

MATTED DOG RELEASE FORM

Dogs with severely matted coats require extra attention. Kenna's Grooming Garage will not cause serious or undue stress to pets by de-matting.

Mats can be difficult to remove, and may require the pet to be shaved. Removing a heavily matted coat can cause nicks, cuts, or abrasions. In severe cases hematomas can also occur. Heavy matting can also trap moisture and urine near the pet's skin, allowing mold, fungus, or bacteria to grow, and/or revealing skin irritations that existed prior to the grooming process. After-effects of the mat removal can include itchiness, redness, self-inflicted irritations or abrasions, and failure for hair to regrow. In some cases, pets may also exhibit brief behavioral changes.

Dog's Name _____

I hereby release Kenna's Grooming Garage from any liability associated with any and all injuries or medical problems that may be uncovered and/or occur during the de-matting process. Should my pet need veterinarian care after or during the process of de-matting, I (pet's guardian) agree to pay any and all veterinarian fees.
