Core Competencies

Reality Technology, Inc. (RTI) is a cloud software development company specializing in all phases of the SDLC, delivering Reality Software™ products purpose-built for government agencies, nonprofits, prime contractors, and small businesses.

› Business Impact Analysis & Risk Assessment / IT Impact Analyses
› SharePoint Design and Development
› Business Intelligence (BI) and Practical AI Applications
› Web Services & Development / Business Systems and Applications
› Software as a Service (SaaS) — Cloud-Native Solutions
› Information Technology Architecture (ITA) Support
› Water Conservation & Infrastructure Intelligence
› Contract, Grant & Compliance Management Software
› Unified Communications & Collaboration Platforms

Reality Software™ Suite

■ **RS Compliance Manager**
Contract, grant & project management with integrated DBE/MBE/WBE compliance tracking and audit-ready reporting.

■ **RS Infrastructure Manager**
Unified IT asset lifecycle, hardware/software inventory, service ticketing, and government procurement management.

■ **RS Unified Communications**
Integrated team messaging, workflow automation, multi-platform collaboration, and AI-assisted task management.

■ **RS Conserve™**
Water conservation & infrastructure intelligence for municipalities, utilities, irrigation districts, and federal water programs — asset management, field inspections, hydraulics, and risk analysis.
