

A close-up photograph of a light green ceramic coffee cup filled with a frothy beverage, topped with a dusting of brown powder. The cup sits on a matching saucer, both resting on a wooden tray. To the left of the cup is a chocolate muffin with a white filling. In the background, a white bowl contains a mix of fresh raspberries, blueberries, and nuts. The scene is set on a light-colored, possibly marble, surface.

Know your coffee

Did you know that coffee beans originated from the Ethiopian Plateau in the 9th century? It's amazing how many different types of coffee drinks are now available.

Who would've known a few small beans would create a range of hot and cold beverages!

Espresso

When Espresso bars popped up in London through the 1950's, coffee in the UK changed forever. An intense flavour with characteristics dependent on the origin and roast of the coffee, Espresso is a short drink usually served in a 3 - 4oz cup or glass.

Italian in origin, it is the base to most drinks on the menu.

Macchiato

Quite simply put, Macchiato translates as a coffee 'stained' with milk. Espresso with a dollop of thickly textured milk served in a 3 - 4oz cup or glass.

A macchiato is perfect for those who find espresso too harsh, but a cappuccino too weak.

Americano

During the Second World War, American soldiers couldn't take the strength of the Italian Espresso, they diluted it with hot water, and thus the Americano was born!

Served in various sizes, this drink, like the Long Black, combines Espresso and hot water, but unlike the Long Black, some people do add a splash of milk.

Interestingly, several studies suggest that coffee could support liver health and protect against disease.

A blue ceramic cup filled with coffee on a saucer, set on a burlap surface with coffee beans scattered around. The cup and saucer are a deep blue color with a subtle texture. The coffee inside is dark and smooth. The background is a coarse, woven burlap fabric. In the foreground, several dark coffee beans are scattered on the burlap. To the right, a small portion of another blue cup and a glass jar containing coffee beans are visible.

Mocha

It's no secret coffee and chocolate make a fabulous pair. Like a Latte in texture and strength of coffee, the Mocha also includes a delicious dose of chocolate. Served in various sizes.

Mocha refers to both a type of coffee bean and a chocolate espresso drink. The Ottoman Turks invented caffè mocha in the 1500s!

Cold Brew

A revelation for the balmy, hot conditions we experience during summer in the UK... Okay, that may not be true, but cold brew coffee genuinely is a revelation.

Brewed cold, no heat is introduced to the ground coffee resulting in a drink that celebrates the individual characteristics of the coffee with slight acidity and bitterness. This drink should be enjoyed in a glass of ice (without milk). A perfect alternative to Espresso as an ingredient in cocktails.

Cold-brew coffee tastes much sweeter than regular coffee because it has approximately 67% less acidity than a hot brew.

Dalgona coffee has been trending on social media with its sugary and foamy texture and easy-to-make recipe! Many, especially the younger generation are making them at home!

Tea

Worldwide known as a British staple, there are five types of tea – Black, White, Green, Oolong and Pu-erh. The type of tea is dependent on the age of the leaf. Whether served in a glass (herbal tea), ceramic (black tea) or, more traditionally, in a pot, the humble cuppa has a place on every menu.

Ceramic teapots are excellent for tea because they retain heat for longer than other teapots. This feature is handy for black tea. The ceramic teapot stays hot, and the tea remains fresh longer.
