

After clicking Make a Comment your browser may **block** the objection pop-up window and your page will not change. If this happens:

On a laptop, a window should appear top right. Use it to 'allow pop ups'.

If using a mobile:

- Go to **Settings**
- Scroll down to find your browser (eg Safari or Chrome)
- Click on your browser, and scroll down to **Block pop-ups**.
- SWITCH THE BUTTON TO OFF.

To the prompt 'This site is attempting to open a pop-up window' click **ALLOW**.
