## MANAGEMENT'S DISCUSSION AND ANALYSIS of the Financial Condition and Results of Operations

(In thousands, except shares and per share amounts)

For the three and six months ended February 29, 2020 and February 28, 2019

April 29, 2020

### 1. INTRODUCTION

This management's discussion and analysis ("MD&A") of financial condition and result of operations of Kure Technologies, Inc. ("Kure" or "the Company") is supplementary to, and should be read in conjunction with, the Company's unaudited condensed consolidated interim financial statements for the three and six months ended February 29, 2020 and February 28, 2019.

The Company's consolidated financial statements and the notes thereto have been prepared on the basis of accounting principles applicable to a going concern. This assumes that the Company will operate for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations. Accordingly, they do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and liquidate its liabilities, other than in the normal course of business and at amounts different from those in the financial statements.

Unless specifically stated, the references to "Kure" or "the Company" include the legal entity Kure Technologies, Inc. and its wholly-owned subsidiary, UBS Wireless Services Inc. ("UBS Wireless").

### 2. ACCOUNTING STANDARDS ISSUED BUT NOT YET EFFECTIVE

The Company has reviewed new and revised accounting pronouncements that have been issued but are not yet effective under International Financial Reporting Standards ("IFRS"), and determined that the following may have an impact on the Company:

#### New standard IFRS 16 "Leases"

This new standard replaces IAS 17 "Leases" and the related interpretative guidance. IFRS 16 applies a control model to the identification of leases, distinguishing between a lease and a service contract on the basis of whether the customer controls the asset being leased. For those assets determined to meet the definition of a lease, IFRS 16 introduces significant changes to the accounting by lessees, introducing a single, on-balance sheet accounting model that is similar to current finance lease accounting, with limited exceptions for short-term leases or leases of low value assets. Lessor accounting is not substantially changed. The standard is effective for annual periods beginning on or after January 1, 2019. Overall, the Company does not expect the implementation of IFRS 16 to have a material impact on its consolidated financial statements.

### 3. CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This MD&A includes forward-looking statements and information concerning expected future events, the future performance of the Company, its operations, and its financial performance and condition. These forward-looking statements and information include, among others, statements with respect to the Company's objectives and strategies to achieve those objectives, as well as statements with respect to its beliefs, plans, expectations, anticipations, estimates, and intentions. When used in this MD&A, the words "believe", "anticipate", "may", "should", "intend", "estimate", "expect", "project", and similar expressions are intended to identify forward-looking statements, although not all forward-looking statements contain such words.

These forward-looking statements and information are based on current expectations. The Company cautions that all forward-looking statements and information are inherently uncertain and actual future results, conditions, actions or events may differ materially from the targets, assumptions, estimates, or expectations reflected or contained in the forward-looking statements and information, and that actual future results, conditions, actions, events, or performance will be affected by a number of factors including economic conditions and competitive factors, many of which are beyond the Company's control.

New risks and uncertainties arise from time to time, and it is impossible for the Company to predict these events or the effect that they may have on the Company. Certain statements in this MD&A, other than statements of historical fact, may include forward-looking information that involves various risks and uncertainties. This may include, without limitation, statements based on current expectations involving a number of risks and uncertainties. These risks and uncertainties include, but are not restricted to: (i) tax-related matters, (ii) financial risk related to short-term investments (including credit risks and reductions in interest rates), (iii) human resources developments, (iv) business integrations and internal reorganizations, (v) process risks, (vi) health and safety, (vii) the outcome of litigation and legal matters, (viii) any prospective acquisitions or divestitures, (ix) other risk factors related to the Company's historic business, and (x) risk factors related to the Company's future operations.

More specifically, Kure faces risks and uncertainties in connection with the outcome of litigation described under the section entitled "Overview – Significant current events – Jolian Parties update". In particular, there can be no assurance that Kure will be able to recover any of the amounts awarded it in the litigation.

For a more detailed discussion of factors that may affect actual results or cause actual results to differ materially from any conclusion, forecast or projection in these forward-looking statements and information, see the section entitled "Overview – Significant current events" below.

Therefore, future events and results may vary significantly from what the Company currently foresees. Readers are cautioned that the forward-looking statements and information made by the Company in this MD&A are stated as of the date of this MD&A, are subject to change after that date, are provided for the purposes of this MD&A and may not be appropriate for other purposes. We are under no obligation to update or alter the forward-looking statements, whether as a result of new information, future events, or otherwise, except as required by National Instrument 51-102, and we expressly disclaim any other such obligation.

## 4. OVERVIEW

### Significant current events

#### Novel Coronavirus (“COVID-19”)

The Company’s operations could be significantly adversely affected by the effects of a widespread global outbreak of a contagious disease, including the recent outbreak of respiratory illness caused by COVID-19. The Company cannot accurately predict the impact COVID-19 will have on its operations and the ability of others to meet their obligations with the Company, including uncertainties relating to the ultimate geographic spread of the virus, the severity of the disease, the duration of the outbreak, and the length of travel and quarantine restrictions imposed by governments of affected countries. In addition, a significant outbreak of contagious diseases in the human population could result in a widespread health crisis that could adversely affect the economies and financial markets of many countries, resulting in an economic downturn that could further affect the Company’s operations and ability to finance its operations.

#### Short-term loans

On November 30, 2018, a director extended interim unsecured funding to the Company totalling \$50 at an annual interest rate of 12% and a maturity date of June 3, 2019 and an additional \$20 on March 29, 2019, at an annual interest rate of 12% and a maturity date of September 27, 2019. The matured loans totalling \$70 remain unpaid by the Company and will continue to accrue interest at the rate of 12% per annum. On November 15, 2019, the Company renewed the two loans to a maturity date of May 15, 2020.

On December 18, 2019, a director extended additional interim unsecured funding to the Company totalling \$26 at an annual interest rate of 12% and a maturity date of May 15, 2020.

Interest owing on these loans as at February 29, 2020 totalled \$10.

#### Jolian Parties settlement

The Company sought to recover costs, disgorgement orders and post-judgment interest from a former Chief Executive Officer (“CEO”) and his consulting firm, together referred to as the “Jolian Parties”. On November 24, 2017, the Jolian Parties made a proposal under the Bankruptcy and Insolvency Act and the Company filed a proof of claim in respect of amounts owing by the Jolian Parties to the Company.

On December 2, 2019, a settlement agreement between the bankruptcy trustee and the Jolian Parties was approved by the Ontario Superior Court of Justice and the Company was awarded \$141 as follows:

- (a) 21% of \$500 on the closing date, and
- (b) 21% of \$75 by way of 24 consecutive monthly payments of \$3.

On January 30, 2020, the Company received \$35 after disbursements and fees were paid and the Company reversed accrued costs pertaining to the Jolian Parties of \$65 to professional fees.

### **The Company**

Kure Technologies, Inc. is a publicly listed Canadian company, trading on the NEX, which is a separate board of the TSX Venture Exchange, under the symbol KUR.H. Kure’s head office is located in Toronto, Ontario.

---

### Going concern

The going concern basis of presentation assumes that Kure will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business. There is some doubt about Kure's use of the going concern assumption as a result of the Company's current investment in ONEnergy Inc. ("ONEnergy").

Notwithstanding the above, the Company's unaudited condensed consolidated interim financial statements for the three and six months ended February 29, 2020 and February 28, 2019 have been prepared on a going concern basis and do not include any adjustments to the carrying values and classification of assets and liabilities and reported revenue and expenses that would be necessary if the going concern basis was not appropriate. Such adjustments could be material.

### **Strategy**

The Company's operating strategy is to preserve its cash, monitor its investment in ONEnergy, and explore opportunities to maximize shareholder value.

The Company is reviewing a variety of business plans and, while subject to change, is currently focusing its strategic efforts in the connected intelligent device sector which it believes has the most attractive opportunities.

### **Investment in ONEnergy**

As at February 29, 2020 and August 31, 2019, the Company held 1,075,500 shares in ONEnergy Inc. ("ONEnergy").

Trading of ONEnergy common shares was halted on May 7, 2019 as a result of a cease trade order due to non-compliance with the Ontario Securities Commission ("OSC").

The common shares of ONEnergy are expected to remain halted pending provision of additional information relating to a proposed transaction and until ONEnergy complies with OSC filing regulations. Given the significant uncertainty and the fact that ONEnergy's liabilities exceeded the book value of its assets, management determined that as at August 31, 2019 the fair value of this investment was nominal and reduced the carrying value to \$nil.

## **5. BASIS OF PREPARATION OF FINANCIAL STATEMENTS**

The unaudited condensed consolidated interim financial statements for the three and six months ended February 29, 2020 and February 28, 2019 include the accounts of Kure's wholly owned subsidiary, UBS Wireless. All significant intercompany balances and transactions have been eliminated upon consolidation.

## **6. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Management's discussion and analysis of operating results and financial condition are made with reference to the Company's unaudited condensed consolidated interim financial statements and notes thereto for the three and six months ended February 29, 2020 and February 28, 2019, which have been prepared in accordance with IFRS. The Company's significant accounting policies are summarized in detail in note 2 of the Company's consolidated annual financial statements for the year ended August 31, 2019.

---

## 7. RESULTS OF OPERATIONS

Highlights of the results for the three months ended February 29, 2020 include the following:

- Kure recorded income from operations totaling \$15 (February 28, 2019 – loss of \$41);
- The Company received \$33 in settlement proceeds from the Jolian Parties;
- As at February 29, 2020, Kure held cash of \$35 (August 31, 2019 - \$2).

During the three and six months ended February 29, 2020, the Company recorded \$30 and \$43 respectively (February 28, 2019 - \$35 and \$52 respectively).

## Interest and financing charges

No interest income was earned during the three and six months ended February 29, 2020.

Interest income for the three and six months ended February 28, 2019 totaling \$13 and \$22 respectively, was earned mainly on the Jolian Parties receivable (refer to the section entitled “Overview – Significant current events – Jolian Parties settlement”).

Interest expense for the three and six months ended February 29, 2020, totalling \$3 and \$5 respectively (February 28, 2019 - \$2 and \$2 respectively) arose from unsecured short-term loans outstanding, as discussed in the section entitled “Related party transactions – Short-term loans payable”.

## Income taxes

As at February 29, 2020 and August 31, 2019, the Company had \$21,168 in non-capital income tax losses with expiry dates between 2027 and 2039, SRED pool carryforwards of \$11,545, capital loss carryforwards of \$25,530, share issuance costs of \$11 and non-tax deductible reserves of \$65.

Tax attributes are subject to review, and potential adjustment, by tax authorities.

## Income (loss) and comprehensive income (loss)

For the three months ended February 29, 2020, the income and comprehensive income amounted to \$15 or \$0.00 per share, basic and diluted (February 28, 2019 – loss before comprehensive loss of \$41, or \$0.00 per share; loss and comprehensive loss of \$186 or \$0.01 per share, basic and diluted).

For the six months ended February 29, 2020, the loss and comprehensive loss totalled \$17 or \$0.00 per share, basic and diluted (February 28, 2019 – loss before comprehensive loss of \$78 or \$0.01 per share, basic and diluted; loss and comprehensive loss of \$223 or \$0.02 per share, basic and diluted).

## 9. LIQUIDITY AND CAPITAL RESOURCES

Kure held cash of \$35 as at February 29, 2020 (August 31, 2019 - \$2).

Cash provided by operating activities for the three and six months ended February 29, 2020 was \$2 and \$3 respectively, compared to cash used of \$45 and \$51 respectively for the three and six months ended February 28, 2019.

Financing activities recorded during the three and six months ended February 29, 2020 totalled \$30 and \$30 respectively (February 28, 2019 - \$NIL and \$50 respectively) resulted from receipt of unsecured loans from a related party to the Company (refer to the section entitled “Related party transactions – Short-term loans payable”).

There were no investing activities during the three and six months ended February 29, 2020 and February 28, 2019.

Kure has incurred operating losses and negative cash flows from operations in recent years. Kure will need to raise cash and/or reduce its outstanding commitments in order to meet the needs of its existing operations and commitments, giving rise to doubt about Kure’s use of the going concern.

The Company’s approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its current liabilities when due.

## 10. SHARE CAPITAL

As at February 29, 2020 and April 29, 2020, approximately 15,097,800 common shares in Kure were issued and outstanding.

## 11. STOCK BASED COMPENSATION

As at February 29, 2020 and August 31, 2019, no stock options were issued or outstanding, and no stock options were granted or expired.

## 12. RELATED PARTY TRANSACTIONS

### Compensation of key management personnel

The Company’s key management personnel include members of the executive team and the board of directors of the Company and its wholly owned subsidiaries.

Key management compensation for the six months ended February 29, 2020 totalled \$15 for director fees (February 28, 2019 – a total of \$24, which included \$13 for director fees and \$11 to the former CEO of the Company who resigned on November 21, 2018). The balance of compensation owing to key management personnel is summarized as follows:

	February 29, 2020	August 31, 2019
CEO compensation (net of applicable taxes)	\$ 111	\$ 111
Board fees	78	63
Total	\$ 189	\$ 174

---

There are no ongoing contractual or other commitments arising from these transactions with related parties.

---

### **Short-term loans payable**

The Company executed loans payable with a director during fiscal 2019 and 2020. As at February 29, 2020, \$106 remained outstanding (August 31, 2019 - \$76). Refer also to the section entitled “Overview – Significant current events – Loans payable”.

### **13. CONTINGENCIES**

In the normal course of its operations, the Company may be subject to other litigation and claims.

The Company indemnifies its directors, officers, consultants, and employees against claims and costs reasonably incurred and resulting from the performance of their services to the Company, and maintains liability insurance for its directors and officers.

### **14. OPERATING RISKS AND UNCERTAINTIES**

#### **Management of capital**

The Company’s overall strategy with respect to management of capital is to provide the financial capacity and flexibility in order to preserve its ability to meet its strategic objectives and financial obligations and continue as a going concern. This is effected by offsetting less liquid strategic investment holdings with low-risk highly-liquid cash accounts and, from time to time, short-term deposits.

As at February 29, 2020, the Company is not subject to any externally imposed capital requirements. The Company defines its capital as shareholders’ equity plus short term loans.

The Company invests its liquid capital in short-term investments to obtain adequate cash returns. The investment decision is based on cash management to ensure working capital is available to meet the Company’s short-term obligations while maximizing liquidity, and returns on unused capital and allowing flexibility in holding longer term strategic investments. There were no changes to the Company’s strategy management of capital during the three and six months ended February 29, 2020.

#### **Financial instruments and risk management**

The Company's activities may expose it to a variety of financial risks: credit risk, liquidity risk and market risk (including interest rate and equity price risk).

Risk management is carried out by the Company's management team with guidance from the Audit Committee, under policies approved by the Board of Directors. The Board of Directors also provides regular guidance for overall risk management.

#### Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its obligations.

#### Interest rate risk

The Company had no significant exposure to interest rate risk through its financial instruments as at February 29, 2020 and August 31, 2019.

---

#### Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its obligations associated with financial liabilities. The Company has a planning and budgeting process in place by which it anticipates and determines the funds required to support normal operation requirements. The Company coordinates this planning and budgeting process with its financing activities through the capital management process described in the section entitled “Operating risks and uncertainties – Management of capital”, in normal circumstances.

The Company’s financial liabilities are comprised of its accounts payable and accrued liabilities, and short-term loans.

#### Other price risk

The Company is exposed to other price risk on its investment in equities quoted in an active market since changes in market prices could result in changes in the fair value of the investment.

### **16. PROPOSED TRANSACTIONS & OFF BALANCE SHEET ARRANGEMENTS**

There are no proposed transactions or off balance sheet arrangements.

### **17. ADDITIONAL INFORMATION**
