Collection Card

- **Super Audit Card - CSU**

This card is used to collect discreet and accountable data from 16 CardSlides on a single card. Data will then be downloaded and processed using the LLMS™ on a PC.

- **Audit Card - VTM™**

This card is used to collect discreet and accountable data from one VTM™. Data will then be downloaded and processed using the LLMS™ on a PC.

- **Visual Audit Card - VTM™**

This card provides visual collection data from the VTM™ which can be read on the VTM™ display on site.

- **Set Up Cards**

These cards are programmed, using the LLMS™ on a PC, with an elective set of user defined parameters including vend price, special time discounts, class discounts, run time and top-off. Cards are then inserted into CardSlides of washers, dryers, soap machines and vending machines to complete the user friendly programming procedure.

- **Data Trac™**

This card activates a unique card tracking function, which allows management to verify the activity of a customer's card and provide the operator an accurate accountability of all funds added to the customer's card.

A complete management card set is included with purchase of an ESD MoneyCard System. The card set contents depend upon the options purchased
