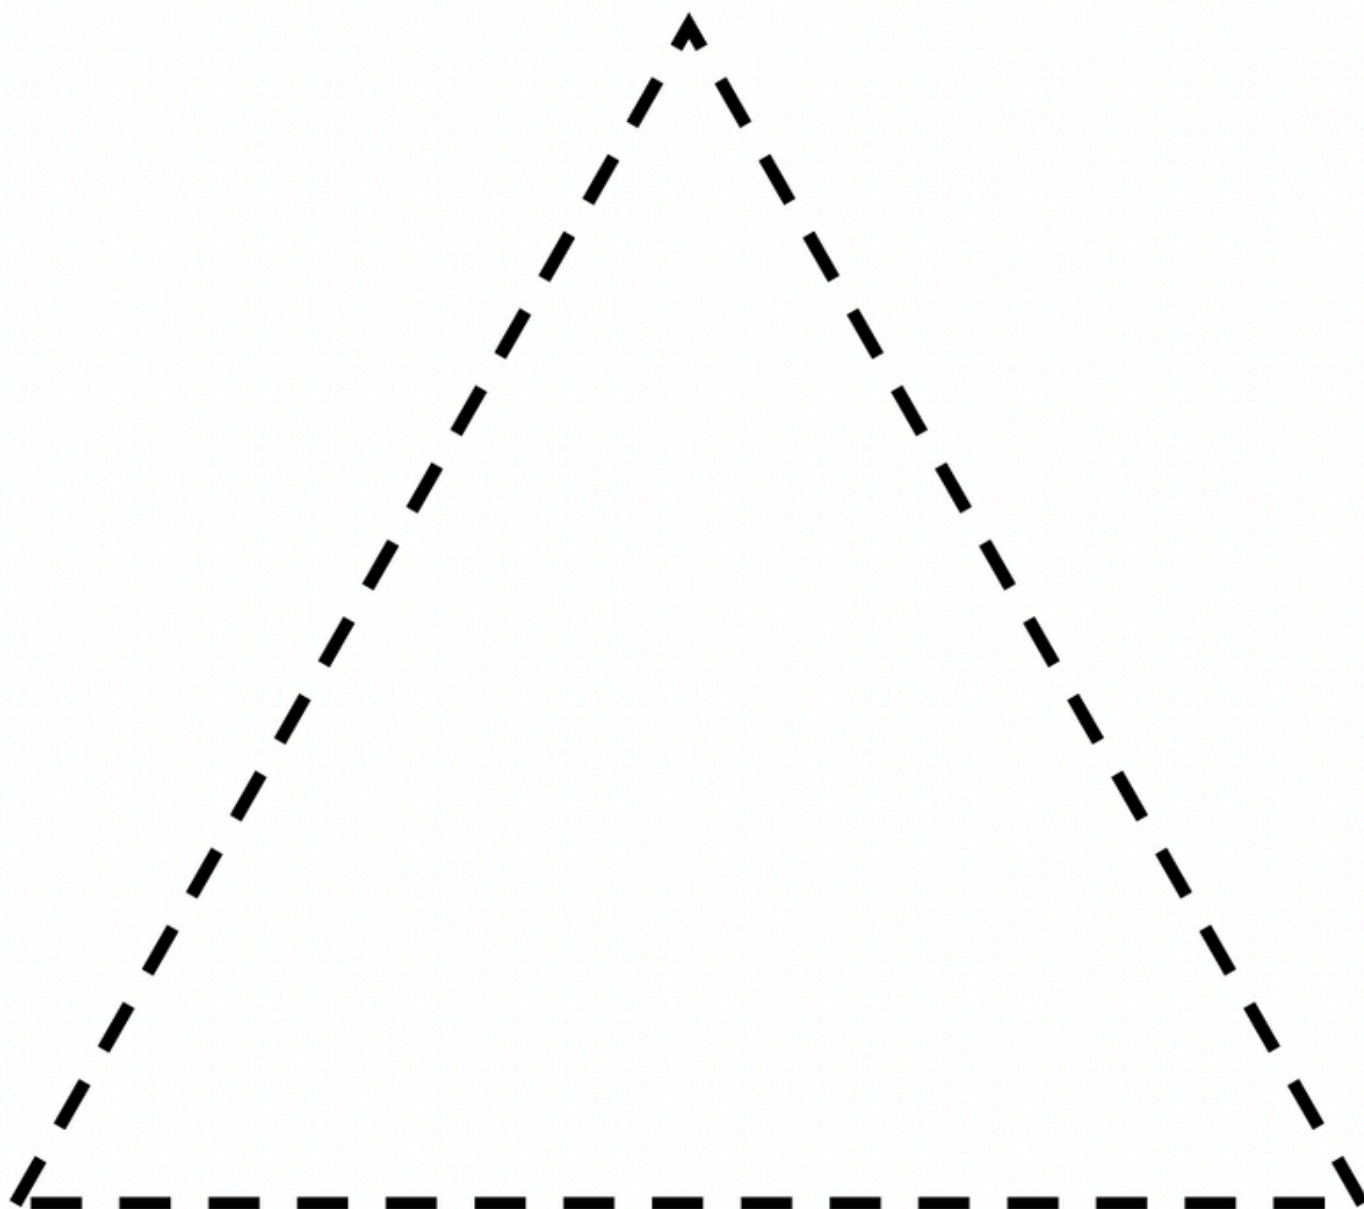

Name: _____

Color the triangle pink.

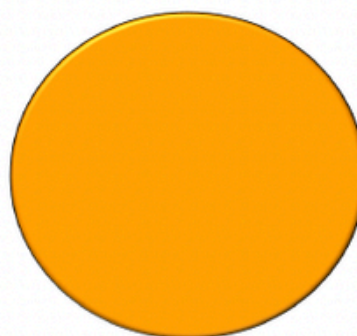

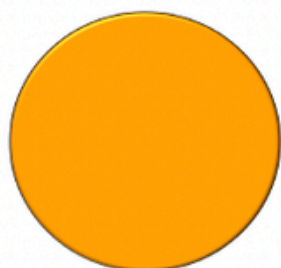

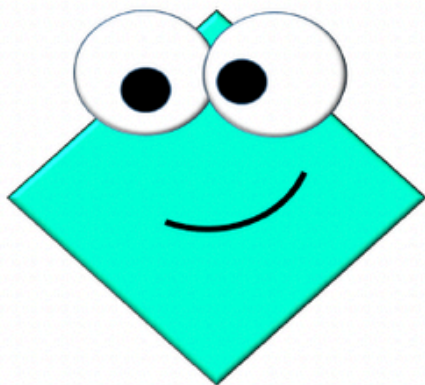

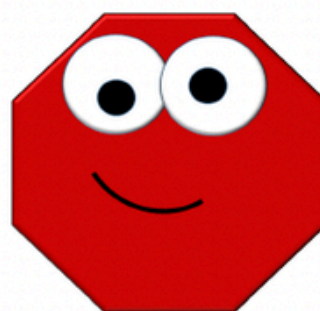

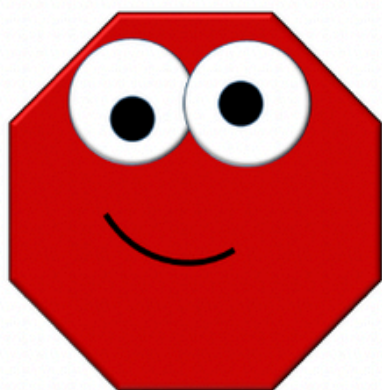

Name: _____

Cut along the dots and make your own triangle.
Paste your triangle on a pink paper.

Name: _____

Which is bigger? Circle it.

Name: _____

Beginning Sounds 1

Name each picture. Circle the letter for its beginning sound.

Interactive Reading Thoughts

These books were some of the recommended ones that the teacher can use for interactive reading. You may have a copy of any of them from the library or you can get your own copy.

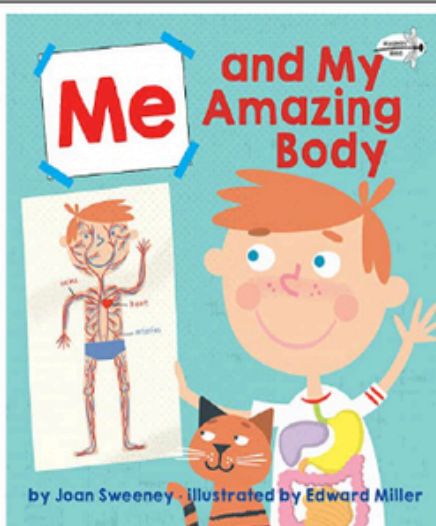

Some stories that are in my site are found in YouTube. If I don't have a copy of the book, I use those from YouTube, as read aloud stories. If I have the book, I unlock new words before I read the story. I use pictures to help them give simple meanings. I read a paragraph and ask them for reactions. That is how I conduct my interactive reading.

The CVC poster on the last page of this section can be laminated and hang y the reading area. This will be an additional chunk of pre-reading activity.

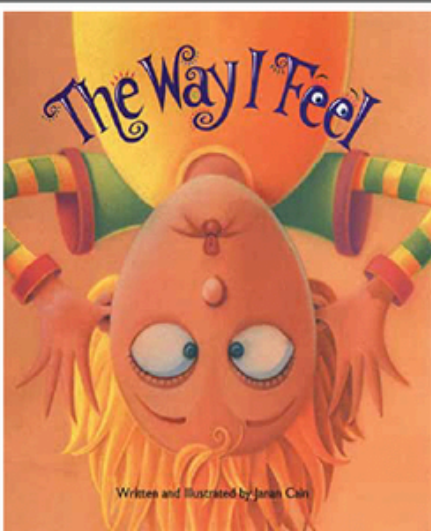

Selected books for Interactive Reading

This amazing book by Kathi Appelt will help young children celebrate the wonderful qualities that make them special – their nose, their toes, their ears and their total personalities.

This funny illustrated book about Me and My Amazing Body and how it will show you everything about you from head to toes. This playful anatomy will explain all the important parts of your body. It is easy to read and understand. It will help children appreciate everything their bodies can do.

This book is a much-praised piece by parents because of its valuable lessons for children as they talk about their day's triumphs and troubles. Janan Cain, the author allowed children to ooze in anger and bounce with excitement. It helps children teach how to manage their emotions.

Coloring and Painting

Hand strength is also important for all hand-related fine motor skills, especially handwriting.

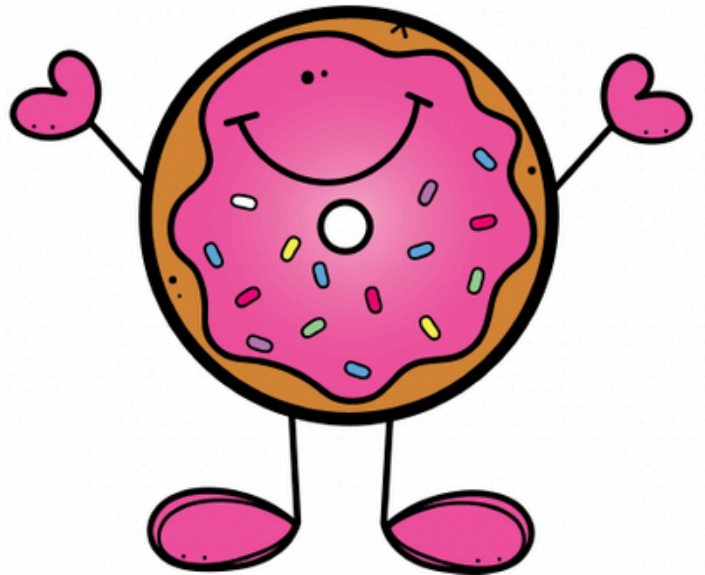

Writing takes strength and dexterity and coloring helps exercise these muscles. Hand strength will also support your child's proper pencil grip.
