Notice to All Republican Form States and Congressional Officers and Businesses doing commerce within the 50 American States

[Demand for Investigation and Restricting or revoking of License to Commerce Entities Enforcing Oppressive Demands On the People or Workers]

I, \_\_\_\_\_, one of the People, do give notice to you as a government official or business owner, in order to make clear the law created by the People, as forefathers of America, and Framers of the 50 State Constitutions and the Constitution of the United States of America, that you and your agents may provide due care and immediate remedy to the People;

I, declare that the United States government already swore to provide a Republican Form of Government to All 50 States (See the Constitutional Provision Below):

**Article 4 Section 4 United States Constitution:**

**Section 4**

The United States shall guarantee to every State in this Union a Republican Form of Government, and shall protect each of them against Invasion; and on Application of the Legislature, or of the Executive (when the Legislature cannot be convened) against domestic Violence.

Please take further notice, that as one of the People, I recognize that there are Federal and State Partnerships that allow money to be given to businesses for following Covid Mandates and that the Federal programs also give administrative cost that benefit all parties administering the programs, thus leaving unclean hands and conflicts of interest that are not usually known by the common people. Therefore, I wish to break down fundamental principles about republics, that you may realize that you are not allowed to interfere with rights of the People by vote and any attempts are considered a trespass (please see authorities below):

1. Kentucky Constitution Bill of Rights: Text of Section 2:

Absolute and arbitrary power over the lives, liberty and property of freemen exists nowhere in a republic, not even in the largest majority.

Arizona Constitution Declaration of Rights: Text of Section 8:

Right to Privacy: "No person shall be disturbed in his private affairs, or his home invaded, without authority of law."

### 3. Etymology: Republic republic (n.)

"state in which supreme or executive power rests in the people via representatives chosen by citizens entitled to vote," c. 1600, from French république (15c.), from Latin respublica (ablative republica) "the common weal, a commonwealth, state, republic," literally res publica "public interest, the state," from **res "affair, matter, thing" (see re) + publica, fem. of publicus "public" (see public (adj.)).** [Emphasis by Highlight Added]

Please take notice that the word Republic deals with affairs, matters, and things that are open to the public, and not things that are private, in which neither the States nor Federal Government were given any authority. Health decisions dealing with personal medical treatments, decisions to wear mask, carry vaccine identification or even sharing that information, are all things dealing with one's private health. Knowledge related to private information is not granted as a power to any government and therefore a conflict of interest when a government entices businesses to enforce these measures on the People, or as employers for compensation by those acting as the People's Trustees;

### 4. Texas Constitution Bill of Rights:

#### **Text of Section 2:**

#### **Inherent Political Power; Republican Form of Government**

All political power is inherent in the people, and all free governments are founded on their authority, and instituted for their benefit. The faith of the people of Texas stands pledged to the preservation of a **republican form of government,** and, subject to this limitation only, they have at all times the inalienable right to alter, reform or abolish their government in such manner as they may think expedient. [Emphasis by Highlight Added]

Please take notice that in republican forms of government that the People have all power, and government is not found on the will of any government worker, but simply the People, and they hold the power to reform government at will. Please take further notice that any time the People declare Bills or Declarations of Rights in Republics, the government and its agents are barred from interfering with those powers as they are excepted from the general powers of government (see authority below):

#### **Text of Section 29:**

#### **Provisions of Bill of Rights Excepted from Powers of Government; to Forever Remain Inviolable**

To guard against transgressions of the high powers herein delegated, we declare that everything in this **"Bill of Rights" is excepted out of the general powers of government, and shall forever remain inviolable, and all laws contrary thereto, or to the following provisions, shall be void.** [Emphasis by Highlight Added]

Please take notice that in republican forms of government, the fundamental law is mandatory and guaranteed and based on the will of the People. In none of the 50 Constitutions or the United States Constitution did the People give power over their private matters to any

government servant, nor does the government have authority in the Federal to offer anything other than government in republican form for all the states. All governments are without authority to interfere with any freedom or liberty stated and declared in any of the State Constitutions and I declare that all for profit partnerships, Title 42 Revenue generating programs, are unlawful to be used against the People with any type of government agents using any force or coercion, by themselves or the corporate entities created in any state by the permission of the People. If you believe that the People gave you power over their private affairs as a Corporation, to order vaccine mandates for employment, it is my wish for the Federal and appropriate State Legislature to immediately investigate this activity and to restrict or prohibit the commerce of this company in this state or in the United States of America. Furthermore, I wish for any company or federal actor, that may be receiving any funds in any partnership or program related to Covid to give full disclosure of all funds distributed or received. **It is also my demand that my private rights, and the rights and liberty interest of all Americans be respected and that there be a \$20,000,000 fine for each occurrence of termination or lay off based on any Vaccine or Mask mandate.** By not responding with Constitutional Authority for forcing these things on any employee, as one of the People, you agree to be personally bound for using authority not given in any Constitution or for not protecting the rights of one of the People as an Employer.
