

Imagine a piano study built just for you.

I developed **The Meraki Method** to be a program that steps into the space where you are and guides you toward the place where you want to be. Finding independence at the piano to enjoy the music you create, is the goal of our work together.

THIS 6-MONTH IMMERSION PROGRAM INCLUDES:

- Direct Group Piano Lessons
- Gamified Piano Lessons
- Video Theory Workbars
- Ongoing Support Throughout

And More!

Simone P. says: “I can’t believe the speed at which I re-learned what I thought I lost at the piano. This approach was exactly what I needed at a time I needed it most!”

And Mary A. says: “The process was amazing and easy to access. Highly recommend!”.
