

# Reality Technology, Inc. (RTI) Capability Statement

## Company Overview

Reality Technology, Inc. (RTI) is a full-service technology provider serving clients nationwide. Our offerings range from innovative software solutions to IT infrastructure optimization designed to engage community stakeholders. We specialize in technology integration, compliance management, and staffing solutions tailored to meet the unique needs of government agencies. RTI also provides a patent-pending RS Compliance Manager™ tool to support legislative oversight requirements.

## Core Competencies

- **Custom Software Development:** Tailored software solutions designed to meet unique agency requirements.
- **Software Maintenance and Support:** Ongoing services to ensure software systems operate effectively and securely.
- **Application Modernization:** Updating legacy systems to enhance functionality and integrate with newer technologies.
- **Database Development and Management:** Creating and maintaining databases to support various governmental operations.
- **Web Application Development:** Building and deploying web-based applications for public access or internal use.
- **Mobile Application Development:** Developing mobile apps to facilitate government services on portable devices.
- **System Integration Services:** Ensuring diverse software and hardware systems work cohesively.
- **Cybersecurity Software Development:** Crafting tools to protect against cyber threats and ensure data integrity.
- **Cloud-Based Software Solutions:** Developing applications optimized for cloud environments to enhance scalability and accessibility.
- **Data Analytics and Reporting Tools:** Creating software to analyze data and generate actionable insights for decision-making.

Our aim is to enhance operational efficiency, security, and service delivery across various federal agencies.

## Contracting Information

- **GSA Contract:** GS-35F-0147T
- **SeaPort NxG:** N0017821D9306
- **CAGE Code:** 3CDC7 | **UEI:** CLMTVM84XYE7
- **NAICS Codes:** 541511, 541512, 541513, 541519, 518210, 541330, 541618, 541990

## Socio-Economic Status

- **Small Business Enterprise (SBE)**
- **Minority Business Enterprise (MBE)**
- **Disadvantaged Business Enterprise (DBE)**

## Past Performance

- **Knowledge & Record Management System:** Implemented to enhance data retrieval and compliance for the Asian Pacific Center for Security Studies.
- **Procurement Management and Oversight:** Developed the RS Compliance Manager™ for efficient procurement policy compliance tracking and oversight of contracts, grants, and asset maintenance for local municipalities.
- **Data Analysis and Management System:** Delivered robust data analysis and reporting capabilities for the Bureau of Reclamation.
- **Business Impact Analysis and Risk Assessment:** Performed Business Impact Analysis in accordance with NIST Special Publication (SP) 800-34 and Risk Assessment in accordance with NIST Special Publication (SP) 800-30 on over 35 software systems and applications for the National Park Service.

## Differentiators

- **High Project Success Rate:** Proven track record of delivering quality solutions on time and within budget.
- **Comprehensive Services:** End-to-end support from procurement to project execution, addressing unique agency requirements.
- **Patent-Pending Technology:** RS Compliance Manager™ supports efficient contract management and diversity goal tracking.
