www.deck4innovation.com

- Certified Women Owned Small Business (WOSB)
- DCAA Compliant Accounting
- Full Employee Benefits Closely Match our Primes
- Employee Award and Moral Programs

CAGE: 6GC71

UEI: CVTQ83ELK15

NAICS: 541330, 541715,
541511, 541512,
541513, 541519

CORE COMPETENCIES:

- Providing expertise in modernization and certification for Launch Control, Telemetry, Space Flight Article Systems and Ground Support Equipment Systems
- Supplying multiple engineering disciplines supporting complex technical programs
- Agile and innovative in aligning with our customers' needs and expectations
- Active IR&D Program: Telemetry as a Service – Realtime Data, Playback, Simulation and Training

PAST PERFORMANCE:

Over 10 years providing service to our Primes

PRIME: JACOBS TECHNOLOGY

**TEAMMATE: Consolidated Operations, Management, Engineering and Test (COMET)
2023 – present (NASA, Kennedy Space Center, Florida) (Follow-on contract to TOSC)**

- Launch Operations and O&M of NASA Artemis Rocket, Orion Capsule and Ground Systems
- Upgrades to Launch Control and Telemetry, Flight Vehicle and Spacecraft and Ground Systems
- Engineering disciplines: Software, Telemetry, IT, Flight System, Ground System, Integration, Simulation, Mechanical, Electrical, Aerospace, Design, Technicians, Drafting

Subcontractor Test and Operation Support Contract (TOSC)

2013 – 2023 (NASA, Kennedy Space Center, Florida)

- Modernized Legacy Launch Control Room and Digital Processing Telemetry System
- Certified Ground Support Equipment including Pressure Vessel Systems

PRIME: AMENTUM

TEAMMATE: Kennedy Propellant and Life Support Services (KPLSS II)

2020 – present (NASA, Kennedy Space Center, Cape Canaveral Space Port Station, Florida)

- Supporting operational requirements for processing and distribution of propellants, pressurants, chemicals, provide life support services for working in toxic and oxygen deficient environments for space port customers
- Engineering disciplines: Ground System, Mechanical, Design, Project, Configuration Management, Drafting

PRIME: AECOM

SUBCONTRACTOR: Kennedy Propellant and Life Support Services (KPLSS I)

2015 – 2020 (NASA, Kennedy Space Center, Cape Canaveral Space Port Station, Florida)

- Supporting operational requirements for commodities for space port customers
