TABLIN NAPKINS

THE DISPOSABLE ALTERNATIVE TO LINEN

BEAUTIFULLY SOFT

Poppies' Tablin napkin range is manufactured using airlaid material which is a luxurious, linen-like material, somewhere between a fabric and tissue paper. This low lint & highly absorbent material can hold several times its own weight in water.

Perfect for use as a high-end disposable table napkin or alternatively a luxury disposable hand towel which is also biodegradable.

This luxury napkin range is available in 6 formats:

4 Fold Cocktail
4 Fold Luncheon 33
4 Fold Dinner 40
8 Fold Dinner 40
POP-IN Dinner 40
Hand Towel

and a wide range of colours...

**The Environmentally
Friendly Napkin Choice**

Made by converting soft fibres made from wood pulp and using air instead of water to transfer the fibres. Resin is then applied to the pulp web with a spray process. The air space created accounts for its lightweight, soft feel.

**Certified
& Accredited**

Our Tablin & tissue napkins hold several accreditations for sustainability coupled with a certification for compostability. We are committed to responsible forestry management and we are proud to be affiliated with the Forestry Stewardship Council® (FSC®).

**Beautifully Soft
& Extremely Strong**

Enjoy the look and feel of linen with the convenience of a disposable napkin. Poppies Airlaid napkins offer a step up from 2 or 3ply paper napkins, whilst ensuring a thick, soft and highly-absorbent option.

**Greatly
Reduces Waste**

On average, each customer uses 3-5 paper napkins per sitting. The easiest way to control waste is to control usage. One linen-feel dinner napkin is absorbent enough to last an entire meal!

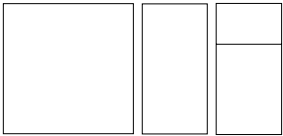

TABLIN NAPKINS

These luxurious Airlaid napkins are perfect for complementing eating establishments that desire that upscale feel.

Available in Cocktail, Luncheon, Dinner and Hand Towel formats.
