

Playground Protectors Instructions

FOR THE TEACHER:

Once a week, clean up your school grounds or playground area. This is what we recommend.

Break into 3-4 teams. Within the team:

- One person will carry a small trash bag
- One person will record what is found
- Everyone else will pick up trash

Note: Children picking up trash should wear a glove on the hand they are picking up trash with.

Each team can spread out and clean a certain location.

When they put an item of trash in the bag, they call out what it is. The data recorder can then make a tally mark in the correct category.

When the sheet is full, you can take a picture of it and

email it to info@thewhalemobile.com or text it to 617-838-2646.

It's as easy as that!

Thank you for protecting your playground!

Fill in the dates you collect trash here. If you do it once a week, this card should last a month.

DATES →				
Plastic water bottles				
Juice Boxes				
Plastic straws				
Whole chip bags & candy wrappers				
Corners of chip bags & candy wrappers				
Plastic lids from water bottles				
Gum wrappers				
Ziplock bags				
Styrofoam bits				

List other things you find here!

Use tally marks to keep track of what you find here!

Playground Protectors Data Card

School Name: _____

Teacher's Name and Grade: _____

School City and State: _____

Number of Students in Class: _____

DATES →
