

Krooz Player on Firestick

Download and install guide

1

Install the Downloader app

- On your Firestick home screen, press Home on your remote.
- Select Find > Search from the menu.
- Type Downloader in the search bar and select it from the suggestions.
- Choose the orange Downloader app icon in the search results.
- Select Download or Get, then wait for installation to finish.
- Open Downloader from Apps & Channels and allow permissions when prompted.
- Use Downloader to download the Krooz Player app.

2

Enable apps from unknown sources

- Return to the Firestick Home Screen and open Settings (gear icon).
- Go to My Fire TV > Developer Options.
 - If Developer Options is not visible, open About and press Select on your remote 7 times.
- Choose Install Unknown Apps or Apps from Unknown Sources.
- Find Downloader and switch it ON.
