 - A. Website Development. I have someone in mind for the website development and upkeep. After the quarantine is lifted, we can get started on that. Right now Joanne is swamped and doesn't have time to devote to go through it and see what this person has to offer and then decide on compensation.
 - B. Citizens Awards to be held July 18, 2020. We had a phone meeting and decided who the winners are from the nominees that were handed in. We have a problem though... a day after that Francesca's closed permanently so we need to either put off the dinner or try to find another venue. Anyone have a clue for me? I need to come up with something soon so we can reprint tickets and posters and let the winners know that they have won and when it is going to happen.
 - C. Update on Light Pole Flags. – We haven't been able to meet with Ken Irwin.
