Atlas Vantage Capabilities Statement

Atlas Vantage provides consulting services in AI strategy, program and project management, operational resilience, crisis management, and enterprise and operational risk. We help organizations strengthen oversight, improve preparedness, and manage complex business challenges with clarity and control.

We support Financial Services, Healthcare, Life Sciences, Insurance, Manufacturing, Distribution, Technology, SaaS, and enterprise clients operating in demanding and regulated environments. Our work combines strategic advisory, hands-on execution, and standards-informed methods to help clients reduce risk, improve readiness, and deliver critical projects and initiatives successfully.

Our Core Services

Business Continuity & Operational Resilience

Strategy & Governance

- Polycrisis strategy design aligned to evolving global and enterprise risk conditions
- ISO 22301 and ISO 27001 readiness, alignment, and compliance support
- Business Impact Analysis (BIA) design, oversight, audit support, and program management
- Operational resilience frameworks for Financial Services and other regulated sectors
- Executive protection and duty-of-care program advisory services

Strategy & Plan Development

- Business Continuity, Crisis Management, Emergency Response, and Hazard Mitigation Plans
- Operational resilience policies, charters, and governance frameworks
- Plan assessment, enhancement, remediation, and independent verification and validation (IV&V)

Exercises & Readiness

- Tabletop, functional, virtual, on-site, and full-scale exercise design and delivery
- All-hazards scenario development for natural, technological, and human-caused events
- Workforce relocation, continuity activation, and operational recovery drills
- Concurrent and cross-functional disruption scenario testing
- After-action reporting, lessons learned, and corrective action planning

Command Centers & Crisis Coordination

- Physical and virtual command center design and implementation
- Crisis communications workflows, escalation structures, and coordination support

Risk Management Services

Enterprise Risk Management (ERM)

- Enterprise risk assessments and prioritization
- Risk governance design and reporting structures
- Executive risk dashboards and escalation protocols

Operational Risk Management (ORM)

- Process-level risk identification and mitigation planning
- Control design, gap analysis, and remediation support
- Operational risk reporting and issue management

Risk Assessment & Compliance

- Site risk assessments with threat modeling (all-hazards approach)
- Risk register development, review, and audit support
- Business continuity, GRC, and Legal alignment assessments and gap analysis
- Analytical Risk Management (ARM) software implementation, optimization, and reporting support

Atlas Vantage, LLC

www.AtlasVantage.com | Info@AtlasVantage.com

- Analytical Risk Management (ARM) software for consistency and precision

AI Strategy Consulting

Atlas Vantage helps organizations adopt AI responsibly by aligning strategy, governance, workflow design, and change readiness to measurable business goals.

- AI strategy and implementation roadmaps
- AI readiness and capability assessments
- AI governance, risk, and responsible-use frameworks
- AI use case prioritization and workflow automation design
- AI tool selection and solution evaluation
- AI training, adoption, and change management support

Special Projects

- Staff Augmentation – Interim VP-, Director-, and program-level leadership support for strategy, M&A, organizational restructuring, and resizing initiatives
- Audit remediation planning and targeted corrective action support

Project & Program Management

- Complex project and program delivery oversight with disciplined scope, schedule, cost, and governance control
- PMO design, stand-up, governance, and operational management
- Project recovery, stabilization, and corrective-action support for challenged initiatives
- Project and program optimization aligned to governance standards and delivery best practices
- Project risk management, dependency oversight, and portfolio-level reporting
- Interim project and program leadership support

Educational Services

Atlas Vantage provides practical, executive-ready training designed to strengthen organizational capability in operational resilience, crisis management, risk management, AI strategy, and program leadership. Our education solutions are tailored to your operating environment, regulatory context, and audience needs.

- Topics Covered - Operational resilience, business continuity, crisis management, emergency management, enterprise and operational risk, AI strategy, governance, PMO leadership, and related disciplines
- Target Audience - Executive leaders, resilience and continuity leaders, risk and compliance executives, IT and cybersecurity leaders, PMO and transformation leaders, operations executives, and AI and innovation decision-makers
- Delivery Options - On-site, virtual, and hybrid delivery models
- Session Formats - Half-day, full-day, and multi-day workshops, briefings, and training programs
- Curriculum Design - Tailored to your organization's objectives, industry, regulatory environment, and maturity level
- Instructors - Certified practitioners with deep real-world leadership, advisory, and implementation experience
